INDUSTRIAL RECORDS

Indestructible 4-minute records for your cylinder talking-machine.

Here's a new Indestructible cylinder record—the 4-minute. It is about as big a thing as the Indestructible record itself was.

Think! It plays a complete selection. Nothing is omitted for it really runs over four minutes. And it will not break. Neither will it wear out.

Of course it is a Columbia and made for use first on the Columbia cylinder graphophone. But it may be used on any cylinder talking-machine. And its cost is but 50 cents.

New Indestructible records of regular size are ready—and the list is very attractive. New double-disc records too.
