**McDONALD RECOVERS**

Edward McDonald, night watchman of The Stratfield, whose skull was fractured a couple of weeks ago by a bottle thrown at him from one of the higher stories of the hotel when he was on duty, has so far recovered that he left St. Vincent's hospital yesterday.

About now the schools are affected with that serious contagious disease, "Anti-schoolitis," convincing the learned graduates of the seventh grade that they know enough and should quit study.

**QUIT COUGHING**

Coughs cause feverish conditions, throat and lung strain and lead to pneumonia and serious sickness. The sooner you quit coughing the quicker you will feel better and have a better night's rest. Leonard's Cough Syrup (Creosoted) cures and soothes inflamed, raw throats, raises the phlegm without racking or straining, protects the lungs and removes the cause of the trouble. Be warned by the firm cough. Get a bottle of Leonard's Cough Syrup (Creosoted) from your druggist. Fine for coughs, colds, grippe, croup, whooping cough and bronchitis. Pleasant, safe and sure.—25c. Hindle's Drug Stores, 987 Main street and 905 Main street.—Adv.

**Get Together Week**

We are waking up in Bridgeport. Some of us are a little dazzled by seeing what was before our eyes all the time.

A lot of us are asleep yet, a sort of restless active, hypnotic sleep, caused by keeping our eyes fixed on the next dollar in front of us.

Those who are awake are looking ahead to many more dollars than are in sight now, a steady secure stream of them made permanent by stable prosperity governed by intelligence, by fair play, by honest work.

Merchants, manufacturers, store keepers, and those who work for them, are beginning to see with eyes that can understand and believe.

It is getting home to us that security is better than gambler's profits, that there is no sense in recklessly and foolishly staking what we have, whether it is a great factory or a job in it, on the chance of squeezing a little more out of it.

The odds are too heavy and it isn't good business.

We are not going to have this gambler's prosperity handed to us on a silver platter indefinitely. And we can't club it out of each other, when there's isn't enough to go round, even if we are silly enough to try it.

We can convert into real values if we wisely invest what we have already gained. And we can keep the prosperity with foresight and good honest work.

Remember always that the value of a dollar isn't measured by the figure 1 with a sign before it. Its measure is what you can get for it, the work you can make it do for you.

The biggest work a dollar can do just now is to build homes that will pay.

It is going to take many dollars—all we can spare.

Big men in Bridgeport are giving their brains and knowledge to the problem, and they will lend their money.

They can't do it all. It isn't fair to Bridgeport nor to us to let them do it all. It's part of our job.

All of us must join in and DO IT NOW.

By this time we all know where we stand if we have two good feet and a head of our own we can balance on top of them.

Let's agree right now to go into partnership with our own town and work like honest, loyal partners.
