Matrimonial.
MATRIMONIAL.—A young gentleman, whose personal appearance, fortune and position is a No. 1, wishes to unite himself to a lady with similar qualifications. The advertiser being sincere, will here describe himself, and although he is young in appearance he will admit himself to be "an old man" of fifty. The advertiser is of medium stature, neatly dressed, and is a "dry" drinker and an expressive, animated conversationalist; and he must here confess he is vain in stating he has the most snowy white teeth, (natural ones) hands, brow and skin as clear as a child's; his hair and whiskers are a deep brown, and he can assure you all that these latter beauties were given him by using, for two months, Lafont's West India Soap, Teeth Restorer for his yellow teeth, and Jones' Coral Hair Restorative on his Gray, Coarse hair, and by shaving and washing with Jones' Indian Soap. His coarse, wrinkled skin and hands have thus become white and clear. These beautiful articles can be had at reasonable rates at every drug store in California, Oregon and Washington Territory.

SAFES! SAFES!
E. TILMAN,
90 Battery Street, San Francisco.

SOLE AGENT for TILTON & McFARLAND'S celebrated Fire-Proof and Burglar Safes. This safe is well known to the market for its unexcelled fire-proof quality, having withstood in California, as well as in the East, the hottest fires known. We can refer to endless certificates from parties in our mining towns, where these Safes have been subject to the most severe tests of their fire-resistance. These Safes are secured by our
Combination Lock.
This Lock in every respect the most secure one known; it requires the key and combination to open the safe. If the key should be abstracted from the owner, it would be perfectly useless to the thief, who would not know the combination or mental key, which the owner carries in his head.
To those in want of a reliable safe, we offer the above cheaper than any other in the market.

DR. J. C. YOUNG,
LATE PROFESSOR OF THE UNIVERSITY OF PENN.
Can be found at his
Private Medical Office and Hospital,
No. 751 CLAY STREET,
Opposite the southwest corner of the Plaza.

WHERE HE CAN BE CONSULTED PRIVATELY, and with the utmost confidence, by the afflicted, at all hours daily, from 9 A. M. to 8 P. M.

DR. YOUNG addresses those who are suffering under the affliction of private diseases, whether arising from impure connection or the terrible vice of alcohol and favoring, arise from the fact that particular branch of the profession, he feels warranted in GUARANTEEING A CURE IN ALL CASES, whether of long standing or recently contracted, entirely removing the dregs of disease from the system, and making PERFECT and PERMANENT CURE.

He would call the attention of the afflicted to the fact of his long-standing and well-learned reputation, furnishing sufficient assurance of his skill and success.

Upwards of five thousand cases have been discharged cured in the year ending July 1st, 1890, showing a record surpassing any hospital in the United States.

CONSULTATION, by letter or otherwise, FREE.

CONSTITUTIONAL DEBILITY AND SEMINAL WEAKNESS.—Dr. Young addresses those who have injured themselves by private and improper indulgence in that secret and solitary habit which ruins the body and mind, uniting them either for business or society, with the view to impress upon their minds, before it is too late, the absolute necessity of skillful medical treatment, and by a direct course of reasoning to show that although we may not be cured by self-treatment, yet that it cannot be so reported or trifled with without loss, and when cure engendered cannot be regained by mere abstinence from folly, or urgent and strong display of courage.

It may not be generally understood by the great majority of sufferers from mental depression, that these dull and heavy sensations experienced by the head and about the chest, accompanied by feelings of anxiety and uneasiness, arise from a derangement of the important functions of the body. Such, however, is the fact, and in later years to such an extent has this been carried that our insane Asylums are becoming filled with patients who owe to this cause alone their suffering. The study and practice of years has shown conclusively that the weakness of the genital organs, as experienced by too many of our self-abused, which has been fathered upon giants in muscular force, the new-to-day are dwarfs in comparison.

The symptoms of the disease may be faint today, but so surely as you experience that weakness in the back and limbs, dimness of sight, nervousness, derangement of the digestive functions, and general debility, so surely will follow the harrowing mental pain, and the loss of control over the action of the joints, and the inability to contend with the day, which will only as the last breath comes struggling, gasping from the breast of the expiring victim. There is something noble in dying when the good fight has been fought, but what man can view a grave filled by one whose life dribbled out in pollution, without a feeling of disgust.

Do not hesitate, hoping that time will eradicate what only strength, and skill can cure at once, with the full assurance of a speedy and permanent cure. Let no sense of false shame deter you, but save yourself from the awful effects of this dread disorder, and regain the full strength of your manhood.

Mercury in no form enters into the Remedies adopted by Dr. Young.
Mercury has been named, not improperly, "the curse of Man," as, under the treacherous garb of a restorer, it bequeaths the most terrible disease. We do not see it at once, but hidden beneath the fair surface, it poisons the blood, destroys the nervous and muscular system, preventing the action of the joints, and rendering wretched, under the name of rheumatism, the life of the sufferer. "The remedy is worse than the disease," as many a poor, crippled, miserable, toothless wretch will say, while pointing to his decayed jaws and aching joints and body marked with purple or leaden colored sores which speak of his pains, and again at his insupportable and agonizing twitches, tells of wretched days and sleepless nights.

All affections arising from the use of mercury perfectly eradicated and health fully restored.

All diseases of a private nature arising from impure connection, such as Ulcers, Swelling of the Glands, Ulcers in the Throat, Secondary Syphilis, Catarrhs, Eruptions, Ulcerations, Tertian, Syphilitic, Syphilitic, Gonorrhoea, Venereal Syphilis, Affections of Gonorrhoea, Gleet, Stricture, False Passages, Inflammation of the Bladder, and Prostate Glands, Excoriations, Tumors, Pustules, etc., treated in the most scientific manner.

Cure always Guaranteed or no fee Required.
Dr. Young would state that he has been a professor of Obstetrics and Female diseases for the past fourteen years, and is fully qualified to administer in all cases, both medical and surgical, not in a superficial, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make. Therefore families can rely upon him as upon a father. All in affliction can find in him one who can feel and sympathize with, and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Come, all ye who are afflicted and in trouble, and you will be relieved and cured.

in California, and the only one now advertising who has received a regular medical education, which is requisite for the successful treatment of disease. Because of his unparalleled success, he has but a minute from time to time, into existence, his important, without character or education, who, by boasting he managed to deceive the unwary sufferer into the belief that they were respectable and scientific men. In so doing, he has scattered broadcast their nostrums among the honest and unsuspecting, to the destruction of health, and in some cases life itself. Beware of them as you would of the Uprate, for they are as destructive. Dr. Young's office is at 751 CLAY ST., opposite the southwest corner of the Plaza.

With regard to remuneration, (an indispensable preliminary between patient and prescriber, and which no fastidiousness or false delicacy should set aside.) Dr. Young begs respectfully to state to those wishing to consult him, that in ordinary instances the usual fee is expected as by other practitioners; but where patients seek to extract their ailments from his entire management, he takes this opportunity of expressing his readiness to name a specific consideration to conduct the case for a determinate period, or to a successful issue, whereby the invalid is at once apprised of the extent of the expense to be incurred, and the physician secured the punctual attendance of his patient, which the golden toll often takes beyond the second or third interview, and which arrangement Dr. Young will be happy to apportion according to the wishes of the patient, as may be agreed upon at the first interview.

TO CORRESPONDENTS.
Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Young on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacredly. Dr. Young takes this opportunity of observing that all letters are only opened and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, personal communication will be superseded, as instructions for diet, regimen, and the general treatment of the case itself, (including the remedies) will be forwarded without delay, and in such a manner as to convey no idea of the letter or parcel so transmitted.

Prospectus.
OF THE
NATIONAL REPUBLICAN.
WASHINGTON, D. C., July 1, 1891.

The undersigned commenced, in the month of December last, the publication, in this city, of a weekly newspaper, called the *National Republican*. It is printed on a large sheet, twenty-seven by forty-two inches, and is furnished at the low price of ten cents.

It will contain all the original matter of the daily *National Republican*, with the exception of local news not interesting to country subscribers. It will give full reports of the proceedings of Congress, and of the other departments of the National Government.

It will contain all the news of the day, foreign and domestic, markets, &c., &c., as well as an official correspondence from all parts of the country. The editorial department will receive special attention, and in all respects, the effort will be made to establish the character of the *National Republican* as a Family Newspaper.

Washington being now the central point of the current military operations, great attention will be paid to furnishing the readers of the *National Republican* with full, and especially with accurate, accounts of the progress of the war for the Union.

In politics, the paper will be Republican, sustaining the Administration of Mr. Lincoln, but disclaiming, however, any pretension to be the organ of the President.

There is no other Republican paper in the District of Columbia, or in the vicinity of it, and it is believed that recent events have opened to such a power an important sphere of useful effort. The time has come, when the actual administration of the Government upon Republican principles will explode the misrepresentations which have made those principles so distasteful to the South.

But it is not only here, and in this vicinity, that the projectors of the *National Republican* hope to make it useful. To the whole country they offer a journal which will furnish them with a national standpoint, and which will never be swayed from patriotic duty by any overpowering pressure of local interest.

Of all diseases, the great first cause Springs from neglect of Nature's laws.

Self-cure errors Debility, Strictures, Gleet, Gravel, Neuritis, Diseases of the Kidneys and Bladder, Rheumatic Rheumatism, Catarrhs in the Bladder, and other Diseases of the Lungs, Throat, Nose and Ears, Ulcers upon the body or Limbs, Cancer, Dropsy, Epileptic Fits, St. Vitus' Dance, and all other Diseases arising from a derangement of the Sexual Organs.

SUCH as Nervous Trembling, Loss of Memory, Loss of Power, General Weakness, Dimness of vision, with peculiar spots appearing before the eyes, loss of sight, wakefulness, dyspepsia, liver disease, eruption upon the face, pain in the back and head, female irregularities, and all improper discharges of both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians and resisted all their means of cure. The medicines prescribed are pleasant, without odor, entirely vegetable, causing no sickness, and free from mercury or balsam.

During fifteen years of practice, in Europe, the Atlantic States and California, I have rescued from the jaws of death many thousands, who, in the last stages of the above mentioned diseases, had been given up to die by their physicians, which warrants me in promising to the afflicted who may place themselves under my care, a perfect and speedy cure. Private diseases are the greatest enemies to health, as they are the first cause of Consumption, Scrofula, and many other diseases, and should be a terror to the human family. A permanent cure is scarcely ever effected, a majority of the cases falling into the hands of incompetent persons, who not only fail to cure the disease, but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid consumption.

But should the disease and the treatment not cause death speedily, and the victim marred, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in scrofula, tetter, ulcers, corruptions, and other affections of the skin, eyes, throat and lungs, entailing upon them a brief existence of suffering, and consigning them to an early grave.

Self-cure is another formidable enemy of health for nothing else in the great catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering, down to an untimely grave. It destroys the nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption, and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of self-cure that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices, my patients can be restored to robust, vigorous health.

Irregularities and all diseases of males and females treated on principles established by fifteen years of practice and sanctioned by thousands of the most remarkable cures. Medicines, with full directions, sent to any part of the State, Oregon, and Washington Territory, by patients communicating their symptoms by letter. Business correspondence strictly confidential.

THE FOLLOWING LETTER.
Which emphatically speaks for itself, was written by the Dean of the Faculty of the Philadelphia College of Medicine, to the editors of the *Pacific Medical and Surgical Journal*, San Francisco, for publication:
PHILADELPHIA, Jan. 17th 1859.

To the Editors of the *Pacific Medical and Surgical Journal*:
GENTLEMEN:—My attention has been called to an article in the December number of your Journal, in regard to the *ad eundem* degree granted by the Philadelphia College of Medicine to Dr. L. J. Czapkay. When the application for the degree was made to the Faculty, it was accompanied by Dr. Czapkay as a regular graduate M. D. of the University of Pesth, had served as surgeon in the Hungarian army, and was a regular practitioner of medicine. On the strength of these degrees was granted. The *ad eundem* degree, as its name implies, is conferred on graduates only, and gives us new privileges. Had there been the slightest suspicion of irregularity, the application would have been refused. By inserting this in your Journal you will do an act of justice to the College, and confer a favor on
Yours, very respectfully,
H. RAND,
Dean of the Faculty of the Philadelphia College of Medicine.

REMARKABLE INSTANCE OF MEDICAL RELIEF.
Below we publish the certificates of three of the sufferers from the pains of gonorrhoea, who, having recovered their former health, are impelled by gratitude, make known their cases and remedies, and their statements are authenticated by a Notary public. The demands of society imperiously command their publicity, and we commend their personal to the attention of all the afflicted:

THANKFULNESS IS THE INCENTIVE TO GRATITUDE.
CERTIFICATE.—The undersigned desirous of acquainting those who are unfortunate enough to be similarly afflicted, where a permanent relief of their sufferings may be obtained, feels it his duty to thus publicly express his most sincere gratitude to Dr. L. J. Czapkay for the permanent recovery of his health. Borne down by the distressing and uncontrollable passion in youth, I depressed in body and mind, unable to perform even the most trifling duty imposed on the daily avocations of life, I sought the advice of many physicians, but, alas! after a few weeks, and in several instances, months of their treatment, I found to my unutterable horror, that instead of relief, the symptoms became more alarming in their torture; and, being told by one that my disease was principally confined to the brain, medicines were prescribed, the consequence, I despaired of ever regaining my health, strength and energy; and as a last resort, with but a faint hope, called upon Dr. Czapkay, who after examining my case prescribed some medicine which almost instantly relieved me of the dull pain and dizziness in my head. Encouraged by this result, I resolved to place myself immediately under his care, and by a strict obedience to all his directions and advice, my head

became clear, my ideas collected, the constant pain in my back and groin, the weakness of my limbs, the nervous reaction of my body on the slightest alarm or excitement; the misanthropy and evil forebodings; the self distrust and want of confidence in others; the incapability to study and at times pleasurable dreams at night, followed by involuntary discharges, all disappeared; and in fact, in ten months after having consulted the doctor, I felt as if inspired by a new life—that life which but a short time ago, I contemplated to end by my own hand.

With a view to guard the unfortunate from falling into the hands of incompetent quacks, I deem it my duty to offer this testimony to the merit and skill of Dr. Czapkay, and recommend him to all who may stand in need of medical advice, being assured by my own experience, that once under his care, a radical and permanent cure will be effected.
B. F. FILLMORE,
State of California, county of San Francisco.—Subscribed and sworn to before me, this 17th day of April, A. D., 1856.
(Signed) JOHN MIDDLETON, [L. E.]
Notary Public.

CARD.—Prompted by an honest desire of my heart, I wish to lay before the public a case which deserves the highest commendation, not only as an act of medical skill, but of human sympathy. About two years ago, I suddenly, and from causes unknown to me, was seized with a fit of epilepsy, which, owing to my inability to meet the expenses consequent upon a thorough medical treatment, and the discouragement which I met with on attempting it, soon became such (as I was then led to believe) as to defy the skill of any physician. I was frequently while in pursuit of my calling, thrown down to the ground without the slightest warning, and thus rendered unable to the agonies, I yet deplored the miseries of my life, and soon learned to look upon those who would render assistance or shelter me from danger as enemies who sought to prolong the existence of my miseries. While in this state, and having previous to my affliction tasted the sweets of life, I once more was induced to attempt seeking the aid of a physician, and, by recommendation, called upon Dr. L. J. Czapkay. I told him my circumstances, and my inability to reward him for his services, regardless of which, however, he at once undertook my case, and with the blessing of God I was once more restored to perfect health. Unable to reward him for the boon which I enjoy at present, and yet conscious of my indebtedness, I consider it due to myself and to all afflicted to make the case public, in order that those in need of medical advice may find a physician in whom every confidence can be placed.

[L. E.] MEYER YABLONSKY,
State of California, County of San Francisco, ss.—Subscribed and sworn to before me this 1st day of August, A. D., 1856.
[L. E.] GILBERT A. GRANT,
Notary Public.

Remarkable Cure of Consumption!
The almost miraculous cure that has been effected in my case, prompts me to impart to those of my fellow creatures who may be suffering from like affliction, the source of relief, with a short description of my case. Several years ago, my health began to fail. I was attacked by general weakness and debility, which reduced me to a mere shadow of my former self. At this stage I sought medical assistance, and expended large amounts, but without the least beneficial result. That fell destroyer Consumption, had already seized upon my vitals. I was daily drawing closer to the tomb; my physicians held out no hope of recovery; my strength had wasted, and I was in a state of almost utter prostration. I was informed by my physicians that they could do nothing for me except to succumb to my fate. At this juncture, when most fortunately, I applied to Dr. L. J. Czapkay, and am now a well and perfectly sound man. It is difficult for me to express the emotions of deepest gratitude I experience when realizing the immeasurable service I have received at the hands of Dr. Czapkay and I feel rejoiced that it is at least in my power to tender this feeble recognition of his great skill and capacity. To the afflicted I would say, do not despair, for whatever may be the nature of your case, I am confident that you will find relief by applying to Dr. L. J. Czapkay.
