

A Brief Summary of News Gathered from All Parts of the State.

Five men from Missouri were in Elma one night last week, looking for homes.

Extensive veins of coal are reported to be found in the hills near Elma.

Fishmen on Puget sound are beginning to set traps for the first run of salmon.

Fully half the meat consumed in Cielahus county is shipped in from the outside.

The salmon catch in the waters about Blaine has been unusually heavy for some weeks past.

Building in Seattle is about twice as lively as it was a year ago, says the Post-Intelligencer.

Ex-Congressman Doolittle, of Tacoma, is reported seriously ill at a hospital in Washington.

The secret societies of Aberdeen have taken up the subject of building a sewer system for that town.

Fairhaven, Wash., is looking forward to a new mammoth lumber mill, to be erected by eastern capitalists.

Several cases of diphtheria being reported, the public schools of Port Angeles have been closed for two weeks.

The Weyerhaeuser syndicate is actively at work securing timber in the valley of the Nooksack, Skagit county.

Retail grocers of Spokane propose the formation of a boycott against jobbers who sell to merchants that cut rates.

Pomeroy's City Council has passed an ordinance that no gate opening on a sidewalk in that city shall swing outward.

W. B. Thomas has sold his farm of 80 acres, on Mill Creek, to Jacob Kibbler for \$31,200, says the Walla Walla Union.

Five gun carriages have just been added to the defense of Point Wilson, and large shipments of heavy ordnance are to follow.

The new building at the Fort Steilacoom insane asylum is nearly completed. It is over 160 feet long, three stories and basement.

Washington Independent: Government ownership of transportation lines is coming as rapidly as abolition came after Fremont's defeat in 1856.

The Democratic State Central Committee will meet at Spokane April 13 to fix the time and place for holding the State Convention, to elect delegates to the National convention.

Clark county fruit growers have organized for the purpose of grading and packing the entire dried prune product of the county. The exchange will also establish a minimum price for prunes.

Frank Chord, a clerk in a store at Deep Creek, was sandbagged by robbers, but fought them off until help arrived, when they fled, without getting any plunder. He was knocked down four times, but each time attacked the robbers.

It took \$638 in revenue stamps for the sheriff's deed transferring the property of the Tacoma Land and Improvement Company under the sale made by the foreclosure of the Provident Life & Trust Company, February 18 and 20, 1899.

These Fisher was arrested in Seattle Tuesday by Sheriff Marsh of Vancouver, Wash., on a warrant charging her with perjury. She is accused of swearing to a false affidavit to the effect that Vivian Nichols and Jessie Cawson, an eloping couple from Portland, who were married in Vancouver, were of legal age. It is claimed the girl was under age.

John Crozza, who has spent the greater portion of the last two years in the Pierce county jail, under a 10-year sentence for manslaughter, has been granted a new trial by the Supreme Court. A Tacoma paper says that as a matter of fact, it is extremely doubtful if he is given another trial at all, and it is more than probable that he will, when all of the facts have been considered, be allowed to go free.

While Tacoma was making such strenuous efforts to quarantine Centralia, sending two of her doctors to the little hamlet to ascertain if the eruptive disease prevalent was smallpox, she had herself four well-developed cases, two of which were at the Star hotel, on Pacific Avenue, about which nothing was said, nor of the fact that 22 cases existed, in a mild form, at the Sheltering Arms, a founding hospital. Here again the selfish impulse prompted a community to conceal a menace to life for pecuniary benefit.

As an instance of endurance and pluck the following will certainly pass: While working with his team in the timber near Farmington last week, M. Parkins had both bones of his right leg broken a little below the knee. A chain broke, the log flying back against his leg, the blow being so heavy as to drive one of the bones through the flesh. Mr. Parkins was alone at the time, the nearest house being his own, more than a half a mile away. He managed to crawl to and unhitch his team, climb on one of the horses and ride home.

And now the Western Union Telegraph Co. has been sued for a mistake made in transmission of a message. Sidney Norman, of Spokane, alleging that he lost \$625 by the substitution of the figures "44" in place of "24,"

Assets, over . . . . . \$240,000,000 Surplus, over . . . . . 29,000,000

The oldest in the United States. The richest in the world. It is liberal in its terms, economical as to cost, and protective in its scope.

Why Should a man Insure in the Mutual Life?

Because it provides for him in old age. Because it protects him against poverty. Because it protects his other investments. Because it provides for his family in case of death. Because it will help his credit in the business world. Because it is a duty to provide for his wife and family. Because successful business men carry large amounts of insurance. Because it is a safe thing to do to provide for his family. Because it is a source of great satisfaction to a man to own a Mutual Life Insurance policy. Because it furnishes immediate relief, and keeps the wolf from the door in case of death. Because cash invested in The Mutual Life Insurance Company is cash invested that will return again with compound interest. Because it is a great consolation to a man when taking the last farewell to his family to be able to say: "I am glad that my insurance policy will keep you from want."

in the purchase of some mining stock. If this suit is decided as was that against the Sunset Telephone Co., a few days ago, when a judgement for several hundred dollars was accorded for delay in delivery of a message which involved pecuniary loss, it may lead to more care in transmission and promptness in delivery of messages.

United States Land Commissioner Binger Herman has decided in favor of the contention of Robert Bridges, State Land Commissioner, and against the Register and Receiver of the United States Land Office at Vancouver, in regard to the selections of public lands for public building and school uses, in accordance with the terms of the act admitting Washington as a State. In the list of lands subject to entry in the Vancouver district was a lot of land upon which homestead entry had been made, and the land office therefore refused to recognize the selections, either in whole or in part. Much of the land upon which homestead entry had been made the State board desired to contest, on the ground that the filings were not bona fide. The Commissioner directs the Register and Receiver to approve the State's selections, other than the land covered by the homestead filings, and as to that the State may contest as may any other party.

Do you remember how you felt in the mornings when you were a boy? How good it was to begin a new day? How hungry you came to table? How tired you went to bed? How soundly you slept! Don't you find yourself saying sometimes, how I wish I could get up like that boy, eager for the day and feeling fit for it? And then don't you turn away with a sigh as if the wish were impossible of fulfillment, and start on the new day's journey tired at the outset?

It's not impossible to get back that glad boyish feeling again. It only means getting back health, put your stomach in order and see how soon your sleep will be dreamless, your rest sound, your appetite hearty and your work a pleasure. The best remedy for all ailments of the stomach and nutritive organs is Dr. Pierce's Golden Medical Discovery. Try it and join the great army of sick people made well by its use. Nothing is "just as good" if you go for "Discovery" get "Discovery." "The praise I would like to give 'Golden Medical Discovery' I cannot utter in words or describe with pen," writes James B. Ambrose, Esq., of 1204 1/2 Mill St., Huntington, Pa. "I was taken down with what my physician said was indigestion. I doctored with the best until I was almost dead. I bought a bottle and you see me a question blank to fill out and I did so and then you advised me to use Dr. Pierce's Golden Medical Discovery. I took three bottles and I felt so good that I stopped, being, as I think, cured. I have no symptoms of gastric trouble or indigestion now."

Do you know that: Hot alum water will drive away croton bugs? Soapbar, boiled in water, will remove grease from woolen materials? Gasoline will perfectly cleanse silk? Chloroform will take ink stains from wool? Camphor takes out many stains from wood? Salt is the best cleaner of greasy kitchen utensils? A dish of water near a lamp will prove a trap for moths? Fresh raw meat is the best bait for mice traps? A lamp should be filled quite full every day and thus used will burn one wick many times as long as if it were only filled with oil when absolutely required? The coldest place in the ice box is underneath the ice, not on top of it? "A pint's a pound" only in butter and granulated sugar? In recipes "one teaspoonful" means rounded up as much about the spoon as the bowl rounds below? A white broom should be used for sweeping stairs? Wicker furniture may be renovated when soiled by washing with salt water? You can make your own—and stronger—mucilage by buying glue and dissolving it in water? Gloves should never be mended with silk, but with colored cotton thread? A toothbrush should always stand so that it may drain when not in use? A hairbrush should be frequently washed in ammonia water and dried by standing it on its bristles in the sun? A dishcloth may be crocheted from white cord? An Apple Ester.

During a visit to the south of England a gentleman met with who related a unique and most interesting experience in dietetics, says Chambers' Journal. It was that for the last three years he had lived on one meal a

day, and that meal was composed chiefly of apples. Further astonishment was evoked by his reply to my question as to what he drank, when he stated that the juices of the apples supplied him with all the moisture or drink he needed; this, he claimed, was of the purest kind, being in reality water distilled by nature, and flavored with the pleasant aroma of the apple. He partook of his one meal about 3 o'clock in the afternoon, eating what he felt satisfied him, the meal occupying him from 20 minutes to half an hour. He looked the picture of healthful manhood, and is engaged daily in literary work.

The Postmaster General has made a decision in regard to postmasters who fail to notify the publishers of subscribers who move or fail to take their papers from the office, to the effect that such postmasters shall be held responsible for the amount of each subscription. The new postal also says that any one subscribing for a paper and refusing to pay for it, shall be liable to criminal prosecution.
