"Not only are the farmers beginning to appreciate the truth that protection robs them and their families...

"The present population of the world is about 1,400,000,000, and only 400,000,000 use machinery at all...

universal, and it is aggravated by the stories of personal profit in connection with it—Philadelphia Press (Rep.).

The peculiar influence which the magnets of the Sugar Trust have exerted in the framing of the new sugar schedule has already created suspicions as to the integrity of the framers of the bill...

Revising the Sugar Schedule.

This cartoon is from the New York Press, one of the most partisan of Republican newspapers, which always advocates protection to any and every industry...

Who Pays the Tax? The Republican claim that "the foreigner pays the tax" is amply proved by the following letter, which will appear to the people of Nebraska and Iowa, as it interests them particularly:

OMAHA, April 10. The Albion Milling Company, Albion, Neb.: GENTLEMEN: Answering your inquiry of the 7th inst. The explanation of the recent marked advance in the price of burling bags is in the prospective changes in the tariff. Under the Wilson bill they are on the free list, but the Dingley bill provides for a duty which would amount to something over 1 cent per bag on the 68 inch eight ounce burling. The price made you on recent invoices is the lowest which we can offer on the present market. Yours truly, BENJAMIN OAKMAN, Manager.

The consumers of burling bags who live in this section of the country need not imagine that the increased price of bags concerns them. The foreigner has to pay it.

Congressman "Champ" Clark, in his speech on the Dingley tariff bill, said "the passage of the bill will force every merchant in the land to make a tariff for revenue only speech every time he sells a bill of goods across the counters."

"Wages must go down," says Senator Elkins in a recent interview published in the Cincinnati Enquirer. "Wage earners," continued the senator, "do not wish to see it or believe it, but it is so."

"The protective system has debauched public men and corrupted public life. Give any body of men, however pure, the power to take \$100,000,000 from the pockets of a few men through an act of legislation, and you have created a corrupting power which will destroy the virtue and the patriotism of that body of men."

"It is as effective as white labor and does not combine and conspire, and the negro spends all he makes, while the Italians and Poles send every cent out of the country."

The senator has just as decided ideas on the tariff question. He is firmly convinced that protective duties, especially those on coal, should go up. Tariff up, wages down. That is what happened under the McKinley bill and is what will happen, and in fact is happening under the Dingley bill. It is all done in the interest of labor.

Sugar Trust Profits Cleared. The trusts have a cinch on Dingley bill profits. Of course they will make many times more if the bill becomes law in anything like its present shape, but they are already engaged in taking part of their profits.

Sugar has risen considerably in anticipation of greatly increased duties, and merchants all over the country are laying in stores because still higher prices are expected. The Sugar Trust is consequently busy and rolling up profits. In April it imported 757,709,527 pounds of raw sugar, valued at \$14,747,139. An extra profit of one-half cent per pound on this amount—which is already realized or guaranteed—means nearly \$4,000,000 to the trust.

If the bill is two months longer in its passage, the trust will surely pocket \$10,000,000 extra profits before the bill becomes law. Who says protection is not a good thing? And why shouldn't the Senator Aldrich push it along and in turn get his street railway syndicates pushed along by the Sugar Trust? Isn't this reciprocity? Wouldn't Aldrich be an ingrate if he should desert his friends and backers when he has an opportunity to help them?

Miss Columbia's Overgrown Infant.

"The mad riot of protection will soon be over. The evidences of the revolution which shall destroy it are upon every hand. Its growth has been an evidence of what self interest and audacity and offhandness can accomplish as against the people not united by any bonds save those of the public welfare."

Is the country to be afflicted with a second sugar scandal? Are the "senators from Havemeyer" ex-officio members of the finance committee, and are they to be permitted to dictate the important sugar schedule?—Chicago Evening Post (Ind. Rep.).

The Senate committee's bill, whether designed to do so or not, will give the trust a great advantage should it become law. For that reason the country is bitterly opposed to the sugar schedule, and if the senate will heed the voice of the people that schedule will not be embraced in the new tariff.—Indianapolis Journal (Rep.).

The storm over the sugar schedule is steadily increasing. All the examinations which have been made since its report, instead of clearing it up, only make it look the blacker. It has apparently been made of a very complicated character to baffle analysis and to disguise a job, but, intricate as it is, it does not conceal the fact that it embraces a very large differential for the benefit of the trust. This conviction is

I believe in protecting infant industries, but when the infants get to be six feet high and grow whiskers, and when they threaten to kick the end out of the cradle if they don't get more papp, I think it's about time to take the bottle away from them.—Colonel R. G. Ingersoll (Rep.).

To prevent pale and delicate children from lapsing into chronic invalids later in life, they should take Ayer's Sarsaparilla together with plenty of wholesome food and outdoor exercise. What they need to build up the system is good red blood.

To prevent pale and delicate children from lapsing into chronic invalids later in life, they should take Ayer's Sarsaparilla together with plenty of wholesome food and outdoor exercise. What they need to build up the system is good red blood.

Thousands of men in every walk of life all over the world are playing a desperate game with death for an opponent. They are playing with an opponent who has every advantage, and the outcome of the game is as certain as death.

Dr. Pierce's Golden Medical Discovery is an unfailing cure for all disorders of the digestion, and the deadly maladies that follow in their train. It is the great blood-maker.

A clear complexion. Any one can have it who keeps the blood pure. Dr. Pierce's Pleasant Pellets cure constipation. One is a gentle laxative, and two a mild cathartic. Suggests sell them.

A Sharsburg man who had been drinking too much liquor for his own good was induced to sign the pledge the other day. His wife was delighted. She took the document and said: "You must let me have it. I will keep it for you."

So the paper was confided to her custody. On the next day the man was drinking as freely as before. "How is this?" asked a friend. "You signed the pledge yesterday, and now you are grizzling whiskey again."

"It's all right," replied the pledge-signer in unsteady tones. "I don't have to keep that pledge. My wife says she'll keep it for me. That's the kind of a wife to have, old fellow. Let's take a drink!"

Few medicines have held their ground so successfully as Ayer's Cherry Pectoral. During the past fifty years, it has been the most popular of all cough-cures and the demand for it today is greater than ever before. Prompt to act and sure to cure.
