MEDICAL REFORM.

DOCTOR HIBBARD has been located in practice in Rutland nearly three years, and his chronic practice has been very extensive, not only in every town in the county, but many distant towns in the state and in New York. Although he has had the most *unprincipled* opposition from some of the profession and their abettors, he has *triumphed* in the cause of *Reform*. People who wish for facts in relation to what *constitutes this Reform*, must not be misled by evil disposed persons. It is *founded* on what is termed the "old school practice." Many of the principles taught in those schools are repudiated, many are adopted, and many are substituted by others, which by *experience* are found superior and more safe; and taken as a whole it is called "*Reform in Medicine.*" It is the *only* liberal mode of practice in this vicinity, which he *has proved*, and which he is at all *times* and *places* ready *to prove*, by extraordinary cures of cases given up by Physicians of the highest standing in the old school practice. He courts from the Faculty and others, the closest investigation that *can* be instituted. There is no *particular* article of the Materia Medica *cried up*, as Calomel, Pepper or Lobelia to indicate quackery. We have more particular reference to the *manner* of using medicines, than to the particular *kinds* of Medicines used. We have a preference for the simplest medicines, when they will fulfil the indications intended; but if they will not, we have recourse to others more powerful. A *too eminent* Professor for a certain "small fry" calomel-quackery-school, observed, that "*anybody* could give calomel, but the greatest tact was to know when *not* to give it—being seldom necessary." If this Professor would say *so much* when engaged (or hired) for a *Calomel School*, to give Lectures to suit his *employer*, what would we expect of him if placed in more independent circumstances! Why, he would come out a Reformer, as soon as he found a substitute, which we *know* there is, from *practice* of eight years. We ask the community, as jurors in the case, *if* we can *substitute* for calomel or any other deleterious mineral, medicines from the vegetable materia medica, which produce *less* injury to the system and at the same time fulfil the indications, if they are not morally bound to sustain us. On the *merits* alone do we ask for encouragement. We are determined, with the help of the friends of Reform, that no means *untried*, or however *mean and contemptible* that have *been tried* by our enemies, shall intercept our onward course.—The standard is planted, and the flag is nailed, and the colors *will* wave till opposition ceases. We assure the friends of Reform that our courage increases as the battle waxes warmer and our opponents resort to such despicable means to uphold a system of quackery. We dare them to come out of their ambuscade and meet us in the open field before the people. They have became so desperate that they look upon us as common enemy, and assemble the "small potatoes," in miserable and contemptible combinations, and pass "boy's resolutions," that if we will not let them into the secrets of our mode of curing people, *gratis*, they cannot associate with us in practice, &c. What a powerful argument that *they* are *right* and we *wrong!* They have been triumphantly beaten on the main question (the cures.) and therefore the utmost they can do *unfairly*, will only help us and bring destruction on themselves. The people of Vermont are becoming more intelligent to their vital interests, on the subject of medicine. They have abrogated the "Doctors' Gag Law," and in effect thrown the profession on the merits of true science. No person ought to be countenanced by the public, who does not obtain the *art or profession*, by regular study and apprenticeship, to a known and acknowledged skilful practitioner. If a student graduates (so called) at one of those *little* Corporation schools, where the President may be a mere quack and egregious blockhead in knowledge, you have no *surety* for the student's fitness for the profession, anthough he has *paid* the regular fees and *mechanically* answered every *studied* question. He has had none or but little *clinical practice*—the only sure criterion for *passing* a student to the honors of the profession. If he was obliged to *practice* as well as study with a Doctor of acknowledged skill three years, our young brethren would have fewer false theories to get rid of, at the expense of human life, than by the present system. These things will not be endured much longer in a community so capable of investigation as the people of Vermont. A "Bamboozle School" of Medicine, with an ignoramus at its *pretended* head, then, would not gull the public, nor would the unsuspecting student be *allured there* to be *filched* of his money, and then, through revenge the most dastardly, refused the last *pretended* honors! because his tutor had *outdone* him in cures, among his *own relatives* and neighbors. Instead of being an *impartial, honorable minded man*, to occupy such a position, it *is* occupied by a person as heretofore *partly* described, and *will be fully so in due season*. Nothing shall be wanting on our part to satisfy the friends of Reform that we entered this contest for principle, as well as to obtain an honest living. Our opponents (and perhaps some friends) have accused us of high *charges* for business; but we know and can prove, that *some* of our brethren could hardly make that story pass as truth in this vicinity, that *our* charges were more immoderate than *theirs*. We will visit patients in the vicinity for common acute diseases cheaper than heretofore, and as cheap, if not *cheaper* than any other regular bred physician. And we will strive to cure more patients for the same money, and completely *outdo* you in cures for *one or five years to come*, on *our* practice, or we will *return to the old practice again*, and *never* more denounce any *part* of it. So now, gentlemen, put forth your energies and *skill* for the glorious contest.

For reference for those who wish for information relative to the *superiority* of this practice over *all* others, particularly in *chronic* diseases, Dr H. begs leave to insert the following names of persons who have been cured of diseases considered incurable by eminent physicians of the faculty, or who have been greatly benefited, or have friends or neighbors who have been:

TO THE AFFLICTED.

Dr. Banning's Patent Lace,

For Hernia or Rupture of various kinds.

An immediate relief to incipient Consumption, the Bronchitis of public speakers: Palpitation of the Heart; Dyspepsia, Spinal weakness; Piles; Prolapsus Uteri and Ani, and Diseases of pariurent and childbed Ladies without medicines.

This instrument has been examined by Drs. Mott and Rogers, N. Y., Francis and Griscomb of New Haven and Middletown, Conn., and has obtained for itself their favorable testimony.

SYMPTOMS.

The Lace is applicable for those who have the whole or a part of the following symptoms:—Bleeding at the Lungs, Cough, Tightness at the Chest, Palpitation of the Heart, Dyspepsia, sensation of goneness or sinking at the pit of the Stomach, disposition to bend forward, pain in one or both sides, which are generally supposed to be *Liver Complaint*, but which are only the result of the gravitation of that organ, Tenderness of the Abdomen, a sensation of dragging in the groins, and bearing down, causing the patient to stoop very carefully, Pain in the Back and great weakness, Pain and numbness in the Limbs, Costiveness, Flour Albus, Piles and Prolapsus. The nervons system is diseased, great gloom, desponding and weeping not knowing why herself, &c.

Dr. Hibard having purchased the right for the County of Rutland, will endeavor to keep a sufficient assortment on hand for all who will favor him with a call, from any distance. He can forward them to any part of the State, or elsewhere. Those wishing them sent, will send a description of the size, &c., and forward the price of one, ($12), free from expense to him, and they can have the directions so plain, that any person can apply them.

The subscriber will give his *special* attention to calls from a distance, for *chronic complaints*, at his *office*, on Mondays, Tuesdays and Wednesdays, every week, and at *all* times, by night and day, attend to professional business in the vicinity. Great improvements in *Surgery* have recently been made in the City of New York (of which he availed himself while there) among its *talented and scientific professors*, and he is enabled to perform *all operations* with *improved instruments* for *Amputating* and setting *Fractures*, extracting *Teeth*, &c, &c. He assures his friends and the public that his utmost endeavors will be to satisfy them in his professional business, and *charges* for the same, and "keep up with the times" in *improvements* of the day, although it *may* give his opponents some unpleasant feelings.

J. B. HIBBARD, M. D.

N. B. All persons indebted to the subscriber, whose accounts are of *one* year's standing or *more*, are requested to call and settle without *delay*. J. B. H.

ALANSON ALLEN.

Sands Sarsaparilla.

For the removal and permanent cure of all diseases arising from an impure state of the blood or habit of the system.

☞ The removal of suffering has been the object of the philanthropist in every age of the world, but the true principle of treating disease progressed but slowly for many thousand years, owing to the limited means of acquiring knowledge; but since the introduction of the printing press and steam engine it may literally be said, 'Light hath dawned upon the world,' and the man of the nineteenth century possesses advantages which his father never did. In this general diffusion of knowledge, remedies have been sought after, and discovered in the beautiful storehouse of the vegetable creation, exactly calculated to combine, neutralize and dispel the subtle poison which diffuses itself thro'out the general system, and prostrates man in the dust. Sands' Sarseparilla, a purely vegetable preparation, has been thoroughly tested in a variety of diseases, and is, from experience, known to be a safe and effectual cure for scrofula or enlargement of the glands leprosy, salt rheum, scald head, eczema, Rheumatism, palpitation of the heart, and other diseases originating in an impure or depraved state of the blood, or derangement of the digestive organs.

The following interesting case is presented, and the reader invited to its careful perusal. Comment on such evidence is unnecessary.

Nantucket, mass, 8th mo, 31, 1841.

A. B. & D. Sands—Esteemed Friends; Although an entire stranger to you, I do not feel at liberty any longer, to defer the acknowledgment of a great indebtedness to you for your invaluable sarsaparilla, which has been the means, under a kind Providence, of my inexpressible relief. I am also urged to this acknowledgment by reflecting, that by my humble testimony hundreds of sufferers, miserable as I have been, may be induced to try this remedy, and experience a cure as speedy and happy as mine. For ten years I have been suffering under a scrofulous affection of the bones in my head, and during a great part of this time, my pain and sufferings were so severe, that but for a reliance on the Great Disposer of events, I should have desired, and preferred death itself. At different periods during my sickness, twenty pieces of bone have been taken from my head in various ways, besides all my upper teeth, and the entire upper jaw, rendering the mastication of food quite impossible. After expending about six hundred dollars for medical aid, I had recourse to your justly celebrated Sarsaparilla, and within the last three months the use of twelve bottles, has, with the most beneficial operation, completely arrested the disease; the healing process is going forward, and I am rapidly approaching to a cure. Being extremely anxious that others laboring under similar complaints, may have the advantage of my experience, I shall be most happy at any time to communicate to them or to you, such further and more minute particulars as may be desired. Please accept assurances of my great obligation and regard. BENJAMIN H. HUSSEY.

Nantucket, 9th mo. 3d, 1844.

A. B. & D. Sands—Respected Friends;—Benjamin H. Hussey is a person of perfect respectability; his statement in relation to the wonderful effects of your Sarsaparilla upon him, may be implicitly relied upon.—His case here is considered a very extraordinary one, and the cure altogether is such as to entitle the sarsaparilla to be ranked as a great blessing to the human family, and we consider it as such.

Yours with true regard.

WILLIAM MITCHELL.

A NATURAL REMEDY,

Suited to our constitutions, and competent to the cure of every curable disease, will be found in

WRIGHT'S Indian Vegetable Pills

OF THE NORTH AMERICAN COLLEGE OF HEALTH.

THESE extraordinary Pills are composed of plants which grow spontaneously in our own soil, and are therefore better adapted to our constitutions than medicines concocted from foreign drugs, however well they may be compounded; and as the

INDIAN VEGETABLE PILLS

are founded upon the principle that the human body is in truth

SUBJECT TO BUT ONE DISEASE viz: corrupt humors, and that said medicin cures this disease on

NATURAL PRINCIPLES,

by cleansing and purifying the body; it will be manifest that if the constitution be not entirely exhausted, a perseverance in their use, according to direction, is absolutely certain to drive disease of every name from the body.

THE INDIAN VEGETABLE PILLS

will be found one of the best, if not the very best medicine in the world for the carrying out this

GRAND PURIFYING PRINCIPLE

because they expel from the body all morbid and corrupt humors (the cause of disease) in an easy and *NATURAL MANNER*; and while they every day

GIVE EASE AND PLEASURE,

disease of every name is rapidly driven from the body.

Caution.

This is to inform the public that all genuine medicine has on the side of the boxes,

Wright's Indian Vegetable Pills,

(INDIAN PURGATIVE)

of the North American College of Health.

And also around the border of the label, will be found in small type, "Entered according to the act of congress in the year 1840, by WM. WRIGHT in the Clerk's office of the District Court, of the Eastern District of Pennsylvania."

It will further be observed that the printed dierction for using the medicine, which accompanies each box, are also entered according to Act of Congress; and the same form will be found at the bottom of the first page.

The public will also remember, that all who sell the genuine Indian Vegetable Pills, are provided with a certificate of agency, signed by

WILLIAM WRIGHT, Vice President, of North American College of Health.

DR. E. SHERMAN'S

Vegetable Catholicon.

An unerring remedy, and known to be such for the following diseases viz:

All diseases of the lungs which cause obstructions of the same; such as coughs, colds, catarrh, bronchitis, and even consumption, in the premonitory or forming stages. Also enlargements of the spleen, in the different stages, and all diseases of the liver, caused by enlargement or topor; jaundice in all its forms; constipation of the bowels attended with torpor of the stomach and bowels, and of all the train evils attendant on these difficulties.

Night sweats and all forms of hectic fever, scrofula, in all its various forms and in most cutaneous diseases or those affecting the skin, and nearly all forms of dropsy and many other of minor importance which I forbear to mention.

Finally, this medicine is a powerful alterative and deobstruent; hence, it follows as a matter of course that all diseases which tend to obstruct the natural channels of circulation whether in the larger organs or in the capillary vessels will finda sovereign balm in this all powerful remedy.

It is also a laxative that is sure and steady in its operation and never fails to remove habitual costiveness if persevered in a sufficient length of time.

It is purely vegetable, and may be used any length of time that the nature of the case may require without ever harming the constitution in the slightest degree: therefore it has an advantage over many other medicines in chronic diseases, which should not be overlooked.

Try friends, and then judge for yourselves I venture to say that no one will regret a fair trial in any of the above diseases.
