

FORM WOODROW WILSON YOUNG MEN'S LEAGUE

Active and Enterprising Bridgeporters Organize Democratic Club.

The Young Men's Woodrow Wilson club, composed of active and enterprising residents of this city, was formed last night at a preliminary meeting. Indications are that a flood of applications will be received at the meeting tomorrow night, and although the organization is entirely new, it already has a membership of great proportions among well known young men of this city.

William B. Griffin was elected president last night. Mr. Griffin's leadership, because of his initiative and popularity, is expected to aid the organization's becoming one of the most potent of its kind in the state. He is a graduate of local schools and has had executive experience in the business world.

William Lee is the vice president, Edward Cotter, secretary and E. C. J. Kelley, treasurer. The new club is fortunate in its officers.

All men under the age of 25 will be eligible to join the club. Those desiring to join are requested to attend the meeting tomorrow night, when arrangements will be made for a big demonstration and flag-raising. A banner will be raised at Main and Wall streets, following which a mass meeting will be held in the State Street Casino. Candidates for state offices are expected to address the meeting.

An executive committee will be appointed tomorrow night, and sub-committees for each district will be named.

The entire upper floor of the Beers building, at 391 Main street, has been engaged for club rooms.

PERSHING LIKED BY SOLDIERS ON BORDER PATROL

Washington, Oct. 12.—Nomination of Brigadier General John J. Pershing as a major general was looked upon by his brother officers at the war department as the most popular and deserved promotion made in Secretary Baker's incumbency in office.

"Blackjack" Pershing, as he is affectionately called, has had his name written all over the army's book of fame. The enlisted man idolizes him.

Selection of General Pershing to lead the Mexican expedition was commended unanimously because of his record. His first real field work was in the capture of Genoa.

General Pershing rescued a party of cowboys in 1888 when they were surrounded by hostile Indians without firing a shot, and he was commended formally for doing it. He was promoted for gallantry in action at El Caney in the Spanish-American war.

As adjutant general of the department of Mindanao and Jolo, in the Philippines, General Pershing did so well he was made military governor of the islands.

When Theodore Roosevelt wanted a "live wire" brigadier general in 1896 he jumped General Pershing from captain over sixty-two other officers. It still stands as the record rank jump of the service.

Growing Number of Anti-Suffragists

There are at least 17,000 women in Connecticut who are opposed to woman suffrage. More than that number are registered on the files of the Connecticut Association Opposed to Woman Suffrage, according to an announcement made yesterday when the association board met.

Plans were made for the first convention of the organization, which will be held about the middle of November and reports were given of the work done at the state fairs. The association had booths at the Rockville, Berlin, Charter Oak, Guilford and Danbury fairs, under the direction of Mrs. Cook, and over 800 names were added to the organization.

Hartford, Oct. 12.—L. B. Brainard, president of the Hartford Steam Boiler Inspection & Insurance Co., died suddenly last evening. Up to a few minutes before his death he was in apparently perfect health.

SOLDIERS GOT RELIEF FROM SORENESS

Boys on the Border Relieved Their Pains and Aches with Sloan's Liniment

Once upon a time Norman Jones, serving in the National Guard at El Paso, returned to camp after a strenuous 15 mile hike foot-sore and leg weary. He had not been long in active service and his shoulders, back and limbs felt the after-effects of marching.

Remembering Sloan's Liniment, Jones applied it to the sore spots and went to bed. He writes: "I arose the next morning feeling fine; in fact I had entirely forgotten about the hike and went out for a four-hour drill in the sun as spry as ever."

Private Jones passed the experience along, and many a boy on the border relieved the agony of sprains, strains, bruises, insect bites, cramped muscles, rheumatic twinges, etc., by the use of Sloan's Liniment.

Easily applied without rubbing. At all druggists, 25c., 50c. and \$1.00.

BIG DEMOCRATIC MAJORITY LIKELY IN LOWER HOUSE

Chairman of Congressional Campaign Committee Sees Great Success.

New York, Oct. 12.—Frank E. Doramus, chairman of the Democratic Congressional Campaign committee, told Chairman McCormick today that the next Congress will be Democratic by a large majority.

"Two weeks ago," he said, "I estimated that the Democrats would organize the next House of Representatives by approximately fifty majority. Reports from various doubtful districts received since then indicate that this figure may be exceeded. 'Careful polls taken in the Detroit factories and in the farming districts of Michigan show a tremendous sentiment among Republicans for President Wilson. The State will probably land in the Wilson column.'"

"President Wilson will be re-elected and the people are not going to let his hands with a Congress, not in sympathy with him."

BAVARIAN KING, INSANE FOR MANY YEARS, DEAD

London, Oct. 12.—Former King Otto, of Bavaria, who has been insane for many years, has died suddenly according to a Copenhagen despatch to the Exchange Telegraph Co., quoting a Berlin official announcement.

The mad king died at Puerstnerfeld Castle near Munich where he has been confined since 1872.

King Otto was born on April 27, 1848, and succeeded his brother Ludwig II, in 1886. Ludwig II was also insane and drowned himself in Starnberg Lake. King Otto was deposed on November 5, 1913, and was succeeded by the present monarch, Ludwig III, formerly regent.

New York, Oct. 12.—Thefts of stocks worth \$100,000 from the mails have been reported to United States inspectors here.

Spur Tracks May Not Cross Trolley Lines at Grade, Hinman Says

The public utilities commission cannot legally issue an order permitting the construction of a steam railroad sidetrack across the tracks of an electric railway at grade in the state, according to an opinion given yesterday by Attorney General George E. Hinman. The attorney general's interpretation of the public acts of 1911 regarding this point will have an important effect on the proposed work of railroad companies operating in the state and will have a strong bearing on the future decisions of the public utilities commission.

The opinion was given in answer to a request for enlightenment made by the public utilities commission regarding the petition of the mayor and the board of aldermen of New Haven in behalf of the Atlantic Coast Lumber Corporation which involved the proposed laying of a commercial sidetrack from the New Haven road lines across the tracks of the Connecticut Co.

Nujol For Constipation

ARE YOU PAYING the PRICE of OFFICE WORK?

Are you obliged constantly to guard your health against the consequences of working indoors all day without sufficient exercise? Perhaps you have contracted the habit of taking a laxative pill every now and then as a means of keeping free from constipation. But this constant drugging of the system with habit-forming bowel stimulants is dangerous, as any physician will tell you.

The use of Nujol as an internal lubricant is a far more satisfactory answer to the office worker's health problem because it relieves constipation without upsetting the system or forming a habit.

All druggists carry Nujol which is manufactured only by the Standard Oil Company (New Jersey). Avoid substitutes. Write today for booklet "The Rational Treatment of Constipation."

State Indebtedness Will Be Paid Off In 20 Years, Is Estimate

The bonded indebtedness of the state, amounting to \$13,000,000 will be paid off in about 20 years by the state sinking fund of \$500,000, designated by the last General Assembly when it laid a state tax of \$1,750,000, according to a statement made yesterday by State Treasurer Frederick E. Chamberlain. The sinking fund was paid into the state treasury on Nov. 10, 1915.

Bonds having a par value of \$505,000, of various cities and towns of Connecticut, have been purchased with this \$500,000. The annual income derived from it. The annual income from these bonds, according to the treasurer, will amount to \$20,950, which will be added to the amount now on hand in purchasing more securities for this purpose.

"In about 20 years," said Treasurer Chamberlain, "this fund will pay off the present bonded state debt of \$13,000,000. I have bought and cancelled during the last fiscal year \$64,000 of state bonds, leaving \$3,000,000 of the 3 1/2 per cent. and \$10,000,000 of the 4 per cent. now outstanding."

Regarding the estate penalty tax, the treasurer gave out the following statement:

"The last General Assembly passed an act putting a penalty on the estates of persons who had failed or neglected to pay taxes during their lives on property liable to taxation."

"The first payment of this tax was received Dec. 30, 1915, and at the

close of the fiscal year, Sept. 30, 1916, the amount collected was \$5,664.27. Of this sum the various cities and towns will receive 80 per cent, that is \$41,331.42 will go into the coffers of the towns and cities where the decedents resided. This will be distributed to the various towns and cities in about 10 days.

"It is confidently expected by the treasury department that at least \$100,000 will be received during the present fiscal year, which will end Sept. 30, 1917, for division in the various towns and cities of our state, but this distribution of the tax probably until October, 1917. This is an entirely new source of revenue for the towns and cities."

REV. JOHN R. BROWN AGAINST INTERVENING

Lecturing on Mexico, the Rev. John R. Brown, of the First Baptist church, last night declared that intervention by America, in the affairs of our Latin sister republic, would alienate the sympathies of the people in that nation for all time.

Mexicans in the opinion of the minister were an oppressed people, receiving the poorest wage for their labor of any workers in any part of the world. The clergyman praised President Wilson's efforts to bring about by peaceful means, order out of the chaos now reigning in the country and said the Mexican should have the sympathy of the entire world.
