Poetry.

The fulsome world's promiscuous flow,
Emerged in fancy's vision,
Allured by sounds, beguiled by show,
In empty dreams that scarcely know,
There is a brighter *Heaven*.

Fine gold will change, and diamonds fade,
Swift wings to wealth are given,
All varying times our forms invade,
The summer roll, light make in shade,
There's nothing lasts but *Heaven*.

Creation's mighty fabric, yet,
Will be in atoms riven;
The sky consume, the planets fall,
Convulsions rock this earthly ball;
There's nothing firm but *Heaven*.

Empire's decay and nations die,
Our hopes to winds are given,
The vernal bloom in ruins lie,
Death reigns o'er all beneath the sky,
There's nothing lives but *Heaven*.

This world is poor from shore to shore,
And like a baseless vision,
Its lofty domes, and brilliant ore,
And grass, and crowns are vain and poor,
There's nothing rich but *Heaven*.

A stranger lonely here I roam,
From place to place I'm driven,
My friends are gone, and I'm alone,
I wander here without a home
I seek a home in *Heaven*.

The clouds disperse, the light appears,
My alms are all forgiven;
Triumphant grace has quelled my fears
Soon on their sand its swift ye years
I'm on my way to *Heaven*.

Adieu, to all below adieu,
Let life's frail chain be riven,
The charms of Christ have caught my view,
To worlds of light I will pursue,
To Live with Christ in *Heaven*.

There is an hour of peaceful rest,
To mourning wanderers given
There is a tear for souls distressed,
A balm for every wounded breast,
'Tis found alone in *Heaven*.

There is a home for every soul,
By sins and sorrows driven;
When tossed on life's tempestuous shoals,
Where storms arise, and ocean rolls,
And all is drear but *Heaven*.

There faith lifts up the fearless eye,
The heart with rapture raises;
It views the tempest passing by,
Sees evening shadows quickly fly,
And all serene in *Heaven*.

There fragrant flowers immortal bloom,
And joys supreme are given;
There rays divine disperse the gloom;
Beyond the dark and narrow tomb,
Appears the dawn of *Heaven*.

TO the Hon. the Probate Court for the District of Rutland.

OLIVER WARNER administrator of the estate of Asa Warner, late of Wallingford deceased, respectfully represents that the said intestate, did in his life time, enter into a certain contract in writing, bearing date at Wallingford the 21st day of March, 1827, with Sam'l Morrison then and there agreeing to convey to said Sam'l a certain piece of land and shop, situate and being in Wallingford, for which the said Sam'l gave his note for one hundred and eighty dollars; said contract conditioned that said Morrison pay said sum of money then the said deceased would convey unto him the said land and shop, according to the stipulation in said contract which said contract was at the decease of the said Asa Warner and still is unexecuted.

Wherefore, the said Oliver prays with said court to grant unto him liberty and authority to deal said land according to the terms of said contract, agreeably to the statute in such case made and provided.

OLIVER WARNER.

SCHOOL BOOKS **of all kinds to be had at the BOOK STORE.**

To the Inhabitants of Rutland County.

UNDERSTANDING that there is a prejudice among some of you against a medicine purporting to be "Morison's Pills, made at the British College of Health;" this notice is inserted to let you know that Mr H. Shephard Moat is not the agent of said College, but that his agency has ceased and that Mr Geo. Taylor has been sent out from London and of him and of his agents only can the genuine, "Morison's Pills or Hygeian Universal Medicines," made by Morisons the Hygeist at said College, be obtained. The College write and advertise that Mr Taylor is a gentleman in whom they have every confidence, and is the only person to whom they consign their invaluable medicines for the United States. Mr Taylor writes as follows:—

"To the agents for the sale of the Hygeian Medicines of the British College of Health:

Gentlemen—I am informed that circulars have been sent to you from Dr Moat, charging all the blame of the different and numerous complaints of the operation of the medicines which have been of late sold by him, to the careless manner in which they have been compounded by the British College of Health. To refute this bold charge, and show that it does not have truth for its basis, I might call upon you to infer, from the immense quantity of medicines that Dr Moat has issued for two years past as compared with the trifling amount which has been sent him from the College, which does not amount to Four Thousand pounds Sterling, as appears by the accounts in my possession. Look at one moment at the *difference* between the *sales* and the *imports* of the medicines. You see "the Source refuses to supply the Stream and immediately the stream declares the source is polluted, and that it will have a fountain of its own." You can most likely see the reason why the medicines sold for two years past, have not had the great beneficial influence which they formerly had. You can now obtain the Genuine Medicine of Messrs Pangborn and Brinsmaid, Burlington, Vt., who are my State agents, and of their regular appointed agents who will all have a certificate of appointment signed by me. Every packet sold in Vermont, will be signed by *Pangborn & Brinsmaid*, and also by their agent selling it. *No others can be genuine.*

GEO. TAYLOR, 13 Chamber st. New York, member of the British College of Health, and sole Hygeian delegate to the United States, sent out by said College.

We would respectfully inform the citizens of this county that the genuine Hygeian Medicines have had a very great and beneficial effect in curing many among our friends and acquaintances in Burlington did we not believe it to be a good Medicine, we would not not have any thing to do with it.—And were we not *perfectly* satisfied that we have the genuine article made by Morison the Hygeist," we would not sell it.

Matchless Sanative!

IT appears by the following information given to the public by D. S. Rowland, of Boston, that the much talked of MATCHLESS SANATIVE is indeed what it professes to be—an efficient and valuable medicine, worthy the serious attention of every consumptive person.

MATCHLESS SANATIVE

David S. Rowland, the General American agent for this mighty medicine (invented by the immortal Goelicke, of Germany) has great pleasure in publishing the following highly important letter from a respectable gentleman in New York, which he has recently received with many others of similar character—also a very interesting intelligence from several of his agents, especially from Salem, as will be seen below—which, together with the annexed certificate from three eminent German physicians, must forever establish the character of the Sanative, as being without a parallel in the history of medicine.

[The unequalled reception with which it is met, speaks more than volumes in its favor. Already has its list of agents in America, in the short period of three months, swelled to the goodly number of

SEVEN HUNDRED AND TWENTY-ONE!!!

(mostly Postmasters) who have voluntarily applied for agencies from different sections of the country, or else kindly forwarded responsible names as agents, in cases where it was inconvenient for them to act in that capacity—and new applications are daily pouring in from every quarter.

The General Agent has just received another importation of *FIFTY THOUSAND PHIALS OF THE SANATIVE*, yet he is apprehensive, that even this large quantity will be swept away by the flood of orders from abroad, before he shall receive another supply.—Many of the gentlemen who write for agencies, having expressed a wish that the sale of the medicine might be given exclusively to one individual in every town, there will hereafter be but one agent appointed in each unsupplied town and city—viz: the Postmaster or some person recommended by the Postmaster. And as letters are constantly being received from invalids in their unsupplied places, for a single phial each, the Postmasters of such towns would both benefit themselves and greatly accommodate their fellow citizens, by having their names immediately added to the list of agents.

In cases where it is not perfectly convenient to remit the "small contingent bill," all orders will meet with the same prompt attention as if that sum were forwarded; though it is very desirable that agents should comply with the terms of the prospectus as far as practicable, for the General Agent is responsible for any deviation from the established rules.

The General Agent at Boston, will gratefully thank any Postmaster who cannot act as an agent, if he will have the goodness to forward him the name of some responsible Storekeeper, in order that so invaluable a medicine as the Sanative proves to be, may have an agent in every town throghout the country.]

TESTIMONY No. 1.

A Letter from H. F. SHERWOOD, Esq., of N. Y.

DR D. S. Rowland,—Sir: About the middle of July last, I accidentally noticed in a newspaper the advertisement of the *Matchless Sanative*, for which I perceived you were agent, and which professed to be a sovereign remedy for Consumption.

As my wife was then fast wasting away with this dreadful disease, and as our family physician was daily and hourly anxiously endeavoring to restore her to health without success, I stepped over to his house and asked him if he had any objections to her taking this new medicine. He replied, that "he was perfectly willing that Mrs Sherwood should take that or any other medicine she should choose, but he thought it could do no good, as her lungs were rapidly consuming, and no human means could save her." Still, as a drowning person will catch at a straw, and the Sanative being recommended by three physicians who had used it in their practice, she consented to give it a trial. I went and purchased a phial, which she commenced taking three times a day, giving a free indulgence to her appetite according to the directions. By pursuing this course, she suffered considerably for the first eight or ten days, but was shortly able to eat and drink freely, with out the least inconvenience.

Within four weeks from her first using the medicine, her feeble and wasted form began to put on new strength and she has been gaining from day to day until the present moment, to the utter astonishment of our family physician and friends. She is now enjoying a comfortable (though not perfect) state of health, is able to be about house and attend church.

Mrs Sherwood and myself are both fully of opinion, and so are all who know her remarkable case, that she owes her life to the Sanative alone; and as there are probably many consumptive persons in the United States who have not yet heard of this medicine, measures ought speedily to be adopted to have it more generally known.

A number of persons in this neighborhood, I understand, are taking it for other serious complaints, with very great benefit.

I think of going to the South, with my family, sometime this fall, and in case I do, I will proclaim the virtues of the Sanative in that quarter; for although some of the physicians here are actively opposed to it, I do sincerly believe it saved my wife from an opening grave.

If you think this letter will serve the public good, you are at liberty to publish it.

Respectfully, &c. H. F. SHERWOOD.

TESTIMONY NO. 3.

A Certificate from three members of the MEDICAL PROFESSION, in Germany, in Europe.

We, the undersigned, practitioners of medicine in Germany, are well aware that by our course we may forfeit the friendship of some of the faculty, but not of its benevolent members, who are undinfluenced by selfish motives. Though we shall refrain from an expression of our opinion, either of the soundness or unsoundness of Dr Goelicke's new doctrine, we are happy to say that we deem his Sanative too valuable not to be generally known; for what our eyes behold and our ears hear, we must believe.

We hereby state, that when Dr Louis Offen Goelicke first came before the German public, as the pretended discoverer of a new doctrine and a new medicine, we held him in the highest contempt, believing and openly pronouncing him to be a base impostor and the prince of quacks. But, on hearing so much about the Sanative, against it and for it, we were induced, from motives of curiosity merely, to make trial of its reputed virtues upon a number of our most hopeless patients: and we now deem it our bounden duty (even at the expense of our self-interest) publicly to acknowledge its mighty efficacy, in curing not only consumption, but other fearful maladies, which we have heretofore believed incurable. Our contempt for the discoverer of this medicine was at once swallowed up in our utter astonishment at these unexpected results; and as amends for our abuse of him we do frankly confess to the world, that we believe him a philanthropist, who does honor to the profession and to our country, which gave him birth.

The recent adoption of this medicine into some of our European Hospitals is a sufficient guaranty that it performs all it promises. It needed not our testimony, for wherever it is used, it is its own best witness.

Consumption!

EASILY overcome in its infancy, it rapidly arrives, if neglected, at an unconquerable and terrific maturity. An obstinate, violent and convulsive cough is the inevitable forerunner, when neglected, of the Pulmonary Consumption and its attendant train of horrors; increased heat and pulse, nausea, oppression of the breast, greenish and bloody spittle, loss of appetite and increase of thirst, ulcerated lungs, clammy sweats and hectic fever; general emaciation of the body, shrivelled extremities, excessive and weakening discharges, sinking of the eyes, prostration of strength, burning palms and flushed cheeks swollen feet and legs; and at length, while the wretched sufferer is still sanguine of life, cold extremities and agonizing death. These evils may be nipped in the bud by the timely administration of that long tried and invaluable medicine,

WIDOWS

OF OFFICERS OR SOLDIERS OF THE REVOLUTION, who were married *before* the close of their last term of Service, whose husbands served, agreeably to the act of Congress of the 7th June, 1832, two years, and not less than six months, can now draw during life, or during their remaining single, by virtue of the act of 4th July, 1836, such pensions as their husbands would have been entitled to, under the first mentioned act; whether their husbands may have died during the war, or since that period. Also, the widows of such Officers or soldier who were married *after* that war, whose husbands have died since the 4th of March, 1831, and before the 7 June, 1832, can draw so much as their respective husbands would have been entitled to, under the act of June 7, 1832, from the said 4 March, 1831, to the day of the said husbands' decease.

POSTSCRIPT, MARCH 25, 1837.—By a late act of Congress, the benefits of the 3d section of the act of July 4, 1836, are extended to widows who have married since the decease of their first husbands; for whose services, such widows may now claim pensions under said act, provided they were widows at the time of its passage. Also, the widow of any person who continued in the U. S. service until the 3d of November, 1783, and was married before that day, and while her husband was in such service, will be entitled to the benefit of said 3d section.

Brandreth's Pills.

"The true riches of Life are Health."

WE know that health and ability to labor, is the wealth of the great mass of the people in this, as in most other countries. To preserve, therefore, that health by natural means, as a grand, moral and political scheme, to fulfil which, requires our utmost attention.

The unprecedented success which has resulted from Brandreth's Pills, during a period of upwards of eighty five years, the numerous and extraordinary cures which they have performed upon hundreds of individuals whom they have rescued from almost inevitable death, after they had been pronounced incurable by the most eminent of the faculty—justify Dr Brandreth, the proprietor of this universal medicine, in warmly and conscientiously recommending it to the special notice of the public

Dr Brandreth wishes mankind to consider this truth, that health depends on the state of purity in which the blood is kept, every part of the body being supplied daily with new blood from the food consumed, consequently, according to the pureness of that blood, so must the state of the body be more or less healthy. To obtain therefore, the most direct purifier of the blood is a question of no little importance to every individual.

That Brandreth's Pills are the most direct purifiers of the blood, there will be no doubt when it is known that they have gained their present very extensive sale by their own intrinsic merit; proved by the numerous cures which they have accomplished in every variety of disease.

The peculiar action of these pills is most surprising; their opperations being more or less powerful, according to the pureness of the circulating fluid. On a person in a fair state of health, who is only costive or slightly bilious, they will be scarcely felt; on the contrary, if the complaint be chronic and the constitution be much deranged, the effect generally at first is most powerful, until the system be freed of some of its most vitiated and torpid humors. This accomplished, doses sufficient to cause two or three evacuations daily, will soon remove the disease, and the constitution will soon be restored to a state of health and renewed vigor.

These pills are recommended by thousands of persons whom they have cured of consumption, influenza, colds, indigestion, dyspepsia, headache, asthma, gout, rheumatism, nervous diseases, liver complaint, pleurisy, depression of spirits, fits, palsy, dropsy, croup, coughs, whooping cough, quinsy, cholic, cholera morbus, gravel, worms, dysentary, deafness, scrofula, erysipelas, or St Anthony's fire, salt rheum, white swellings, cancers, tumors, swelled feet and legs, piles, costiveness, all eruptions of the skin, female complaints of every kind, especially obstructions, relaxations &c. &c.

Such is the reputation, and so great the demand for the Genuine "Brandreth's Vegetable Universal Pills," that a counterfeit article is made, *advertised* and *sold* as genuine—and some individuals who sell the counterfeit pills, have advertised *themselves* as my agents, and I have found it necessary to preserve the reputation of my pills, and save the public from imposition, to furnish every agent with a certificate, which is as follows:—

Vegetable Balsamic Elixir.

FOR Coughs, Colds, Consumption, Catarrh, Croup, Asthma, Whooping Cough, and of all other diseases of the head, chest and lungs.

Pamphlets containing a history of the medicine—a sketch of the diseases for which it is recommended, certificates from unquestionable sources—ample directions accompanying each bottle—may be had of any of the Agencies, gratis.

CERTIFICATES.

For the benefit of the afflicted, I beg leave to give the Rev. N. H. Downs' Vegetable Balsamic Elixir, the highest possible recommendation. I have given it to a child of mine whose lungs were evidently dangerously affected and for whom we were much alarmed, after having tried many other remedies in vain—the result is, the disease is now apparently removed and the child restored to health. To effect this, one phial only has been used.

Certificate of Benjamin Bailey, Jr.

THIS may certify, that for more than two years I labored under a severe and distressing affection of the lungs, calling in all the aid of Physicians that could be obtained, with little or no relief until I despaired of ever being able again to benefit myself and family; and were it not for the use of opium to keep up the excitement, should not have been able to get about at all. While in this condition, considering myself in a firm consumption, I was indicted to take a bottle of Rev. N. H. DOWNS' Elixir, and found immediate relief therefrom—laid aside my opium—continued the Balsamic Elixir—was able to be about my business, and have thus continued for the last six months comfortable, and have no hesitation in saying to the public that the said Balsamic was the only means of my recovery, and do most cheerfully and earnestly recommend it to the public.

Certificate of Luke Hitchcock.

HAVING received great benefit from the use of the Rev. N. H. Downs' Vegetable ELIXIR, I take pleasure in recommending it to others. Its effects were to relieve me of a cough with which I had been troubled more or less for several months; it promoted expectoration and relieved me of an uneasy sensation, about the chest, which I had felt nearly a year. As I could procure only one bottle at the time, I have not had an opportunity of testing its merits to the extent desirable in effecting a perfect cure of a diseased state of the lungs; but, from what relief I have experienced, I think it worthy of a trial by all afflicted with lung complaints, if attended to reasonably.

FROM my personal knowledge of the good effects of the above named medicine, and *information* from various sources, I cheerfully concur with the above in recommending the "ELIXIR" to those afflicted with complaints of the *chest* and *lungs*. It is a *safe* and *pleasant* medicine, and the numerous recommendations of its value from civil officers, *physicians, druggists, ministers of the gospel* and others, should seem, at least, to claim for it a trial on the part of the afflicted.

Certificate of Robert Simpson.

THIS may certify that for a long time I have been troubled with a violent pain in my stomach, which wasted my strength and reduced me so low that my life was despaired of. Physicians could render me no essential service, and I was giving away to despair, when I was persuaded with much reluctance to try the effect of N. H. Downs' Balsome Elixir, and it is with pleasure, gratitude and confidence that I state that it is my firm belief that it saved my life; and since I have began to use it I have been gradually improving, so that I can labor, and believe that if I follow it up, it will eventually restore me to my former health. I therefore esteem it my duty to make this public acknowledgment for the benefit of a suffering community.
