

# Accept None of the Pretended Substitutes FOR ROYAL Baking Powder

BECAUSE inferior and cheaper made baking preparations are sold at wholesale at a price so much lower than ROYAL, some grocers are urging consumers to buy them in place of the ROYAL at the same retail price.

If you desire to try any of the pretended substitutes for ROYAL BAKING POWDER bear in mind that they are all made from cheaper and inferior ingredients, and are not so great in leavening strength nor of equal money value. Pay the price of the ROYAL BAKING POWDER for the ROYAL only.

It is still more important, however, that ROYAL BAKING POWDER is purer and more wholesome and makes better, finer, and more healthful food than any other baking powder or preparation.

The stary skies are never more attractive to professional or amateur observers than at the present time of year.

J. C. Horr received a dispatch, a few days ago, announcing the death of his brother, R. A. Horr, at Wellington, Ohio.

Nothing short of a visit to the Capital grounds will reveal the magnitude of the preparatory work now going on there.

Fred. Northrup donned his star of office as Chief Tuesday. Let malefactors beware. "A new broom sweeps clean."

City Clerk Robt. Graham has filed his bond in the sum of \$1,000. Dr. Riley and D. S. B. Henry are his sureties.

The old-time custom of making new year calls was not a prominent feature in Olympia social life last Tuesday.

The hour for distribution of mails Sundays at the Postoffice, has been changed from between 4 and 5 to 3:30 and 4:30 p. m.

Mrs. Joseph Longmire, of Eastside, who has been quite ill of typhoid pneumonia for two weeks past, is recovering slowly.

W. E. Greenway and Miss Edith I. Morsback, were united in marriage, at the home of the bride's parents, near Bucoda, last Sunday.

Five children of Mr. John Abshire, who reside in the southern part of the city, near the water works, are afflicted with scarlet fever.

Santa Claus has gone back to his arctic winter quarters to record in his red ledger the names of the good children he has made happy.

No actress on the boards enjoys more genuine admirers than Katie Putnam. She is always greeted with good wishes wherever she goes.

Dr. Newell reports the birth of a son, each, to Mrs. Lane, Bigelow's ranch, Mrs. McPherson, Ayer's Hill, and Mrs. Arnold, Mud Bay. All recently.

The annual meeting of the Washington Equine Suffrage Association will be held Friday, Jan. 11, at 7:30 p. m., in Horticultural Hall, in the court house basement.

Edward Harrison, an old veteran, living in the southeastern boundary of the city, is exceedingly ill of pulmonary disease, with but little prospect of improvement.

Capt. Green, who has had charge of the dredger work in Portland, has succeeded Capt. Bentin hitherto in charge of the dredger Anaconda, now at work in our harbor.

The sight of barefooted Indian women threading the streets and alleys of Olympia with loads of clams on their backs rather loudly smacks of other days best known to old residents.

Some estimate of the weight of the snow on your roof may be formed from the deposit yesterday morning on McBratney's hay scales, on Columbia street. The platform is 8 feet wide and 21 feet long, and the snow on it weighed 1,100 pounds.

The first issue of the *Olympian* as an evening paper, appeared Tuesday evening. It is materially improved in appearance, and now gives much of the telegraphic news that appears in the *Tacoma Ledger*. The price of monthly subscription has been reduced to 60 cents.

Eugene Dye was before Justice R. C. Bennett, on complaint of J. C. Bennett, who has charge of the Rod and Gun Club's grounds at Nisqually, for trespassing and hunting on their grounds contrary to law. He was fined \$10 and in default of payment went to jail.

The Daughters of Veterans have elected the following officers for the ensuing year: Lulu Van Eaton Lang, President; Aldana Gilson, Vice President; Ida Hannah, L. Melton and Clara Giles, Trustees; Minnie Forbes and Marguerite Cotter, Delegates to Division Campment.

Robt. Kettle, an employe in Moeber & McDonald's logging camp, had one of his eyes destroyed by a splinter from a steel wedge, last Wednesday. The missile passed directly through the ball of the right eye and lodged at the base of the brain. Dr. Riley removed the injured member and his patient is doing well.

A parallel to the saying "A man does not know what a rascal he is till he runs for office," is found in the administration of some dead men's estates. Since the sudden death of Mr. J. H. The "good broken" record we were making was broken Wednesday when a drizzle of rain and a flurry of snow gave evidence that the Winter king had not entirely abdicated his throne. Since then we have had our usual winter weather, but it is by no means the season which "tries men's souls" that they are having in the East.

The fill of Long bridge is 862 feet in length, and the west side fill 250 feet. A waterway of 300 feet has been left for the west channel just east of the depot. The basin excavated is 300 by 800 feet, and the channel will be widened to 200 feet, or 75 feet more than the one cut last year.

Tin Snie, a former resident of Olympia, now a prosperous merchant of Seattle, takes quite a philosophical view of the war which is now declaiming his countrymen. He says it takes ten Chinamen to kill one "Jap" and the uneven fight can go on for a hundred years and then the Chinamen will far outnumber their enemies.

A snow storm of unparalleled severity in this country, began Wednesday night, and by daylight the next morning a mantle of icy whiteness to the depth of 15 inches covered every exposed object. The storm turned the next day into rain, which removed much of the weight on the roofs by thaw, but not enough to save the capitol sheds which fell early in the afternoon. The snow became heavy from moisture. The street car line was blocked yesterday, but in the afternoon a snow plow was rigged up, and as soon as the snow became open it for business. Walking on many of the sidewalks is still difficult and dangerous, some of the property owners and their tenants disputing their rights in the matter.

### Message of the Mayor Report of the Health Officer.

The first meeting of the new Council was held Wednesday night.

The first proposition submitted was one involving considerable responsibility. It was to incur an expense of about \$12,000 for bulkheading the water-front north of Third street, to enable property owners to fill in their lots and practically extend First and Second streets to Percival's wharf. The petition is signed by N. H. Owings who offers to pay \$50 after the work is completed. F. W. Brown, with an offer of \$300 on the same condition, Mrs. Percival, M. E. Reed, P. C. Hall, \$100 each, L. A. Robinson \$50 and A. A. Hunter \$10. It is expected that the full amount to reimburse the city will be paid.

Messrs. Owings and Percival were present and urged the expenditure. Councilman Lane said he would not stand in the light of any improvement provided it did not do the city any real benefit. But he was unalterably opposed to doing anything which involved the expenditure of even \$1, until the financial condition of the city was fully defined. He said he first wanted to know the exact status of the city's affairs and in justice to his constituents, the public generally and to himself, he would not be carrying the city or doing anything until a financial policy is mapped out.

Before adjournment the matter was referred to a committee composed of Messrs. Scofield and Meigs to report.

An ordinance, presented by Councilman McCausland, granting to the Olympia Light & Power company the privilege of extending its tracks to the Northern Pacific and Seventh streets to the franchise committee. The ordinance was accompanied by a resolution granting permission to construct a spur from the railway line at or near the corner of Meigs and Seventh streets in order to extend the street railway line to the depot. The resolution was adopted. Messrs. Meigs and Scofield voted in favor of the ordinance.

The ordinance grants the right to extend the electric railway tracks to the depot there to connect with the tracks of the Northern Pacific railroad and to take therefrom all the power over the Light & Power company's tracks, material to be used in the construction of the capital.

The Mayor submitted his annual message, in which, after a review of the city's service, he says:

"Improvements carried out during the year have been limited to repairs on the streets, beautifying the city and improving the West Fourth street bridge. This has been accomplished by the assistance of Captain Symons, who kindly arranged so that material dredged from the harbor basin was placed within retaining walls erected by your direction. The expenditure of the present appropriation will greatly improve our harbor and facilitate commerce on the Upper Sound."

"I learn from the prints that a further needed appropriation has been recommended by the secretary of war, and in consequence of this I would suggest the formation of a special committee to procure the passage of a memorial for transmission to our delegation in congress, for the special appropriation, or a change of the appropriation, so that a short channel can be made on the line of the Des Chutes waterway above Fourth street bridge, and that a part, at least, can be devoted to the building of a lock in that waterway, and secure the necessary permission for the closing of Capt. Symons' dam on the waterway. This would give the city the advantage of a permanent roadway to the west side, the benefits of which will be more highly appreciated than any other they are today. A lock would dam up the Des Chutes and give us a fresh water basin which, when dredged, would be a desirable site for commercial enterprise, in addition to greatly beautifying and improving the capitol surroundings."

"Owing to the permanent advantages derived from the services of our delegation at Washington, in bringing about the appropriations received, and the interest of Captain Symons, I would recommend the passage and transmission of resolutions, expressing our gratifications and appreciation of their efforts in this regard."

"On the financial question the Mayor thought that all suggestions should be summed up in one word—economy. 'Yes,' he continued, 'economy of the most rigid type will not bring the relief needed unless we are able to collect what is due the city from property holders. Communications from parties holding special warrants have been received making demand for payment, and the replies have been that no funds are on hand for the payment of these demands. This is unacceptably, and I am convinced that there is no business course to pursue but for your honorable body to do what you can, under existing laws and circumstances, to procure the money. Unnecessary delay by you may involve the city in a liability which should be met by the property holders. It should be a manifest injustice to those who have no improvements, or, having them, have paid for them as demanded."

"I further recommend that the committee on way and means proceed to outline the city's financial policy for the coming fiscal year. Let it be on the line of economy; of the kind that no person will have any room to complain at the close of the year and not that economy which retrenches on the one hand and increases double fold on the other. Let the work commence at once. The future is not the time to do so."

"To lighten and better distribute the city's water and light expenses, I would, if the law will permit, create a water and light board, to whom the payment of light and water expense is made from the general fund, and collected from all the property of the city. Consequently there is a general demand for a wider distribution of street lights and hydrants for fire protection, making the number of lamps and hydrants to the number of both so large that the expense of maintaining them is too great for the city. By restricting the use of lamps and hydrants to the more central part of the city the number and expense can be reduced to an amount which the city can afford to pay."

"The Superior Judge.—Of the several names presented for Superior Judge the popular preference seems to be quite strong for Mr. Root, who has so well served the county's interests as public prosecutor. He is one of the people, and is known to embrace the qualifications of the Jacksonian test of honesty and capability. If there is to be a selection made by the Governor, we feel that we cannot do better than to let the mantle fall upon the shoulders of our townsman Mr. Root.

### MISLEADING GUESSES.

THE CARLISE BILL WILL HAVE A FAIR CHANCE.

It will probably be the subject of a caucus—Spain Discriminates American Flour—A Reporter's List on a Kentucky Congressman.

From Our Regular Correspondent.

WASHINGTON, D. C., Dec. 28, 1894.

Although there have not been at the outside more than 75 members of Congress in Washington at any one time during the present week, it has not prevented those industrious gentlemen who make a business of manufacturing Washington news for sensational papers sending out detailed programmes—each entirely different from the other—of what disposition Congress will make of the Carlisle reform bill. As that distinguished philosopher, Josh Billings, used to say, "it is better to be ignorant than to know so darn much that ain't so." While President Cleveland and Secretary Carlisle, as well as Chairman Springer, who is in charge of the currency bill, hope and believe that the bill will pass the House in some shape, neither of them would attempt to positively say that the House would or would not pass it, although these irresponsible scribblers do so.

As a matter of fact, no man living is in a position to state with a reasonable degree of certainty what will be the result of the bill, and all attempts to do so are but guesses. It was well understood by the Democrats of the House when the adjournment for the holidays took place that the bill would be devoted to a study, and how the bill might be improved, and that no conclusion was to be reached until they came together again. It is believed, but even that is not certain, that the bill will be definitely determined upon, that the fate of the bill will be settled at a Democratic caucus to be held as soon as Congress meets again. At any rate it is believed that the bill will be reported to the House by the Democrats, and not the sensation-mongers, will decide the matter.

If Spain persists in making the duty on flour payable in gold, the Carlisle bill will be a very important one. It will be a 75 cents a barrel less than the amount charged upon flour shipped from the United States, she may make up some fine morning and find herself reading the editorial columns of the *Spokane Chronicle*, which will be a very interesting sight.

A carload of Adams county's best wheat was shipped from Riverton last week to Western Nebraska for the benefit of the drought sufferers.

The Spokane iron works are now thought to have been of undoubted integrity. There is no clue, however, to the perpetrators.

Steps have been taken by the government to spend something over \$100,000 in beautifying the grounds around the United States custom house building in Port Townsend.

A Spokane dispatch to a Portland paper attributes the closing of two banks of that city after the November election to the fact of their having some \$200,000 of the city's money on deposit, which they would not be able to pay on the demand of the new Populist county treasurer.

The experts who are at work on the penitentiary books have not concluded their labors, so it is impossible to state definitely the amount of the shortage of the late warden. However, the United States will not be below \$8,000, and it may reach the sum of \$10,000.

An epidemic disease among children at Gibbon, on the Umatilla river, has for its early symptom a lethargic condition, followed by a glandular inflammation of the neck, which finally reaches the ear and occasions a discharge of pus, after which the child is relieved. No fatalities have been reported.

Late arrivals at Wenatchee from the Squaw-creek country report the sale of the Gray Eagle and Four Ace mines to a Colorado syndicate, consideration, \$40,000. Billy Gardner, a Wenatchee citizen, interested in the Methow gold mines, has bonded a mine situated north from Virginia City for \$10,000 to San Francisco men.

Sportsmen returning from the ranges in the northern part of Whitman county, report that deer are very scarce, and that their trips are not accompanied with any success. Last season was not only a very severe winter on the deer, but they were driven down into the mountains, and many thousands killed. The Indians last year made the greatest onslaught upon the native herds of the forests.

J. T. George, Glenden, Wn., chronic rheumatism.

J. S. Jennings, Sellwood, Or., eczema or skin disease.

John M. Simmons, Oakville, Wn., catarrh, bronchitis and nervous debility.

Stephen Wylie, Nasc, Wn., liver complaint and aggravated case of piles.

T. S. Hubbard, 1515 Pacific avenue, Tacoma, sciatic rheumatism, paralyzed leg, kidney trouble and inflammation of the bladder.

Dr. Darrin is located at Hotel Chilberg, Tacoma, and will treat the poor free (medicines excepted) from 10 to 11 daily hours for all, 10 a. m. to 8 p. m. Sundays, 10 to 2. Consultation free. All curable chronic, acute and private diseases in men or women successfully treated. In most cases only one visit required at the doctor's office. Question blanks and circulars sent free. Calls promptly attended.

### A YOUNG GIRL'S FORTUNE.

Nothing appeals so strongly to a mother's affection as her daughter's good looks and good character. Following is an instance: "Our daughter, Miss Mary E. Perry, was born on the 15th of August, 1875, and was afflicted with nervousness, and had lost the entire use of her right arm. She was in such a condition that we had to keep her in bed for some time. We had her treated by several physicians, but she received no benefit. We then had her treated by Dr. Darrin's Electric treatment, and she was cured in a few days. She is now a healthy and happy girl, and is the pride of her parents. We are indebted to Dr. Darrin for the cure of our daughter's affliction. We have no other words to say but to praise the merits of Dr. Darrin's Electric treatment. It is a most wonderful and powerful remedy for all kinds of nervousness, and for all kinds of chronic and acute diseases. It is a most valuable and reliable remedy, and is well worth the price. It is sold by all druggists. For sale by all druggists.
