The Standard's chief complaint for a programme of a recent literary and musical entertainment is that it was short. The STANDARD would cheerfully welcome the day when reporters may justly criticize all public performances and never consider it a duty to bestow praise without discrimination or reason.

I wish to say, for the benefit of the public, that I suffered with a terrible neuralgia in my head, also nervous debility for months, that resisted all treatment until going to Dr. Darrin, (whose office is at 921 Pacific avenue, Tacoma, Wn.) who cured me in two weeks. I am now perfectly well of the terrible complaint, and I advise others to go where they can be cured also.

A COMMON SENSE FILTER.—During these times of epidemic fever, the greatest care should be taken for lessening the chances of acquiring the germs of disease which is taken into the human system. Probably the most direct channel for such poison is by what we drink, and it has been known for months past that our city water is subject at times to pollution from organic substances that invite, if they do not cause, disease. What greater boon can, therefore, be offered than a reliable filter at a moderate cost? The Monitor filter seems to meet all requirements, and L. E. Freitag has them for sale at Merfield's hardware store. He guarantees their utility by allowing a trial before the article is paid for. Call and see them.

OUR WEATHER.—One of those repositories of wisdom, a medical man, gives rather an unwelcome forecast of December, basing its prediction of the meteorological conditions largely upon two full moons which will be accorded this month, the first on the 21st and the second on the 31st. The prophet says: "Reactionary disturbances will be in progress at the opening of December, and will end in a cold wave on or about the 24th to 25th." This has been fulfilled, so far as variations in our mild and equable climate can obey the general law. "From 6th to the 9th is a regular storm period," as the prolonged rainfall has amply shown. From the 16th to the 20th will be "a period of abnormal disturbance" and will bring many severe storms on land and sea. Blizzards in many western and northern sections are probable, and a sweeping cold wave throughout the country will come in behind the storms. Cold weather is predicted for Christmas and warmer at the close of the month.

Sturgeon-fishing is now taking the place of salmon fishing in Gray's Harbor, and there is every prospect of a large number of men engaging in the work. Heretofore the fishermen have not been inclined to pay much attention to sturgeon-fishing, owing to the scarcity of the fish, but now there is a steady demand, and good prices paid for this fish, and fair to middling wages can be made in the fishing.

UNTOLD MISERY FROM RHEUMATISM

C. H. King, Water Valley, Miss., cured by Ayer's Sarsaparilla

"For five years, I suffered untold misery from muscular rheumatism. I tried every known remedy, consulted the best physicians, visited Hot Springs, Ark., three times, spending \$200 there, besides doctor's bills; but could obtain only temporary relief. My flesh was wasted away so that I weighed only ninety-three pounds, my left arm and leg were drawn out of shape, the muscles

being twisted up in knots. I was unable to dress myself, except with assistance, and could only hold a spoon by resting it on the table. I had no appetite, and was assured, by the doctors, that I could not live. The pains at times were so bad that I could not rest, and I was only able to get up after trying everything, and suffering the most awful tortures. I began to take Ayer's Sarsaparilla. Inside of two months, I was able to walk without a cane. In three months, my limbs began to stretch, and in the course of a year, I was cured. My weight has increased to 165 pounds, and I am now able to do my full day's work as a railroad blacksmith."

A careful and conservative estimate, printed in the Yakima Republic, fixes the amount of butter used daily in the State of Washington at 50,000 pounds, and for the week, 350,000 pounds. The latter paid little attention to him, and Dunning left, but when craft finished and entered the main part of the saloon he was again insulted by Dunning. Craft said "I will give you \$1,000 if you can lick me," at which remark Dunning pulled his revolver and shot Craft in the right temple, inflicting a wound which proved fatal. Both men were under the influence of liquor.
