**Valuables, Carpet Bags, Saddles, Bridles, Martingals,**

**Bottlers & Surslings,**

**Bells open & round,**

in short all articles wanted in their line, of  
business.

Those wishing to purchase any of the above  
articles, may find it to their interest to call  
before purchasing elsewhere.

They will warrant their Stock to be

**Eastern, Old Tanned, best quality**  
and made in a finished and workmanlike  
manner, and they are determined to sell

**EVERY THING CHEAPED.**

At any shop in the County according to the  
QUALITY of the work.

**Oiling and Repairing**

done on short notice. Buffalo Boxes lined  
and bound on reasonable terms.

Most kinds of country produce taken in  
exchange and liberal credits given if required.

W. H. HALL.

H. T. DORRANCE.

Rutland, November 22, 1846.

**Wanted**

A boy about 16 years of age, of good dispositions  
and steady habits, as an apprentice to the  
above business. (4840) H. D. H.

**HEAD QUARTERS,**

**1847.**

**REFORMATION IN TRADE.**

THE subscriber having recently returned  
from market with a fine lot of oak  
tanned leather, warranted to be tanned  
with as much care as leather brought into  
this market, if not a little more, together  
with a large stock of

**Hardware and Trimmings,**

to suit the purchaser, such as silver and  
brass plated, polished, black, barrel im-  
itation covered, horse shoe pattern with  
tipped tongues, together with a large variety  
of all other articles used in his line of busi-  
ness. He will keep on hand most kinds  
of Harnesses, Saddles, trunks, valises, car-  
pet bags, &c., and all articles called for that  
are not on hand, will be made to order on  
the shortest notice and most reasonable  
terms, and at a rate of workingman's not to  
be surpassed. He pledges himself to work  
as good stock and make as good work as is  
made in any other shop and all work warrant-  
ed to gross satisfaction or no sale.

Repairing, cleaning, oiling and varnishing  
harnesses will be done up in first rate style  
and with dispatch.

Nest's Foot Oil, a pure article, for sale  
by the quart of gallon.

Also for sale, new strings of round and  
even hairs, very cheap.

Yearly exchange for work Gram, Lumber,  
Wool, and all kinds of Produce. Our  
stocks, low and steady.

The subscriber takes this opportunity of  
reminding his friends and customers for their liberal patronage and prompt  
payments, which enables him to buy stock  
cheap for cash and no grumbling.

Connecticut River line and arriving at Brattleboro  
same day by 8 p.m. Returning  
leaves Brattleboro Tuesday Thursday and  
Saturday arriving at Rutland 8 p.m. same day.

### THE GRAEFENBERG PILLS.

THE GRAEFENBERG PILLS are the most conclusive reasons  
why the class of Medicines denominated  
"Patent," should be the means of immortal  
and enduring blessings to the human family.

Suppose for example, that a high  
order of talent, long and sagacious observation,  
and great medical learning and experience  
are brought to bear upon the invention  
and manufacture of a Pill. Why may not  
this long devotion to this division of medical  
science be crowned with success that  
stands the equal of similar talents and  
fame in other things? There is no reason  
and it is not the simplest dictate of the com-  
mon sense to say, that a Pill may  
not be manufactured to greater advantage  
than any other article.

THE GRAEFENBERG VEGETABLE PILLS  
and they are presented to public with claims  
unparalleled in the whole history of medi-  
cine.

It will be seen in reading the history of all  
great inventions, that they were not made  
in view of the greatest importance, nor in time  
best lost in seeking for a doctor, or in the use  
of Soldan's remedies after the result of  
speculation. Instead of this course, let a  
few Brandreth pills be taken, which will  
presently restore health to the organ  
of part that requires it.

All who wish to preserve their health, all  
who are determined to defend their life  
against the encroachments of disease which  
might end their prematurity to the grave,  
will without hesitation have recourse to the  
Brandreth pills, when the state of the sys-  
tem does not harmonize with the above  
picture of health.

Those who live in a country where con-  
tagions or other diseases prevail, should  
not think of the true picture of health, and  
observe health with particular attention, in  
order to act accordingly. The wise and right  
is directed well follow this rule—the un-  
wise are left to their destruction.

In order to get over the describing the  
symptoms of consumption, influenza, indi-  
gestion, dyspepsia, headache, jaundice, fever  
and ague, rheum, scurvy, typhus, yellow and  
common fevers, of all kinds, asthma, gout,  
rheumatism, liver complaint, pleurisy, inward  
weakness, depression of the spirits, rupture,  
inflammation, sore eyes, fits, polys, dropsy,  
measles, croup, cough, whooping cough,  
quinsy, cholera, colic, diarrhoea, gravel, sand-  
stone, dysentery, deadness, ringing noises in  
the brain, king's evil, scrofulosis, etc. St. An-  
drew's fire, soft rheum, white swelling, ulcers,  
cancers, tumors, swelled feet and legs, piles,  
colic, rheumatism, eruptions of the skin, skin  
diseases, female complaints, obstructions in  
consequence of a change of life, relaxations,  
etc. which in this advertisement are  
impossible to enumerate, it is impossible to  
mention all the advantages that are im-  
plied in the use of the Graefenberg Pills.

Most beautiful are the illustrations and print  
of that which are to be found in the history  
of the world. We can trace them from the  
Mosaic dispensation down to the present  
time; all of them teaching us the lesson and  
giving us the hope that something yet better  
is to come.

So with the invention of printing, of steam,  
of the magnetic telegraph. Each of these has  
been of infinite value, marked distinct and  
original.

IN THE MEDICAL SCIENCE, THE GREAT  
PHYSICAL PRINCIPLE IS CLEARLY WORKED OUT.
