TEACHERS' EXAMINATION.

Notice is hereby given that for the purpose of making an examination of all persons who may offer themselves as candidates for teachers of the schools of this county, the county school superintendent thereof will hold a public examination at the Court house in Corvallis, Benton County, Oregon, on Wednesday, November 11th, 1891, beginning at the hour of 10 o'clock, p. m.

NOTICE OF FINAL SETTLEMENT.
In the County Court of the State of Oregon, for the county of Benton.

Under the will of the partnership estate of Belknap Bros., Belknap Bros. & Kennedy Brothers, deceased, the undersigned administrator has filed his final account for settlement of said estate, and the County Court of Benton County, Oregon, has fixed Saturday, the 5th day of December, 1891, at the hour of 10 o'clock a. m. of said day, at the court house door in the city of Corvallis, Benton County, Oregon, to hear and determine all and singular of said account and the objections thereto.

NOTICE FOR PUBLICATION.
LAND OFFICE AT OREGON CITY, OR., October 3, 1891.

NOTICE IS HEREBY GIVEN THAT the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the County Clerk of the County Court of Benton County, Or., at Corvallis, Oregon, on November 23, 1891.

WESTERN SETTLER'S CHOSEN SPECIFIC.
With every advance of emigration into the far West, a new demand is created for Hostetter's Stomach Bitters. Newly populated regions are frequently less salubrious than older settled localities, on account of the miasma which rises from recently cleared land, particularly along the banks of rivers and streams, and the consequent exposure, and unaccustomed or unhealthy water or diet subject him. Consequently, he places an estimate upon this great household specific and preventive, commensurate with its intrinsic merits, and is careful to keep on hand a restorative and promoter of health so implicitly to be relied upon in time of need.

REPUBLICAN CLUB.

Corvallis should have a republican club organization. Steps to organize clubs are being taken throughout the state, and there is no reason why Benton county republicans should not organize a party as well perfected organization, and we would urge the importance of a meeting at an early date to that effect. The coming June election in this state demands republican activity, as the result of Oregon's election will determine very materially the prospects of the presidential election. Let the republicans of Corvallis and Benton county take hold, and work and strive to promote the principles and the interests of the party.

UNDER THE LAW.—A dispatch from Astoria to Wednesday's Oregonian chronicles the arrest by the sheriff at that place Tuesday of Lillian Young, an adventuress from the girl's mother, who lives in Corvallis. Her negro paramour, with whom she eloped from Albany recently, was also taken in and both are now in the county jail at Astoria pending a hearing. In her letter to the sheriff the girl's mother says she is not yet of age and is of a wild disposition.

FROM FLORIDA.—Mr. N. B. Haswell, grandfather of Mrs. Small, of this city, in company with Mrs. Fitch, Mrs. Small's mother, arrived in Corvallis from Dale City, Florida, last week, and will spend a greater portion of the winter here. Mrs. Small had not seen her mother and grandfather since fourteen years ago and the meeting was certainly very happy one. Mr. Haswell is a printer by trade.

In the circuit court of Linn county the case of the State vs the Willamette Valley & Coast Railroad Company to annul the charter of the corporation, a motion to dismiss the cause on the ground that the suit was brought in the wrong county, and for want of service was submitted. The motion was sustained, and the case dismissed.

PHILOMATH ITEMS.
PHILOMATH, NOV. 6, '91.

Owing to the continued rainfall for the past two or three weeks the farmers are not making much headway with their seeding.

The Athenian Literary Society met Saturday evening to resume its work and the following officers were elected: President E. L. Bryan; secretary, E. M. Lauge; assistant secretary, Viola Johnson; treasurer, Hattie Egan; clerk, Luella Dixon; librarians, Minnie Bryan; chaplain, Prof. Sheek; sergeant-at-arms, Prof. Gilbert. Several new members were enrolled, and a good society is assured.

Mr. C. B. Wells has moved his family to town to attend school.

There will be services in the Radical church every Sunday morning and every other Sunday evening, from this on, by the pastor, Rev. Stewart, who arrived from Michigan a few days ago.

Philomath against the world. It has two first-class colleges, one public school, three churches, three general merchandise stores, one drug store, one hardware store, one blacksmith shop, one hotel, one livery stable, one butcher shop, one barber shop, all of which are supported by 275 inhabitants.

FARMERS' INSTITUTE.—Below we present the programme of the farmers' institute to be held in the Christian church at Harrisburg, Nov. 13th and 14th, 1891, it being the first session of the series of 1891-92: Friday, 7:30 p. m., Address of Welcome, Mayor Lassel; Response, Prof. B. L. Arnold; Sugar Beets, Prof. G. W. Shaw; Discussion; Demonstration of the Workings of the Cream Separator, with Remarks on Dairying in the Willamette Valley, C. H. Schmidt; Discussion, Saturday, 9:30 a. m., Some Personal Experience in Farming in Oregon, M. Fuller; Discussion; Rotation of Crops, J. P. McCartney; Discussion, Prof. H. T. French and others; Silo and Ensilage, Prof. H. T. French; Discussion; Breeds of Hogs and Proper Caring for Pork, Open Discussion. At 1:30 p. m., Questions from Question Box; Hop Raising in Linn County, Dr. H. A. Davis; Discussion, J. Cartwright and others; The Coding Moth and the Apple Question, Prof. F. L. Whittam; Discussion. At 7:30 p. m., Questions from the Question Box; Farm Accounts, Prof. W. W. Bristow; Discussion; Some Common Weeds, Prof. M. Craig; Discussion; Closing Remarks. The above program will be interspersed throughout with music.

THE FESTIVE FISH.—One of the pleasantest sports that can be indulged in is to chase the festive fish, and especially speckled beauties, which are quite plentiful in Oregon streams at certain seasons. Whenever Mary's river rises sufficiently its banks are often lined with anxious fishermen, and they enjoy fine sport, crowded with much success, generally. At present the river is high enough to permit trout to run up as far as the dam, and the boys are pressing the season with the hook and line. These fish are very large, and a more delicious dish it would be hard to place on a dining table. If you catch more fish than you can get away with, boys, send them out to the poor for charitable purposes; the GAZETTE will promise to take a few, among the rest, provided you charge only charitable prices. Nothing does a newspaper man more good than a good dinner once in awhile. Of course, we don't expect regular meals.

BAKING POWDER FACTS
Brought out by the Official Government Tests.

PURITY OF FOOD DEMANDED BY THE PEOPLE
—WHICH BAKING POWDER WILL GIVE IT?

From Chicago Tribune.
The public is always responsive to suggestions about the food it eats. Great interest has been taken in the investigations of the United States and Canadian governments and by many of the different boards of health to show the purity or impurity of milk, baking powders, spices and other articles in daily use in the culinary department of our households.

Just now the subject of baking powder is claiming public attention. We all desire pure and wholesome bread and this can not be had with the use of impure or poisonous baking powder. There can be no longer any question that all the cheaper, lower grades of baking powder contain either alum, lime or phosphoric acid.

The official analyses by the United States and Canadian governments have been studied with interest and have pretty clearly established the facts upon this subject. The United States government report gives the names of eighteen well known powders, some of them advertised as pure cream of tartar baking powders that contain lead.

The report shows that the royal baking powder was found the highest in leavening strength, evolving 109.6 cubic inches of gas per single ounce of powder. There were eight other brands of cream of tartar powders tested and their average strength was 111.5 cubic inches of gas per ounce of powder.

The Canadian government cut investigations were of a still larger number of powders. The Royal baking powder was here also shown the purest and highest in strength, containing 129.32 cubic inches of leavening gas per ounce of powder. Nine other cream of tartar powders were tested, their average strength being reported to be 89 cubic inches of gas per ounce.

These figures are very instructive to the practical housekeeper. They indicate that the Royal baking powder goes more than 37 per cent further in use than the others or is one third more economical. Still more important than this, however, they prove the popular article has been brought to the highest degree of excellence—for its superlative purity this superiority in strength is due—and consequently that by its use we may be insured the purest and most healthful food.

The powders of lower strength are found to leave large amounts of inert matters in the food. This fact is emphasized by the report of the Ohio State Food Commissioner, who, while finding the Royal practically pure, found no other that contained less than ten per cent of inert or foreign matter.

The public interest in this question has likewise caused to be made investigations by our local authorities. Prof. W. S. Haines, of Rush Medical College, consulting chemist of the Chicago Board of Health, has found results similar to those reported by the national and Canadian authorities. Dr. Haines says:

"I have recently obtained samples of the chief baking powders of the market, and have subjected them to careful chemical examination to determine their purity, wholesomeness and leavening power. As the result of my tests I find the Royal baking powder superior to all others in every respect. It is entirely free from all adulteration and unwholesome impurity, and its baking it gives off a greater volume of leavening gas than any other powder. It is therefore, not only the purest, but also the strongest powder with which I am acquainted."

WALTER S. HAINES, M. D.,
Consulting Chemist, Chicago Board of Health.

The statistics show that there is used in the manufacture of the Royal baking powder more than half of all the cream of tartar consumed in the United States for all purposes. The wonderful sale thus indicated for the Royal baking powder—greater than all other baking powders combined—is perhaps a higher evidence than that already quoted of the superiority of this article, and of its indispensableness to modern cookery.
