

SAVAGE GETS "Y"

Bridgeport Boy Did Well in Saturday's Game.

Ed Savage of this city was one of the Yale subs who succeeded in making his "Y" Saturday. Savage went in during the second half taking the place of Naedele, who succeeded Vaughn in the first season. Savage was not given much of a chance to shine, for while Yale was on the defensive Coy played defensive end. Savage taking his place at fullback behind the line. It was noticed though that he was in every play that was made through the line by Princeton. The number of fair catches made by the Princeton backs of Coy's punts show how quick Savage and Kilpatrick were in getting down on the kicks.

EDGEWOODS THOUGH LIGHTER DEFEAT OPPONENTS 12 TO 0

The 125-140 pound championship was settled yesterday at Steeplechase when the Edgewoods dragged the Tammany Juniors through the mire. The final score was 12-0. The contest showed again that a team to maintain a title must practice. The Edgewoods, though they appeared to be lighter than their opponents, ran them off their feet. Right at the start the Edgewoods worked the forward pass, which netted them their first touchdown. Quarterback Hotchkiss went around right end and threw the ball down Casey kicked the goal. Kick-off was indulged in for the most part by both teams, with the winners having the advantage.

Three plays, the last by Hassett, produced the necessary touchdown. Casey kicked the goal, making the score 12-0. The Tammany Juniors had the ball on the Edgewood 40 yard line, when a fumble bounded into Clark of the Edgewoods hands. Clark had a clear field for a touchdown but the Tammany quarter back outdistanced him in speed, bringing him low on the 25 yard line. Considerable coin changed hands on the outcome of the contest.

TAFT WILL MAKE MANY APPOINTMENTS

(Special from United Press.)

Washington, Nov. 15.—The Roosevelt regime is fast fading from the government payroll. Removals, deaths and resignations are clearing out the favorites of the last administration so rapidly that by the time Bwana Tumbo returns from Africa next spring he will have difficulty in recognizing any single office by a glance at its personnel. Among the appointments President Taft will make within the next few weeks are:

One associate justice of the Supreme court of the United States to fill the vacancy caused by the death of Justice Peckham; three United States ambassadors, at Great Britain, France and Austria-Hungary; Robert Bacon, former assistant Secretary of State, has been promised the French court post; and Kearns of St. Louis is believed to stand a good chance for the Vienna berth. Whitelaw Reid, the present incumbent at the court of St. James, is willing, anxious and hopeful. Minister to China to succeed Charles R. Crane of Chicago, removed. The fall of the efforts to impeach the president is said to be giving the President the greatest concern as from the complexion of this tribunal depends, in a large measure, the greatest success or failure of the laws Congress may pass during his administration.

Boucher will be holder of the keys of the city in view of the fact that there will be no president of the Common Council at that time. Mr. Boucher will sit tight upon the job and applications for appointments on any of the city boards that are received will be placed on file. Mayor Buckingham received a number of callers at the city hall today.

SCALP DISEASE PREVENTED BY DOCTORS

Began with a Little Pimple—Itched and Spread Till Whole Head was Raw—Hair Fell Out in Bunches—Suffered Three Years and Cure Seemed Impossible.

"My disease started with a little pimple on my head. Then it began to itch. The more I scratched the worse it grew until it spread all over my head. So I went to the doctor. I continued his treatment for some time but, finding no result, I decided to change and try some other remedy. Little warts began to grow on my head. I would wash it every day but it grew more and more and my hair commenced to fall out in bunches. So I changed doctors. This doctor prescribed a wash and a salve. My head was so sore that I could not touch it. After trying several doctors and many patent medicines, nothing would cure it and I lost much time from work.

IMMEDIATE RELIEF AND EASY CURE BY CUTICURA

"Then I decided to go to the hospital. Several doctors were called in to look at it, and after some consultation they said that I had scabborrhoea in its worst stage. They began to treat it but it improved very slowly. For over three years I was a sufferer from this disease. I thought all hope of a permanent cure were impossible. A friend of mine, upon seeing the condition of my head, gave me a small tin of Cuticura Soap. I asked my friend if I had tried the Cuticura Remedies. I told him nothing would do me any good, but being very anxious to be cured, I decided to try them. The first treatment with Cuticura Soap, Ointment and Pills brought immediate relief. My hair became wavy and stopped falling out, all the scale left and now I am perfectly well and have a full head of hair.

"I was entirely due to the use of the Cuticura Remedies and I recommend them to all sufferers from any skin disease." George E. Jefferson, 1222 St. Philadelphia, Pa., Jan. 24, 1909."

SWEEEPING ACTION AGAINST LABOR

Easton, Nov. 15.—One of the most sweeping actions ever taken against a labor union in this State will be sought today by the Employer's Association. An injunction will be asked in the Superior court against the Boston Ladies' Tailors and Dressmakers' Union. The association is seeking to restrain that body from continuing the strike which has been on against the "open shops" for the past 24 weeks.

Should the injunction be granted it is believed it will prove a death blow to the organized labor of the entire State, as it will render strikes of any sort practically impossible.

When he married her he said she told him that she did not care whether he lived with her or not. She wanted merely to avoid scandal. He was then in a business of his own, as an undertaker. He lost the business, and has been out of employment, but went to work today in the Acme Shear Co.'s factory. In regard to the \$26, he said his wife had given him that to pay a loan, which he had continued. He said he would give his wife money as soon as he earned some.

NO HOPE FOR ENTOMBED MINERS

(Special from United Press.) Cherry Hill, Nov. 15.—Six trips into the burning St. Paul mine had been made by the mine inspectors at 1 p. m., but no traces of human beings were found. At that hour a special train arrived from Pittsburgh bearing government men and firemen equipped with telephones. These helmets were distributed by the mine inspectors in charge and a number of men went down with ropes and chisels to start the fire in the interior of the mine. The consensus of opinion this afternoon is that there is little hope of saving any of the entombed men alive. It is now believed the air supply has long since been exhausted. All indications now are that the entire mine is caving rapidly.

STUART'S DYSPEPSIA TABLETS

STUART'S DYSPEPSIA TABLETS contain among other powerful digestive and assimilating agents, a substance which thoroughly digests every particle of starchy foods in the small intestine, and prevents the possibility of intestinal indigestion, no matter how excessive may be the amount of food eaten. These tablets also contain calcium carbonate, which is a mild though effective cathartic, and they stop the diarrhoea and cures the diarrhoea by easy stages.
