LOCAL DELEGATES FAVOR STUDLEY FOR GOVERNOR

The undignified attack made upon Judge Elias A. Robinson of Middletown by the Hartford Courant, has created quite a stir in Republican circles about the State. The statement Judge Robinson, however, that he would not dignify the paper by instituting libel proceedings in addition to the libel suit, is an indication of old gentleman's good judgment. The contest for the Republican nomination seems to be between Judge Robinson and Judge Studley of New Haven, with Lieutenant Blakeslee and Dr. Knight much in the background.

Not Many Store-Sales Are Uninfluenced by Store-Advertising!

The store-sales to-day that are uninfluenced, directly or indirectly, by store-advertising will not have amounted to ten per cent. of the total business of the day. By the direct influence of advertising is meant the sales of articles specifically advertised. By the indirect influence of advertising is meant the articles sold that are not specifically advertised, but are displayed to the customers who are drawn to the store BY THE ADVERTISED ARTICLES. In the latter case, as surely as in the first, the advertising must be credited with the sale. Observant merchants know that this is true. They should gain courage from the knowledge to strengthen their advertising campaigns to the point of matching their store-hopes and plans.
