Local Associations
To Try to Locate Trade School Here
Meeting Tonight of Manufacturers, Board of Trade and Business Men.
This evening at 8 o'clock a joint meeting of the Business Men's Association, the Board of Trade and the Manufacturers' Association will be held at the Stratfield in the interests of locating a State Trade School in Bridgeport. It is understood that the Legislature is about to establish two trade schools in the State and it is felt that one of the schools should come to this city. Already some efforts have been made to call the attention of the State Board of Education to the desirability of placing one of the schools here. The three organizations are making a united effort to have Bridgeport selected. It is hoped a large gathering will be present and that strong resolutions will be adopted on this subject. It is also expected that the sewer question will be taken up and that Mayor Lee and members of the Sewer Commission will take part in the discussion. All interested are invited. The meeting will be held in the assembly room in the hotel.

Oakite is a new Cleanser which will do what soap or powder cannot. It is a wonder worker for removing oil or grease stains and we especially recommend it for glass and window cleaning, and all household uses in general. It has four times the strength of washing powder, and a little goes a long ways. 10 cts. a package.
