Negro Gets Estate of Bridget Torpey

New York, Jan. 14.—Surrogate Thomas has handed down a decision holding that James Edward Johnson is the legal heir under the last will of Bridget Torpey, a cook over 70 years old, who bequeathed her estate amounting to \$20,000 to the colored man. The decision comes after a bitterly contested fight in which the next of kin, two brothers and a sister resisted the probate of the will, and Margaret M. Johnson, a trained nurse of 45 West Twenty-fifth Street, introduced a will purporting to have been executed several months later than the document which left the estate to Johnson.

GRANGE FAVORS UTILITIES BILL

STATE MASTER HEALEY EXPLAINS HIS CONDUCT IN LAST LEGISLATURE AND PROMISES TO DO BETTER NEXT TIME. Hartford, Jan. 14.—The annual meeting of the State Grange came to an end yesterday afternoon. The question of supporting the public utilities bill came up in a recommendation from the committee on the good of the order. The state master, L. H. Healey, in an endeavor to make a clear breast of his action in opposing the measure at the last session of the Legislature, in spite of the fact that the grange had previously gone on record as favoring the project, made an explanation. He said that when he opposed the passage of the bill at the legislative hearing last year it was because he first believed such a measure to be unnecessary in Connecticut. He afterwards became active in the matter because the executive committee of the State Grange agreed with him in opposing it, although all were unaware at the time that the grange at the meeting a year ago had gone on record as favoring it. He promised not to take action again without consulting the secretary's books and also promised, if the grange went on record this time as favoring the measure, to act as strongly at the next session of the Legislature in support of it as he had acted last year in opposition to it.

ALARM CLOCK FEEDS AND WATERS HORSES

Hartford, Jan. 14.—During the cold of two weeks ago, George Howe, of Centre Hill, Manchester, began to wonder how he might have his horses watered and fed early in the morning and at the same time how he might be able to stay snugly wrapped up in bed. The result was an invention—a practical invention—which is operating daily and well at the Howe stables. Mr. Howe has rigged up an ordinary alarm clock, a big gong. At the same time the key, when set at half-past five operates on the back of the clock unwinds a cord, which, attached to a double levered light wire, causes an alarm clock, a big gong. HOW SICKNESS COMES

Most fatal sicknesses have their beginnings in a simple "cold" or in a slight cough. Consumption first shows in a cough. Bronchitis is accompanied by a cough. The first stage of La Grippe is a "cold." Pneumonia is preceded by cough and violent "cold." Group—that terrible malady of childhood—comes solely as a condition of a "cold." Rheumatism generally follows neglect after exposure and the consequent "cold" or cough. The following are the symptoms of Bright's disease and other fatal complications, are often due to a "cold" which settles in that region. And there are countless other grave sicknesses which are recognized by the medical profession as having their direct or indirect cause in a neglected "cold" or cough.

1200 MAIN STREET, BRIDGEPORT. Compulsory Arbitration Head of Miners Soon to Strike Problem Solution Demand Higher Wages. (Special from United Press.) Buffalo, Jan. 14.—It is probable that representations will be made to the General Assembly at Albany to pass a compulsory arbitration act following a speech made here by Colonel D. W. Dunn, U. S. A., chief inspector of the Bureau of Explosives of the American Railway Association, at the annual banquet of the Central Railway Club. "If you doubt the gravity of the strike problem," said Colonel Dunn, "remember that a general railway strike would disturb the country more, and cost more, than a war of equal duration. Congress alone can declare war but an insignificant body of citizens organized for hellish purposes, can create a greater disturbance. Our legislators should provide an impartial tribunal to decide the property disputes of organizations as well as individuals and make report to it obligatory."
