An Eminent Practitioner.

Dr. A. C. Stoddard's lecture to men, in Columbia hall, Tuesday evening, was replete with sensible advice to those who by violation of nature's laws are suffering the penalty which inevitably flows from cause to effect. His advice was to avoid disease by leading pure lives and to promote health by observance of the well known rules of physical and mental hygiene. When ill, however, the best of medical aid should be employed. He deprecated self-cure, whereby infinite injury may be done, the delicate parts of the body by use of nostrums which may, or may not, have any adaptability for the disease. He did not believe in cure-all remedies, or cure-all doctors. The time of the regular practitioner is generally so taken up in routine duties that he has but little opportunity for perfecting himself in the specialties, which have of late years attracted the attention of the highest medical research. It was here the doctor claimed, that was due the success of the institute he represents, Drs. Liebig & Co., of California, whose training has been in a line which gives them pre-eminence in certain diseases. The doctor will visit Olympia again sometime near the holiday season, and he then hopes to renew the acquaintance made, and to be able to convince the most skeptical of the soundness of his system of practice.

LOSS OF VOICE

After Acute Bronchitis CURED BY USING

AYER'S Cherry Pectoral

A PREACHER'S EXPERIENCE.

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis. I put myself under medical treatment, and at the end of two months was no better. I found it very difficult to preach, and concluded to try Ayer's Cherry Pectoral.

The first bottle gave me great relief; the second, which I am now taking, has cured me almost entirely of all unpleasant symptoms, and I feel sure that one or two bottles more will effect a permanent cure. To all ministers suffering from throat troubles, I recommend Ayer's Cherry Pectoral."—E. M. BRAWLEY, D. D., Dist. Secretary, Am. Bapt. Publication Society, Petersburg, Va.

None But Ayer's at the World's Fair.

Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purified allowed an exhibit at the World's Fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the World's Fair authorities is in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It is here on its merits."

You may eat cheap food and not be seriously hurt by it; but you cannot take cheap medicines without positive injury. If you use any substitute for Ayer's Sarsaparilla, you do so at the peril of your health, perhaps of your life. Insist on having Ayer's, and no other.
