DREADFUL PSORIASIS

Covering Entire Body with White Scales. Suffering Fearful. Cured by Cuticura.

My disease (psoriasis) first broke out on my left cheek, spreading across my nose, and almost covering my face. I ran into my eyes, and my physician was afraid I would lose my eyesight altogether. It spread all over my head, and my hair fell out, until I was entirely bald-headed; it then broke out on my arms and shoulders, and my arms were just one sore. It covered my entire body, my face, head, and shoulders being the worst. The white scales fell constantly from my head, shoulders, and arms; the skin would thicken and be red and very itchy, and would crack and bleed if scratched. After spending many hundreds of dollars, I was pronounced incurable. I heard of the CUTICURA REMEDY, and after using two bottles CUTICURA RESOLVENT, I could see a change, and after I had taken four bottles, I was almost cured, and when I had used six bottles CUTICURA RESOLVENT, one box of CUTICURA, and one cake of CUTICURA, I was cured of my dreadful disease from which I had suffered for five years. I cannot express with a pen what I suffered before using the CUTICURAS. They saved my life, and I feel it my duty to recommend them. My hair is restored as good as ever, and so is my eyesight. Mrs. ROSA KELLY, Rockwell City, Iowa.

Cuticura Resolvent

The new Blood Purifier, internally (to cleanse the blood of all impurities and poisonous elements), and CUTICURA, the great Skin Cure, and CUTICURA SOAP, an exquisite skin beautifier, externally (to clear the skin and scalp and restore the skin to its normal condition), are the only remedies which have cured thousands of cases where the shedding of scales, itching, burning, and itching almost beyond endurance, hair falling out of all pores, suffering from eczema, and what other remedies have made such cures?

Sold everywhere. Price, CUTICURA, 50c.; SOAP, 25c.; RESOLVENT, \$1. Prepared by the POTTER DUGAN AND CHEMICAL CORPORATION, Boston, Mass. Send for "How to Cure Skin Diseases," 64 pages, 60 illustrations, and 150 testimonials.

ACROSS THE DEEP, TO THE FAR WEST.

On steamboats, cars and stage-coaches, Hostetter's Stomach Bitters is carried as the most important item in the materia medica of the traveling public. It deprives vitiated, brackish water of its hurtful properties and exerts a favorable influence on the pericardial effects upon the stomach of bad or indigestible food; remedies cramps, heart lurch and wind upon the stomach. It is a fine defence against malarial disorders, nullifies the effects of excessive heat, cold and damp, relieves sickheadaches, and is an incomparable cure for constiveness and biliousness. The fatigue of travel often tells most disastrously upon invalids and convalescents, occasionally to such an extent as to jeopardize life. Persons in feeble health, unresponsive of bad effects from travel, will, if provided with the Bitters, be far less likely to have their fears realized.

A REASONABLE NUMBER.

The July issue of THE DEMOCRAT is a remarkably strong and reasonable number. An illustrated article on SUMMER RECREATIONS will be appreciated by all lovers of outdoor sports who desire to be suitably clothed. A summer entertainment is called "A Fourth of July Ball," and in an ably prepared paper on Salads are provided dainty recipes for jaded appetites. The "Broom Drill" is illustrated and described in the series on Drills. Physical Culture takes up a very interesting and instructive lesson, and the chapter on Child Life is one of the most important yet issued. The busy housewife will find much use and labor-saving information in the paper on Scouring, and the bird lover will learn how to successfully treat the ailments and diseases of cage birds in a simply-written article on that subject. Many other topics of interest are attractively considered, and further designs and instructions are given in Draw-Work, Tatting, Lace-Making, Knitting and Crocheting. Single copies of this number, 15 cents. Subscription prices, \$1.00 a year. Address orders to the Butterick Publishing Co. (Limited), 7, 9 and 11 West Thirtieth Street, New York.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses of from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. THE ROYAL AND THE SOLDIERS.

Army and Navy Journal.

During the last year, including the March contracts recently awarded, the Royal Baking Powder Company has supplied over 212,000 pounds, or 105 tons of baking powder for the United States Government and its army and navy officers.

For many years the Government has given its orders for Royal Baking Powder in preference to all others, it being found superior to all others in strength and purity by the official examination, and the only Baking Powder that will keep and retain its strength in the various climates to which it is sent by the department.

A SUCCESSFUL REMEDY FOR RHEUMATISM.

One little county in western New York marketed 300,000 barrels of apples last year and had a fruit crop worth \$339,000. As fruit was very abundant and prices low last year, that was a good showing. It is doubtful if all Oregon sells over 200,000 barrels, which is equal to 690,000 bushels. If a single county of New York grows that many, how many will the whole state produce?

EXHIBIT IN DRAWING.

It was the pleasure of a representative of the GAZETTE, one day this week, to visit the exhibit in free hand drawing, executed by the students in Prof. Berchold's class, at the Oregon agricultural college, during the past two terms. The exhibit is a very creditable one, especially when it is considered that none of the students of the class ever received any instructions in this art prior to January first, 1922. The exhibit consists of all of the work of the class from the beginning and shows marked improvement as they advanced. The walls of the class room are ornamented with some thirty or forty of the best studies selected, some of which would do credit to much older artists. The balance of the work is preserved in book form and is open to the inspection of visitors. The exhibit will be open to visitors every afternoon until the close of college.

The following is a list of some of the drawings worthy of mention:

Fishermans, (French) by Miss Frank Parsons; also Peasant Girl on her way to church, very good.

Fishing Scene in Scandinavia, Lulu Williams, good; one can fairly feel the chill of the high banks of ice in the water.

Stag drinking, Aug. Zimmerman; Oregon Forest, scene; Ethel Coote, very natural indeed.

French Anarchist, (head) Mark Bump; excellent, particularly the
