TEMPERANCE LEADER SCORES BULKELEY

Work Already Begun to Secure Pledges from Expected Members of Next General Assembly.

(Special from United Press.) Hartford, Oct. 7.—The second day's session of the W. C. T. U. was marked by a speech delivered to the delegates by E. L. G. Hosenbitt, chairman of the Connecticut Temperance Committee, which reviewed the recent campaign in this state. He said the liquor interests had put more money into the campaign than they had into one and as a result of their efforts the outcome had been rather disappointing.

He said that he had seen the collector of internal revenue call members of the General Assembly and members of the executive committee out for conferences with the liquor men. To show the conditions that existed he stated that the work was already started to have the members of the next General Assembly pledge themselves to re-elect Morgan G. Bulkeley to the United States Senate.

The remainder of the morning session was devoted to the reports of the various departments and Miss Nellie J. Starr, of the anti-narcotic department reported five narcotics leaks formed with two hundred members. At the afternoon session Mrs. Caroline B. Buell, state president, reviewed the work of the temperance lines during the past year and advocated more work along this line among the boys and girls in the Sunday schools and public schools.

CRYSTAL KRAUSE MURDER RECALLED

Her Stepmother Now Serving Sentence Brings Cross Complaint to Divorce SAYS HUSBAND DID DEED

(Special from United Press.) Hartford, Oct. 7.—Covered in behalf of Mrs. Ray Krause, now serving a sentence for murdering her stepdaughter, Crystal Krause, Attorney Krause has filed a cross complaint in the divorce proceedings brought by William R. Krause. In the complaint Mrs. Krause says her husband murdered his own daughter and they agreed she should be punished for it because the court would be more lenient with a woman and because Krause who is wealthy and prominent could use his influence to get a pardon for his wife.

The complaint alleges that she was "coerced, threatened and intimidated" by her husband into signing a confession which he wrote and he has not lived up to his agreement at that time, namely, to get pardon for her, after she had assumed the role of murderer out of her love for her husband. The death of Crystal Krause was one of the greatest mysteries in Indiana. The girl was 18 years old and popular. Her stepmother seemed fond of her and the two were inseparable. Her death was caused by strychnine poisoning, imaginary evidence being given by a milkman's boy who said Mrs. Krause sent him to drug store to get ten cents worth of strychnine. The next morning Crystal Krause was dead.

TAFT DRESSED IN GOLF TOGS

President in Knockabout Clothes Starts on First Trip Into the Yosemite LESSONS IN PATRIOTISM

(Special from United Press.) El Portal, Cal., Oct. 7.—Dressed in his knockabout golf clothes and leather cap and followed by Governor Gillette, Senator Flint, Representatives McKinley, Needham and Smith of California, and Naturalist John Muir, President Taft started on his first excursion into the Yosemite today.

Stages bearing the Presidential party left El Portal Hotel shortly after 7 o'clock this morning and until they reached Fresno this evening the heads of a distribution will be out of communication with the outside world.

Recent rains have fallen in the Park and the President is assured by his guides that he will have a dustless trip to the great trees. The rains have also furnished enough water to start all the waterfalls into action.

A President Taft is giving little lessons in patriotism to the children as he makes his way through the country. One of the largest and most enthusiastic of these "love of country" meetings was held at Fresno, California, Wednesday, just before he entered the Yosemite. When he mounted the platform surrounded by children ranging in age from 6 to 14 all of whom were waving flags and singing "My Country 'Tis of Thee." "What is that song?" he asked. "Do you love your country?" "Yes, sir." "Would you die for your country?" "Yes, President, not quite so strong." "Where do you live?" "In Fresno." "Do you think it is the best place on earth?" "Yes, sir." "Have you ever lived in any other places?" "Yes, sir, in Fresno and Fresno, California." "In Fresno," replied a little girl. "But you don't think Fresno to be as good as Merced, do you?" "No, sir," replied another child. "There is no place like home. You ought to be glad that you have such a beautiful place to live in, you ought to be glad that you have so many fine clothes to wear and are so happy. You ought to be glad you have so much to eat, perhaps some of it would be better off if we didn't eat so much. Now I want to know if you are thankful to God for all the blessings you have?" "Yes, sir," chorused the children. "That's the way I like to hear you talk," exclaimed the President heartily. "I hope you will be thankful for your many blessings always. You should ever feel that you are living in the best place in the world, that your home is the best place in the world, and you will always be happy."

"CRISS CROSS" SCRATCHING IS EASY AS CAN BE

Voting Mechanisms Enable Electors to Vote for or Against Any Candidate for Any Office.

James H. Hardie and Leon Baker of the "criss cross" party is to get the voting machines ready for the coming election, called particular attention today to the means by which candidates for office are scratched or voted for or against at the option of the voter, even though the names to be voted, or scratched are not candidates for office. The Democratic, Republican and the Socialist parties, any two may be voted, and when the vote is done, the machine is locked against the other six. This is true of all other offices for which two or more persons may be chosen. A year ago some voters did not understand that the criss cross scratching was possible. But the machine could not be lawfully used, if such scratching were not possible.
