

## CARRIGAN PICKS FOSTER TO WIND UP THE WORLD'S SERIES

Fifth Game in Quaker City Finds Mayer Leading Forlorn Hope for Pat Moran's Glean—Red Sox Confident of Making It Four Straight.

Philadelphia Fans Greatly Perturbed When Special Train Carrying Players and Keys to the Ball Field is Delayed by Slight Accident to Engine.

National League Park, Philadelphia, Oct. 13.—A threat of serious delay or possible postponement of the fifth game of the world's series here today served only in the end to whet the appetite of more than 20,000 faithful Philadelphia fans who crowded into the little park to encourage the home team in its last stand against the Red Sox of Boston, who went into this contest with the count of games 3 to 1 in their favor. A victory for the visitors meant the winning of the world's championship. A victory for the Phillies meant a prolongment of hostilities with tomorrow's battle slated in Boston.

A poor steaming engine of the special train bearing the members of the two ball teams delayed their scheduled arrival in the city from 9 o'clock until shortly before noon. In the meantime all sorts of rumors were current of a serious accident and a consequent delay in the series. The special was routed from Boston around by way of Poughkeepsie and was difficult to locate. Eventually, however, word came that all was well and that the game would start on time.

The Phillies, once more in their white, home uniforms, were on their own grounds today and got a rousing cheer of welcome from the crowded bleachers. The local fans fully believed that the Phillies would back the invaders and that some of "Gavy" Cravath's long hits would develop home runs today. There was very early evidence of a fiercely fought game.

The Phillies had their backs to the wall and in Alexander they placed their hope of turning the tide that set against them last Saturday when they began to take the short end of three successive 3 to 1 scores.

The playing today was lightning fast—far faster than the one in Boston. In practice the batted balls sped over it in a way that indicated the infielders would have to be on their tip-toes all day. The Philadelphia park seemed finer than ever after two days of play on Braves' field, but the Boston players claimed they did not fear the heavy artillery of the Phillies any longer.

A large throng was presented to Alexander by admiring friends. Klem gave decisions behind the plate; O'Loughlin on bases; Evans went to left field and Rigler to right field.

The batteries: Mayer and Burns for Philadelphia; Foster and Thomas for Boston.

## WILSON DOESN'T "ROOT" AT BALL GAME, BUT HE LOOKS JUST WHAT HE FEELS

THE PRESIDENT'S "FAN" FACE

This striking photograph of President Wilson, "snapped" at the second world's series game in Philadelphia, shows the intensity with which he followed the play on the field. His "fan" face, however, is not a "root" for either team, but he follows the play closely and knows all the fine points of the game. Mr. Wilson has not expressed, officially or unofficially, his sympathies in the big series, but he is believed to be an American league fan, because Washington, represented only in the Ban Johnson circuit, is his home city.

## WHAT WILL THE B.H.S. BUILDING COST THE CITY?

Rogers, Architect, Says We'll Get \$350,000 Structure For \$310,000.

## COMMISSIONERS NOW IN FEAR OF SUITS

Head of Board Flees From Interviewers—City Has Paid \$264,051.

Is Bridgeport going to get a \$350,000 high school for \$310,000; or will Bridgeport pay considerably more than \$310,000 for building presumably worth only \$310,000?

Following the recent developments in the tangled finances of the new building, folks who have investigated the contracts and modifications on the contracts are trying to answer those questions. To date, it looks like an even bet either way, and there are some who'll make a book on the proposition any way you want to swing.

Architect James Gamble Rogers figures the school will be worth \$350,000 when it is done. His authorization of payments to the original contractors, Durkin & Laas, and his statements to board members bear this out.

Some members of the board can't quite grasp the financial status of the school project and think that the city will find itself in lawsuits to collect extra moneys from the bonding company which was surety for the contractors.

And Col. Elmer H. Havens, president of the board of education and the man who has attended to the details of the new high school work, positively and absolutely refuses to be interviewed on the matter. He was contacted by a reporter that the public would like to be straightened out on a few points. The colonel made this statement:

"I will not be interviewed by you on the high school."

According to the records in the office of the board of education, Durkin & Laas took the contract to build the high school for \$310,650. At first the firm was to be paid by the "block system" payments being made as certain parts of the job were completed in this manner, \$144,485 was paid to the contractors.

## M. DELCASSE QUILTS POST IN CABINET

French Foreign Minister, Who Inspired the Anglo-French Entente Cordiale, Resigns—Premier to Assume Duties.

Paris, Oct. 13.—Foreign Minister Delcasse resigned today. His resignation was accepted.

Premier Viviani announced the resignation of M. Delcasse and its acceptance at a meeting of the cabinet council today, presided over by President Poincare. It was decided that the premier should take over the portfolio of the foreign affairs, with the presidency of the council of ministers.

Theophile Delcasse has been one of the foremost of French statesmen during the last 25 years, having to his credit above all else the inspiration which led to the formation of the Anglo-French entente cordiale. He was also credited with an effective influence in the settlement of differences between Russia and Great Britain making the possible formation of the triple entente. As foreign minister in the cabinet, M. Delcasse aroused the he filled other public positions and in what followed his policy aimed at the political isolation of that nation.

Mis Moroccan policy, leading to the crisis of 1905 between Paris and Berlin, resulted in his resignation after holding office for 11 days. Subsequently, his hostility of Germany where it August, last year, was recalled to the foreign affairs portfolio.

London, Oct. 13.—The Austro-German invasion of Serbia is making progress, the war office announced today, although the Serbians by their resistance are interfering to some extent with the advance. A village and other positions south of Belgrade have been taken.

Russians' Successes IN EAST ARE CONFIRMED London, Oct. 13.—The news between Bulgaria and Serbia apparently has been settled squarely. It is reported unofficially that Bulgaria has declared war. Little is known here of the progress of hostilities between these countries beyond the fact that Bulgaria has invaded Serbia and is endeavoring to have its forces in the opening engagements. In northern Serbia the Austro-German invaders are meeting with stubborn resistance.

The report from Petrograd yesterday of an important Russian success in Galicia has been confirmed officially. General Ivanoff has broken the Austro-German front along the Stripa, taking 1,000 prisoners and some guns. If the Russian victory is definitely as indicated by the official announcement, the Austrians may be compelled to fall back on Lemberg. Such a retreat would be certain to have considerable moral effect in the Balkans, where the continued neutrality of certain states is believed to be due largely to the severe reverse suffered by Russia during the summer campaign.

In the Dvina region desperate but indecisive fighting continues with the offensive shifting frequently from one side to the other. Field Marshal Von Hindenburg evidently intends to continue his attack as it is reported reinforcements for his army are on the way to the front.

From the western front come reports bearing evidence that the French are resuming the offensive in the Champagne. Paris claims slow but steady progress, accompanied by the capture of a few prisoners and heavy losses in killed and wounded for the Germans.

A German correspondent at the front states that a great fight, in which all arms seem to be engaged, is now proceeding in the Champagne, which is regarded as an indication that the French intend to resume the offensive.

Beyond the announcement made by the British War Office that a British submarine, which is regarded as an indication that the French intend to resume the offensive.

## SAUSAGE MAKERS STRIKE; DEMANDS ARE NOT GRANTED

Dog-Gone Tired of Working Conditions, Which They Say Are Worst Ever.

Thirty-six sausage makers of this city went on strike this morning and at the same time an unusual lull surrounded the machinery in the frankfurter factories of Morris & Co., the Cudahy Packing Co., and the Thomas J. McNamara Co.

The strikers issued an ultimatum this morning, the general tenor of which was:

"We're dog-gone sick and tired of this, and we don't propose to mince matters. Conditions here are the worst we've ever seen. Don't try any skin game on us in this mix-up."

The employers ground their teeth together and barked back that they wouldn't give anything but the raise demanded by the sausage makers. The employees declared they wouldn't stand for any curtailment of the list of demands they presented.

Last night the sausage makers met and decided to ask for the following hours of work: Monday to Friday, 7 a. m. to 12 and 1 to 5, Saturdays, 7 to 12. They want a minimum wage of \$14 a week and \$1 raise for all who get more than that. They do not want any members of their union to be employed, unless the person has applied for membership in the union. They want time and one-half for overtime. Further, for grievances they want a committee composed of two representing the employers, two of the union and one outsider.

Philip Guest, representing the Meat Cutters' and Butchers' union, conferred with the employers this morning and they desired merely to grant the \$1 increase asked. They oppose other concessions.
