## INCOME TAX BILL SENT BACK TO NEW COMMITTEE TODAY

Majority Report Signed by Chairman Paddock to be Further Considered

Republicans Instruct Judiciary Committee to Review Work of that on Federal Relations.

(Special to the Farmer.)

Hartford, March 15—The House after a spirited debate today recommitted the favorable report on the majority of the committee on Federal Relations which favored the income tax proposition. The matter has been threshed out by the committee on Federal Relations, of which Senator Gerry Paddock of Bridgeport is chairman. Two reports came from the committee, one signed by Paddock as chairman, in favor of the proposition. The other by House Chairman Fenwick in opposition. It was contended that the matter was one that should receive consideration at the hands of the Judiciary committee and the final vote on re-submission to have the matter go before the Judiciary and Federal Relations committees for joint consideration. Representative Meltzer of Bridgeport made a vigorous speech in favor of the majority report and against the recommitment. But the report was recommitment by what was practically a party vote.

This is the license to which the Board of Education will make protest when a hearing is held. ## All the Troops Under Major General Carter In Camp San Antonio

(Continued from Page 1)

Washington, March 15.—After carefully reading the statement by Count Ernest Von Reventlow, that Japan was preparing to strike at American possessions in the Pacific, Frederick L. Huldekooper, military expert, today said:

"That is the sanest statement of the real situation I have read. Everybody in touch with the situation knows its accuracy. There are about 60,000 Japanese in Hawaii now, practically all of whom are veterans of the Russo-Japanese war and who are now armed. There are officers there working in menial positions. Within three days if the word was given, these 60,000 could be organized into an effective corps, officered and armed."
