Eastman is now a director of the Tumwater schools, filling a vacancy caused by the removal of E. E. Grimm, who held the position, to this city. Will Jenkins, Jr., has returned from his and visit to California and is to be present at the interment of his father, our late Secretary of State, Will D. Jenkins. Architect Ritchie is on the ground ready to direct any movement of the capricious contractor to advance construction of the capitol annex. A part of the iron has been received it is probable he may, in the course of time, get a "move" on.

John B. Anderson, of Pierce county, has sold to John A. Olin lots 1, 2 and 7 of block 1, Parkers' addition. The consideration named in the deed is \$1,000. The steamship Umatilla sails from the Sound for San Francisco to-morrow. The next steamship for that destination will be the City of Puebla, Thursday. Mrs. Geo. Where they came from or the special occasion for their presence at this time, is unknown. F. W. Moulton and Mrs. Emma R. Littlejohn were united in marriage at South Union, Monday. The happy couple are well-known in this county. Mr. Moulton owns a fine farm at South Union where they will reside. C. D. "Pat" reports having had a splendid trip. Major J. Howard Watson, the Governor's private secretary, having gone to Lake Chelan to remove his family to this city, Major J. Howard Pelletier has resumed his place on the quarterdeck until the commander who swears with a great big G returns. Stetson's Uncle Tom Co. performed an unusually large audience Wednesday night at the Olympia Theater. A result due quite as much to the superiority of the company as the savvy and excellent management of details by its manager, Mr. Peck. An agreement has been arranged between the County Commissioners and J. B. Chaplin whereby the sum of \$10,000 will be paid into the county treasury within the next 30 days, for taxes due on a large amount of property in various parts of the city. A verdict for \$62.15 has been obtained against the N. P. Railway Co., by John Dootson, of Bucoda, for a cow that was killed by a locomotive near that place about seven months ago. The finding includes value of the cow and seven months' interest on the same. S. A. Madge, of the Olympian, left Wednesday for New York, to purchase additional machinery for getting out in improved shape the morning paper. When it is installed, the days of usefulness for the court journal's "corn-sheller," the Simplex, will be numbered. The W. C. T. U. were to have discussed the subject of "Economic Cookery," at their meeting this afternoon. That is surely a more practical undertaking, when estimated by possible results, than the attempt to suppress the whiskey traffic by lectures and leaflets. That the Goddess of Fortune is blind is shown by the award of a gold watch to P. H. Neuffer the jeweler, the other night, at the raffle instituted by the Sisters of St. Peter's Hospital, that gentleman being already overstocked with timepieces. His ticket, however, No. 63, won the prize. A special meeting of the Chamber of Commerce will be held to-morrow evening at 8 o'clock, at the city council room. The object, it is understood, is to take steps looking towards facilitating investments in Olympia and Thurston county by people soon to arrive among us from the East. Ed. O. Free, Councilman of the Second Ward, is having honors thrust upon him. He has been appointed State Armorer by Gov. McBride, succeeding Calvin Richmond on the 1st of next month. He is capable, faithful and honest, tracing all the old-time Jacksonian qualifications, if he does train with the pie-eaters now. A horse belonging to Munn & Pickett, the grocers, became frightened and fractious, Monday afternoon, while attached to the firm's delivery wagon, and badly injured the hoofs of two feet and totally severing the "frog" of another. A veterinary surgeon took charge of the animal and claims that in a few days he will have him able to chew his daily ration of oats as well as before the accident. Harry Hinchcliffe, of the W. Chambers & Co.'s market, is in a bad way from blood poisoning which set in from a scratch received on his hand while at work. A few days later the same member was bitten by a pet dog, which aggravated the wound, and for a time it was feared that his condition would be further complicated by hydrophobia. That danger has, however, happily passed, and it is expected that he will soon have fully recovered. A very enjoyable family re-union was held at the home of Mr. and Mrs. Benjamin Curry, at Gull Harbor, last Tuesday, the occasion being the celebration of the silver weddings of

Mr. and Mrs. Orville Page and Mr. and Mrs. Robert Whitham. The mother of Mr. Page, who is in her 81st year, had the pleasure of seeing all six of her children, and eight grandchildren, at her; on that delightful occasion. A sumptuous wedding breakfast was a feature. John Hager, the well known carpenter, sold his property and left the city a few days ago, saying he was going to Seattle to die. A search by friends in Seattle failed to find any trace of him. He is said to have quit a job of which he was foreman of a crew, building crows on Westside for a Seattle firm. It is now thought by his closest friends that he went to the hot springs in King county, as he complained of not feeling well when he left. Miss Mamie E. Mc Masters died last Friday at St. Peter's hospital after an illness resulting from a relapse of pneumonia covering a period of several weeks. She was 24 years of age and her parents live near Tenino. She also has a younger sister who is employed as a waitress in the Recherhe restaurant. The funeral took place Sunday morning at 9 o'clock, Rev. Dr. Hayes conducting the service. Interment was made in Odd Fellows cemetery. The Olympia Theater was sold under execution, last Saturday, to satisfy a judgment against A. H. Christy, proprietor, of Seattle, who bought some time ago the claim of the de jure First National Bank, of about \$5,000 against the property, for \$1,500. The amount of Mr. C's bid approximated \$6,000. The management of the theater will be continued by its builder, John Miller Murphy, who will probably in due time complete arrangements for its redemption. Edith Hawk, a daughter of Isaac Hawk, a farmer living near Neaqually, died at Fort Steilacoom yesterday. She was 18 years of age and an excellent young lady. She was cared for a short time at St. Peter's hospital, in this city, prior to being taken to Steilacoom, and hopes of speedy recovery were indulged by her parents and friends. Miss Hawk was a niece of James McAllister, the pioneer, who died a short time ago at Orting and whose funeral rites were held here. Mrs. Hannah C. Shattuck, wife of Geo. S. Shattuck, died at Tumwater Saturday morning, after a lingering illness. She was born in Providence, R. I., in 1841, and is a descendant of the Roger Williams family, noted in American history. She married Mr. Shattuck in San Francisco in 1870, in which year they came to Washington, locating at Tumwater. Her husband and three children survive her. The latter are Geo. H. Shattuck, of this city, and Mrs. Frank D. C. Shattuck, Mrs. William Marshall, of Tumwater. The funeral rites were held Sunday afternoon, at the Eastman residence in Tumwater, Rev. A. G. Sawin officiating. SLEEPING ON AIR. The Pneumatic Mattress Constitutes the Ideal Bed, Affording the Acme of Comfort. There are very few who will dispute the assertion that the happiest hours of mankind are spent abed, and it follows as a sequence that anything which adds to that comfort and promotes the away of that gentle monarch, sleep, Nature's sweet restorer, Balmly Sleep, brings earth-life just that much nearer the ideal heaven, where the greatest boon promised is rest—a release from the toil and tribulation which go so far to render life a matter of small solatude. So much by way of premise for calling attention to what we regard as the ideal bed—the pneumatic mattress. It is to feathers and springs, and wool and hair, that the air tire on vehicles is to iron and steel. It is soft and yielding, adjusting itself readily to every position of the body. But comfort is not its greatest virtue. A little reflection will convince that from a sanitary point of view, it possesses equal attractions. It can never become musty, is easily kept clean, and always free from any kind of parasitic growth, and can be deflated and rolled up and tied, as the advertisement says, in a shawl strap, and carried under the arm or thrown over the shoulder. This renders it most valuable possession for camp life, for a man may always "pick up his bed and walk," whenever he wants to change camp. They are made in various sizes, to adapt them to the uses required, and one form is called the "divided" mattress, being composed of two forms, which are united by buttons, which may be pumped up to different capacities for resistance, a fat man and lean wife, or vice versa; the heavier person, of course, having a greater pressure of air to sustain him than a lighter person. It is expected that Mr. Bates will accept the agency for the best bed on earth, and will soon have a line of samples to select from. UNCLE TOM. The Old-time Story Still Entrails the Throng, as Was Shown by the Audience Here. It is strange what a hold the pathetic story related by Harriet Beecher Stowe has upon the hearts of the people. Despite the gibes and jeers with which the announcement of its appearance is always greeted, the Stetson company Wednesday night drew one of the largest audiences of the season, handicapped as it was by the mediocre, if not bad work, of a number of companies which have preceded it. People came from the country from homes 20 miles distant to see Stetson's "Uncle Tom," and many persons were present who seldom attend any dramatic performance, which is usual, and quite a sprinkling of theater-goers, an unexpected result, owing doubtless to a realization that the best Uncle Tom was making the ten years ago. The advance sale indicated a belief in the promises made by the billboards and the house patronage was sufficient to warrant a belief that the people were not disappointed by the main features of the parade. Uncle Tom's receipts were 25 per cent more than for Yale's "Devil's Auction," considered everywhere a gilt-edge attraction, and did not fall more than that per cent less than Tivoli Opera Co., with the great Ferris Hartman as the star attraction. A cordial welcome is in store for Stetson's "Uncle Tom" next season, when it is promised that it will be as much better as it is possible for experience and money to make it. Wanted. By a man and wife a position as cook in a small camp. Address this office.

long, long kiss, a kiss of youth and love. Well, all good things have an end, and so at length they unshackled their arms but their lips would not separate worth a cent; they were fast frozen together, and pull as the lovers might, the effort was fruitless and ended only in intense pain! Jeminy, woman like, tried to scream, but could only fetch a nervous whimper. Augustus wretched to swear a little, but was only able to growl and stamp his feet. The natural moisture of their lips had solidified into a sheet of ice and that was the beginning and end of the trouble. There was a telephone in the house but neither of them could use it to call a physician, and so what was to be done? At this juncture, a bright thought struck the young lady. Pulling her lover back into the house she led him by a series of sidelong waltz steps into the kitchen to the hot water tank of the range. It was but the work of a moment to plunge a towel into the tank and cause it dripping hot between their noses, when lo! Jack Frost, sweating mad, relinquished his clammy hold and in a trice they were free! The epidemics, however, was peeled from the surface of contact, leaving their lips in a painful condition. The two young people are wearing big patches of court plaster upon their lips, and telling conflicting stories as to the cause of their labial mishap. Jemima adroitly and rather truthfully explains it by saying that her lips have been seriously "chapped."
