He also left about \$600 debts to various parties. Speculation in bucket shops is the cause of the young man's crime. The whole work, including every eventuality, is set down at \$43,000,000 francs, or \$16,860,000. Complementary studies are still going on, and will reduce these figures, it is believed, and several members of the commission believe that the entire enterprise will not involve an outlay of more than \$15,000,000. The time allowed for the work will be eight years.

Received: One hundred and thirty-five barrels of extra choice New York eating apples, in first class condition.

It is especially the case in our business that the choicest goods of one season do not look well the next. Customers want something fresh and new looking. We want our room for our new Spring and Summer styles, which we will receive as soon as they are out. Remember the store, Danforth & Duffack's block, Third street.
