

things might be expected. The entertaining of the above sentiments, is deemed to be but the logical effect of a willingness to sympathize with the open and avowed advocates of nullification, secession and disunion.

MONTICELLO.

Later from the Atlantic Side.

ST. LOUIS, December 24, 1860.—The South Carolina Legislature has appointed a Committee on Postal Affairs. It has also passed resolutions directing the Military Committee to consider the best method of fortifying the coast of the State.

A petition was presented for the suspension of the laws for the collection of debts.

Meninger, at a meeting at Charleston, recommended the taking of Fort Moultrie by force if it was not surrendered by the Federal Government.

The Charleston Mercury urges all the South Carolinians in the U. S. Navy and Army to resign and return home.

The Charleston Banks have discounted moderately, with much relief to the public.

The secession feeling is great in Florida. Secession flags are flying.

An excited meeting at Memphis had passed strong secession resolutions, on the night of the 30th, in favor of a call of the Legislative Convention to stand by the South.

The South Carolina Legislature, on the 30th, postponed the election of a U. S. Senator.

The Savannah Banks have suspended payment.

The First Judge Nesbit, one of the most conservative men in Georgia now advocates immediate secession.

In a letter from Houston it is stated that the conservative men of Alabama are rapidly leaning towards secession; he is for the Union.

Intelligence from Columbia, Ky., dated the 1st inst., states that fifteen negroes, and one white man, their leader, were hung by citizens at Parkersville, for attempting insurrection. No particulars have been received.

ST. LOUIS, December 3rd.—Senator Douglas was received at Washington on the 1st, by two thousand friends. He made a speech endorsing every sentiment of Stephens' speech, in which he hoped the country would be saved. He was ready to adopt the Georgia platform in all its features. He expressed strong Union conservative sentiments.

The session of the South Carolina Legislature is progressing.

Gov. Houston, of Texas, refuses to call an extra session of the Texas Legislature, but will do so if a majority of the people petition him to that effect.

ST. LOUIS, Dec. 3d.—3 P. M.

Congress met to-day. In the House great good humor prevails. The Speaker taking the Chair called the House to order at noon.

Prayer was made by Rev. Mr. Stockton for quieting sectional discord.

A message from the Senate was received.

The Joint Committee wait the President's appointments.

Mr. Grow called up motion to reconsider the vote on the Homestead bill. Passed over.

Members proceeded to draw for seats. The members from North Carolina, Louisiana, Tennessee, and Kentucky represent those States as strong for the Union.

The Pacific Railroad Committee will report in favor of the Southern routes.

The Union members favor a reference of the parts of the President's Message relative to secession, to committees composed of one from each State, and their decision to be final.

Judge Elmore has been appointed Commissioner from Alabama to South Carolina.

The Florida Legislature unanimously passed a Convention bill—meets 3d January.

The Georgia banks will suspend to-day.

Colonel Snyder, messenger from the Governor of Missouri, has returned from the borders, and reports all quiet—Montgomery committing no further outrages. The accounts are much exaggerated.

The Governor of South Carolina has received a letter from Major Lee, commanding the Baltimore National Volunteers, 1,300 strong, unanimously tendering their services against coercion.

The Times correspondent says that Seward will address the Senate, urging the extension of the Missouri Compromise line, and declaring State Rights. The Republican members are much divided on the subject. Some will not yield the right to take slavery into the Territories.

The Philadelphia Press says that the Union men in the South are rejoicing in the hope that the disunion Senators will resign, inasmuch as they will proceed at once to organize a great Union party, and place in the Senate such men as John Forsyth, of Alabama; James Gardner, of Georgia; Col. Perry, of South Carolina; Wm. H. Polk, of Tennessee; and Miles Taylor, of Louisiana—Douglas men. Senator Bayard, of Delaware, will not do so foolish a thing as to resign his seat in the Senate; and Vice President Breckinridge—who obtained the Senatorship of Kentucky, by over-reaching Gules—will hold on to his position for six years, certain.

Notices of Books.
Bancroft's Lawyer and Form Book: 8vo., pp 764. Adapted under the Revised Laws, and the latest Judicial Decisions, to California, Oregon and Washington Territory. San Francisco: H. H. Bancroft & Co., 1860.

The above book is not a stranger to our readers, and public commendation has been so universally extended that it seems superfluous to recommend it. To the attorney it is an invaluable companion. The great number of published forms are classified, and on the title of each class is a well-written preliminary law treatise, followed by the statutory provisions of California, Oregon and Washington. Indeed we know of no business or occupation in which the work is not eminently serviceable. It is divested of pedantry and stripped of technicality, and any "way-faring man though a fool cannot err" if he follows its suggestions. To the numerous Clerks, Justices of the Peace, County Officers, Notaries, &c., who are obliged to do conveyancing, this work is invaluable, and they should not be without a copy. We know of no recent publication embodying so much useful knowledge.

LECTURE.—Prof. Lippincott will deliver a lecture before the Olympia Lyceum and Library association, on next Friday evening, Jan. 4th, at the M. E. church, at 6 o'clock. Subject—"The March of Mind."

STEAMER OREGON.—The Oregon arrived at the West Olympia Wharf on Saturday evening last, and sailed early Sunday morning. She brought no Atlantic mail.

We commend the attention of those wishing to purchase Harness and Saddlery ware to the establishment of Prof. Witherell, at Tumwater. His work cannot be excelled.

Mr. Jones requests us to state that the ball at Gallier's Hall (advertised for New Year's Eve) is postponed until the evening of the 8th January.

Remember the ball at Tumwater on Monday evening.

"J. S. W." will find a place in our columns soon.

THANKS.—To Captain Fleming for many favors.

Gatherings by the Wayside.

Wm. Halleck, late Captain in the U. S. Army, has been commissioned as Major-General of the 2d Division of the California State Militia, in place of Major-General Haven, deceased. Mount Baker is now in operation, throwing off clouds of smoke and steam. As seen from Port Townsend through a telescope, it is said to present the appearance of a steamboat blowing off steam—the vapor rising perpendicularly high above the loftiest peaks. The Register says that bogus twenty-five and two-and-a-half dollar pieces have been offered for circulation at that place.—A vein of decomposed quartz has been found on Middle creek, Shasta county, Cal., from which pounds of gold are being taken out daily. So says the Argus.—Mr. Lippincott preached a Christmas sermon at Tumwater, last Sabbath afternoon.—Richard Nourse, a native of Newfoundland, was shot and instantly killed, by Moses Anderson, at Point Roberts, on the 29th ult.—We learn that on Wednesday last, while the stage belonging to the daily mail line was nearing Davis' Ferry, the horses took fright and ran into the woods, smashing the stage and seriously injuring the driver.—The Mountaineer is advocating the necessity of establishing a direct trade between the Dalles and San Francisco. Its plan is to have goods shipped to the Cascades direct, instead of via Portland or Vancouver—at a saving of \$15 per ton on freight.—Carr, the murderer of Cherry, was executed at Carson City, U. T., on Friday, Nov. 30th. He confessed his crime, and said that it was committed through intemperance.—From the Eugene City, Oregon, Herald we learn that between \$100 and \$200 have been subscribed at that place for the relief of the survivors of the Indian massacre.—We learn that a new steamer is to be built to run in the Yamhill trade, as far as McMinnville, Oregon, by Capt. Jas. D. Miller and others.—No doubt now exists of the total loss of the ship John Marshall, together with the lives of the officers and crew. So says the Register.

MARRIED:

At the residence of Mr. G. Ford, in Stellaecoom, by A. B. Babbeson, Esq., J. P., Mr. R. B. Holbrook, of Whidby's Island, to Miss Harriet P. Low, of Maine.

COAL! COAL! COAL!
S. N. DOTY,
HAVING purchased the celebrated Morrison Coal Claim on Bellingham Bay, invites capitalists and the friends of the trade, to come up and help dig them out. These mines have been prospectively, and the coal tested in San Francisco and found of superior quality. Seven thousand dollars is all that is required to make them pay a thousand dollars per month.

SAFES! SAFES!!

F. TILMAN,
90 BATTERY STREET,
SAN FRANCISCO.

SOLE Agent for Tilton & McFarland's celebrated Fire Proof and Burglar Proof SAFES. This safe is well known in the market for its unsurpassed fire-proof quality, having withstood in California, as well as in the East, the hottest fires known. We can refer to endless certificates from parties in our mining towns, where these Safes have been subjected to the most severe tests of its fire-proof qualities.

These Safes are secured by our Combination Lock. This Lock is in every respect the most secure one in use; it requires the key and combination to open the Safe. If the key should be abstracted from the owner, it would be perfectly useless without his knowing the combination, or mental key which the owner carries in his head.

To those who want a reliable Safe we offer the above cheaper than any other in the market. *A large assortment on hand and to arrive.
