CONFERENCE OF FRIENDS DEMANDS REFORMS FOR INDIANS AND FILIPINOS

(Special from United Press.)
Lake Mohawk, Oct. 22.—Demanding that the tribal relation so far as the North American Indian is concerned be abolished and he be prepared for admission to American citizenship with all that the latter implies, criticizing the expense of insular government and insisting that reforms be put into force and the inhabitants at once prepared for self-government, the Lake Mohawk Conference of Friends of the Indian and other dependent people adopted a declaration of principles today in which the methods of government in the Philippines, Hawaii, Porto Rico, Alaska and the territories, are severely criticized and demands made for reform.

Justice and eventual self-government, the declaration says, "is in the consummation of liberty and must be guaranteed to all of the wards of the nation and all peoples under her protection and subject to her sovereignty."

In part the declaration is as follows: "The duty of the American people to establish by the force of its laws and the changing of principles of liberty and justice, is the same towards all its non-citizens subjects. The ultimate end of all just government is self-government. Keeping this end in view, it is the duty of the nation to give to all under its authority adequate protection of person and property, government by law, not by the will of a personal ruler, courts of law accessible to the poorest and humblest processes of law, prompt, certain and equal in their operation, taxes no heavier than the expenses of their government economically administered, require, sanitary services, the prevention of preventable diseases, and the establishment of hygienic conditions, schools which shall furnish industrial and moral as well as academic instruction, and through the voluntary efforts of the churches, the inspiration of a religious foundation not on the fear but on the love of God.

"This means for the North American Indian the abolition of the tribal relation, the substitution of personal for tribal property, the recognition of the Indians' right to travel freely and peacefully and to buy and sell in the open market and his ultimate admission to American citizenship.

"It means for the Philippines opening for him the American market as it has opened to the Hawaiian and Porto Rican. It means that the relationship between the United States and her insular possessions should be clearly defined at the earliest practicable date. It means the maintenance of local self-government among the insular possessions. And it means for all—North American Indians, native races of Alaska, Porto Ricans, Hawaiians and Filipinos—the vigorous prosecution and condign punishment of all men engaged in lawless endeavors to deprive the people of their public or private property, the establishment by law of efficient police regulations to protect the people from the vices of civilization, adequate systems of education for their mental and moral development and the improvement of their mentality by providing industrial training and developing their resources and providing easy access to profitable markets.

"Finally it means securing well paid agents of unquestionable integrity and improved capacity to represent the nation in its work for the betterment of these people. It does not necessarily mean eventual statehood or eventual independence for our island possessions. It may mean self-government, under American protection and subject to American sovereignty."

This evening the Democratic primaries are to be held and there are contesting delegations in every district except the Third, Fifth, Seventh and Eighth. The party is practically a unit for the nomination of Edward T. Buckingham for mayor and he will be the unanimous nominee of the party at the convention to be held Monday evening at Lincoln Hall. The contests are principally over the choice of a city clerk and town clerk, the candidates for the former being Assistant City Clerk L. J. and ex-Representative Stephen Boucher.

Candidates for town clerk are the present incumbent, George Weber and Alderman William Thomas.

John M. Donnelly will be renominated for collector and most likely F. W. Healy will be renominated for town treasurer.

The primary contests are being conducted and whichever the outcome a harmonious city view is assured at the coming election.

EXCITING SCENES IN VANDERBILT CUP RACE AND ONE OF THE MOST DARING DRIVERS

When all is ready for the start of the Vanderbilt cup race the automobile Derby of America, at the Long Island Motor parkway on Oct. 30, about thirty of the most famous drivers in the world will dash away in the great contest. The distance for the race is 235 miles and the Vanderbilt cup is the most coveted automobile prize in this country. It was won last year by George Robertson in a Locomobile.

Each entrant pays a fee of \$500 and large prizes are paid to the successful drivers. That is why the race attracts such daring speedsters as Louis Chevrolet, Robertley, Lescault, DePalmer, Lytle, Dingley, Knipper, Harding, Matson, Merz and Aiken. Nearly all of these men were on the course at practice spins ten days before the date set for the contest. In the early practice Knipper made the fastest time, covering the 12.61 miles of the course at an average speed of sixty-two miles an hour. Merz and Aiken heroes of the Indianapolis meeting, also made fast time. The course was in better condition prior to the race this year than it had ever been before. The promoters announced more than a week before the race that it would draw the largest crowd in its history to date. The accompanying group contains a portrait of Chevrolet, a snapshot of Mr. Vanderbilt, donor of the cup, and some exciting scenes on the course.

CHAMPION BRUTE WAS HUSBAND OF THIS WIFE ON TONIGHT

Judge Burpee Grants Divorce to Woman Who Testified to Much Cruelty Suffered.

When Joseph H. Kasperok of this city wedded in New York city he did so under the name of Beck. Later he came to this city with his wife and took up his residence in the East End. His wife through a letter found that Kasperok was his right name, which she admitted. Rather than have her child go under the name of Beck, under which he was born, the couple were married. The first marriage was in March, 1888. The marriage proved to be unhappy and a most bitter one for the wife. Kasperok was an habitual drunkard, and when in that state vented his abuse on his wife. She related her troubles to Judge Lucien F. Burpee in the Superior court this afternoon.

Once she had her arm burned. He returned home at night and pulled her out of bed, and she was found with her arm, and dug his fingers into her raw flesh, the wife testified. This was over six years ago, yet Mrs. Kasperok showed the marks on her arm. Later she threw a tree stand at her, striking her on the head, knocking her senseless. On Dec. 1, 1897, Kasperok came home and taking her out of bed, pushed her out the door into the street. It was raining at the time, while she was in her night gown and bare feet. Her son threw a coat and a pair of shoes out of the window to her, and she went to her uncle's for the night. On Feb. 7, 1898, Kasperok came to the stairs in their home he kicked her in the side, injuring her so severely that she had to submit to a delicate operation. She never lived with him after that event.

The court granted the decree on the ground of intemperance. The mother was also given the custody of their two children, the older of whom is 20 years of age.

(Special from United Press.)
Danbury, Oct. 22.—The annual State convention of the Loyal Workers of the Advent Christian Church was held here today and resulted in the election of the following officers for the ensuing year:

President, Rev. George E. Taylor, Bristol; first vice president, E. Z. Ellis, Danbury; second vice president, Rev. H. E. Young, Pittsfield, Mass.; secretary, Miss Alice E. Strong, Wallingford; treasurer, Miss H. E. Robinson, Danbury.

An appropriation of \$150 was voted by the convention to aid in supporting two missionaries in China and India.

SUFFRAGE CAUSE VITAL QUESTION

(Special from United Press.)
Meriden, Oct. 22.—The fortieth annual convention of the Connecticut Woman's Suffrage Association was held here today. Mrs. Elizabeth D. Bacon, the president, reviewed the progress of the equal suffrage movement in this country. The cause has assumed such proportions it is coming to be recognized the world over as a vital question of the day. Mrs. Bacon declared:

"The more timid are becoming less afraid to espouse the unpopular cause. The converts are not confined to any class of people. The press never before gave such space to articles on the question. The gospel of equal suffrage has been listened to in parlors and halls, on the streets, in fairs and at summer meetings through many ingenious methods never resorted to before. Thus the attention of the people has been aroused until there is a greater number of women realizing the importance of franchising under a government founded upon undivided representation.

"Conservation meets us on every side in Connecticut, making conditions unfavorable to reform; hence the cause has not become so strong as in States where the cause has been accomplished, though the harvest may not be in sight. Hard labor is needed to become a power in the State."

Four new clubs have been organized, three in New Haven, Hartford and Meriden. "Undoubtedly there is a great deal of sentiment in the State for equal suffrage but it exists here and there without organization."

Mrs. Ella B. Kendrick of Hartford, the corresponding secretary, pointed out that the first year has been one of encouragement for the advocates of woman's suffrage. The present membership is 350 and it proposed that this meeting found the Susan B. Anthony Club to take in members of the State Association who now reside in towns which have no auxiliary clubs.

Mrs. Mary J. Rogers of Meriden, the treasurer, reported receipts of \$450 and \$82 in the treasury.

COSTLY BRIDGE FOR MR. MORGAN

The 300 foot bridge which the Sharn-Hrieste Co. is building in the Pequonnock river, near the Armstrong property, is to be placed on the summer estate of J. Pierpont Morgan, on Long Island. It will be floated across the Sound in sections. The firm is now building the caissons for the bridge on the summer place. The superstructure being built here is of steel and wood. The cost of the entire structure is said to be in the neighborhood of \$90,000.

HEALTH OFFICER HILL ARRESTS DAVID D. KRAUSE

David D. Krause, dentist, with an office at 1042 Main street, was taken to police headquarters this afternoon by County Health Officer George E. Hill and placed under arrest for practicing without a license. Mr. Hill would say nothing about the details of the arrest and asked that no publicity be given the case. It is probable that some one complained to him. Dr. Krause furnished his bail, \$100 and was released. Dr. Krause said: "It is a rank injustice. I have an assistant's license which gives me the right to practice. The trouble has been caused by a few other dentists who are sore. They have told Mr. Hill that I and a few others have defied him to prosecute me. They have poisoned his mind against me. I have been studying dentistry for five years under the supervision of a dentist in this city and started in for myself to get money in order to equip myself further by taking a course of study in a school."

TOO MANY BEER GARDENS IN LIFE OF BAKER'S WIFE

Henry G. Thomas, who conducts a bakery at 890 Maplewood avenue, was freed from his wife, Lulu H. Eddy Thomas, of Cincinnati, in the Superior court this morning, on the ground of desertion. The couple were married in Cincinnati, Dec. 19, 1892, and the separation occurred April 15, 1909. His wife before the separation exhibited wayward tendencies, which he tried to cure, but to no avail. She stayed out late at night, which caused him to become suspicious, and to employ gum shoe tactics. One evening he left his home early ostensibly to go to the lodge. But, no one saw him. He only strove around the block and took up a good spot where he got a commanding view of his home. Three men came out with his wife. He followed them and saw them enter and leave six beer gardens.

ALL HOPE GONE FOR M'CARREN

New York, Oct. 22.—At St. Catherine's hospital in Brooklyn it was stated this morning that the chances for Patrick Henry McCarren was very low and that all hope for his recovery had been abandoned. He suffered very much through the night with severe nausea and had but little sleep.

At 8:30 his pulse was irregular and very feeble and he was in a state of collapse from which strong stimulants failed to arouse him.

Senator McCarren was told this afternoon that he has very little chance of recovery. Dr. Hughes at 1:30 stated that he is doing all he can to prolong his patient's life but that his condition is desperate. The chances from which he has suffered continue and the patient had several vomiting spells during the morning.

PRISONERS ASSAIL GOVERNOR DENEEN

Chicago, Oct. 22.—A wild demonstration by the 1,000 prisoners in the county jail against Governor Charles S. Deneen, immediately followed the first Lanning in Cook county in two years when Andrew Williams, colored, paid the penalty for the murder of his wife on March 11, 1908.

For years it has been the custom of prisoners in the Cook county jail to give the "death wall" whenever a prisoner is hanged. This is a thing drawn out sobbing cry which the prisoners give in unison. In the past it has started when the drop fell. Today, however, the prisoners stationed in the corridors of the jail to prevent this cry and Williams was hanged in silence. The instant the guards were withdrawn, however, the prisoners set up the wall in unison and suddenly began to cry "Up with Deneen, hang him, hang him."

EARTHQUAKE WIPES OUT WHOLE INDIAN CITIES

(Special from United Press.)
Quetta, Northern India, Oct. 22.—Terrified refugees to-day report the wholesale destruction of villages throughout northeastern Baluchistan and western Punjab by earthquakes. Hundreds of small villages scattered about in almost inaccessible mountains and the full death toll will never be known.

According to the refugees arriving here the entire face of the countryside between Khetlat, the capital of Baluchistan, has been altered. The quake jostled up huge lines of low hills, throwing the villages into ruins. Fugitives from the town of Kurani say that a huge crevice opened up in the earth with terrible rumblings and entirely swallowed the center of the village.

No news can be secured from Khetlat

which has a population of 12,000 or from Bugh, another city of 10,000. Rumors among the tribes are to the effect that both of these cities were wiped out by the quake.

Owing to the lack of railroad and telegraph facilities it is impossible to gather definite news but it is assured that the town of Bellpat, a railway town, was wrecked here, the public houses and many private homes demolished and 25 known dead taken from the ruins.

Relief measures are being taken at every railway center in this part of India and searching parties are being dispatched to the stricken district. Rescue parties from here have started for Khetlat and other towns in the disaster zone.

The condition of the fugitives arriving here from the quake zone is deplorable. Families have been separated and many accompanied children almost dead from exhaustion in straggling in. All are being cared for by the authorities.
