Oly is again airing his enthusiasm at the end of a long pole; an old stubbroom being held aloft as a token of prowess. Mrs. C. M. Bolton is now singing at the Edison theater, and Mrs. Kate Martin manipulates the ivory as accompanist. The Mutual Lumber Co. has sold the furnishings of the company's hotel adjoining its mill at Bucoda to Fred Grove. Drewry has bought 80 acres of land in section 1, township 17, range 2 west, from E. Munn, for \$1,300. The land adjoins the Drewry place on Bush prairie. Guy Tiley, U. S. Chinese Inspector, who came over to help "de gang," Tuesday, returned the next day to his legitimate duties at Sumas, Whatcom county. The Scooby-Lord combine carried the county by a majority of 142 3-5 votes to 15 2-5 for the Boxers—the Recorder pushed, said to be backed by Gov. McBride.

Mrs. A. J. Davis and three children of Butte, Mont., visited Mr. and Mrs. Leopold Schmidt, a few days ago, while on their way home from Southern California. The Lincoln school team beat the People's University nine, in a game of baseball, Saturday, by a score of 10 to 3. The former also beat Kregley's team by a score of 9 to 7. Miss Louise Barksdale, who is visiting her uncle, John R. Mitchell, received the sad news Saturday from her home in Tennessee of the sudden death of her father. The ladies of the Baptist Church are engaged in raising a parsonage fund, and will to-morrow afternoon sell choice pastry at Scott's grocery store for that object. The City Council, Monday night, accepted the grading of Hancock avenue which has been done by the Olympia Development Co. under the contract price of \$1,491.60. Judge Giles solemnized the marriage, Saturday, of Alexander Virtue and Miss Elizabeth Wolf, both young people being from Cedarville, Chehalis county. Now that "the gang" have full control of their own party, the good citizens will see to it that they do not retain control of the national State and county organizations. A party of eight homosexuals have arrived from West Plains, Missouri, to "cast their lot with us." They are W. E. Norman, J. M. Harper and Andrew Johnson and their respective families. Those in charge of the finishing touches on the Capitol annex got in such a hurry that men worked all last Sunday in placing the new steel smokestack to the lighting and heating machinery. The Steamship City of Puebla left the Sound for San Francisco today, Mrs. Bery and her party, including Miss Merle Berry, being passengers from this city. The next steamer for that port will be the Umatilla, Wednesday. City Engineer Weddell estimates the cost of widening and otherwise improving West Bay avenue at \$5,737.50. The report of Assistant Clerk Moore shows that there is a balance of \$27,852 still due on old "street improvement" expenses. Miss Hilda McElroy, who is attending the Portland Academy, spent Easter with her parents, Mr. and Mrs. H. B. McElroy, in this city. The young lady was accompanied by two of her schoolmates, Miss Carey, of the Oregon metropolis. Walter Chambers & Co. and Connolly & Chambers were the successful Olympia bidders who were awarded contracts by the State for furnishing meat to the Western Washington Hospital for the insane and the Reform School at Chehalis. Malvin Morrow, who is an adjudged habitual drunkard in both Chehalis and Thurston counties, was found in an intoxicated condition and taken before Judge Giles, Saturday. He was fined \$16.50, which he could not pay, and was remanded to jail. Frank V. Donnelly acting for Seattle parties, lately bought the famous Shannon farm, on the Nesquehly river, comprising 1187 acres of the finest land in the State, from Balfour, Guthrie & Co. The new owners propose to dyke the land and place it in hay and oats. The report of Police Justice Giles, submitted to the Council, Monday night, shows fines for the month of March to have been \$384.35. The Chief of Police reported collection to the amount of \$45.67; and the Street Commissioner handed in funds to the amount of \$3. Samuel Brown, 23 years of age, son of Charles Brown, of this city, died at Everett, Sunday, of diphtheria. The young man was well known here, having worked at different times in the City Bakery and Recherche restaurant. The funeral was held yesterday and interment made in Odd Fellows' cemetery. The annual collections for missions amounted to \$140 Sunday morning at the Methodist Church and at the Sunday school meeting in the evening \$62 was tendered—a total of \$202. Easter services were held in the morning, and the Sunday school children rendered an excellent programme in the evening. Louis J. Gay represents a Maryland Coal Co. in this city taking orders for coal lots of his product that is peculiarly adapted to the forge. Our goal is not to sell for this purpose, and will have to concentrate the sun rays a million or two years longer before it is adapted to the use of our modern Vulcans. Notwithstanding this is Presidential year and much time must necessarily be devoted to saving the country, a strenuous effort is being made to rehabilitate the baseball craze, mainly, of course, for the benefit of "professionals." Oly says that new grounds are being prepared on the old velodrome site and that the surface of the area will be "skinned" to level. The quarterly report of State Treasurer Maynard shows a balance in the treasury of \$1,060,438.84. Of this amount, \$307,704.81 is vested in the current school fund, \$268,247.87 in the permanent school fund and \$72,050.50 in the State house commission fund. The balance ranges down from \$96,393.24 in the general fund to \$210 in deposits of the survey of tide lands. Our town seems to be progressing—like a cow's tail, downwards. A wrestling match was "pulled off" (as Oly would say) at the Olympia Theater, Wednesday night, and the next thing will probably be a slugging match, in which Groggy Jones will raise a "man-hand root" over the "left optic" of Simple Smith after landing a "bunch of five" in his "solar plexis." Scott! Falstaff Sobiesky was very successful in mustering his recruits from afar, in the late primaries. Guy Tiley, E. C. Suiter and Win Ward responded to the call, despite urgent public and private duties elsewhere, and many others with jobs, dashed the entire day to round-up of the elusive voter. Boxer coin did not percolate very perceptibly in promoting the primary poll. It will be observed by call published in another column that the County Democratic Convention will be held in this city next Wednesday, the 13th, at 1 o'clock p. m., to elect ten delegates to the State Convention to meet May 5th. The precinct meetings are called for Monday, in the country, at 2 p. m., and in this city and Tumwater at 7:30 p. m. The place of meeting will be announced by the committee-man of each precinct and ward.

At a meeting of the School Board Monday, the bids for supplying the Olympia schools with wood for the year beginning Sept. 1st, were opened and contracts awarded as follows: Geo. Slater, 100 cords, at \$3.10 per cord, for the Washington school; Langford & Rice, 100 cords, at \$3.20, for the Lincoln school, and Fred Krohn and Chas. Arnold, each of whom bid alike, to jointly supply the Garfield school with 30 cords, at \$3.30. Eli H. Hawthorne on Wednesday began an action in the Federal Court at Tacoma for \$25,000, against George W. Ingham of Olympia, charging him with malpractice. The plaintiff alleges that in 1902, at Little Rock, his right leg was broken, and that the defendant, either through ignorance or carelessness, reduced the fracture in such a manner as to render him crippled and the wound unhealed. He asserts that he will always be compelled to use crutches, as a result of being a helpless invalid, for which he asks the above damages. Mrs. C. W. Phibby, wife of a millman at Bordeaux was run over by a locomotive of the Northern Pacific train, near that place, yesterday morning, about 9 o'clock. It appears that victim was conversing with other ladies near the track with her back towards the approaching engine, and when discovered it was very near and in her fright she attempted to cross the track, the engine struck the brakes, but the momentum was too great and the locomotive and tender passed over the poor woman, crushing out her life almost instantly. The horror-stricken husband witnessed the tragedy. Mrs. Phibby was 20 years of age and leaves two small children. She was formerly Miss Whipple and had many friends in our community. The Supreme Court, Monday, affirmed the judgment of the lower court in the case of Charles Clark, convicted of the murder of Lella Page, his mistress, in this city, little over a year ago. The plea of insanity was of no avail, the court very sensibly taking the view that from an opinion rendered by Judge Jacobs of the Territorial Supreme Court, as follows: "The world has had enough of that insanity which commences just as the sight of a slayer ranging along the barrel of a pistol marks a vital spot on the body of the victim, and ends soon as the bullet has sped on its fatal mission." The point of error claimed on appeal was overruled. Clark was immediately, on return of this finding, placed under a strict guard, which will be maintained until the remittitur is received by the Superior Court, when service will be passed, and he taken to Walla Walla. Already evidences of a maudlin sympathy are becoming apparent—always observable in proportion to the finisableness of the crime—and it is said an appeal will be made for executive clemency. Such a misguided sympathy should be frowned down. WAR NOTES. The Russian policy is to delay and harass the enemy in Korea. Anti-Russian feeling is almost uncontrollable in China. The Japs placed several Easter eggs in Fort Arthur Sunday morning. The Russians at Wiju lately fled in terror from the rapid advance of the Japanese forces. The left 24 field pieces. The Russians have decided to sink rock-laden ships in the harbor to prevent Japanese from reaching Niu Chwang. Japan intends to block Port Arthur at all hazards and at whatever cost, and then to force Russia out of Manchuria and Korea. Thus far the war has cost Japan \$500,000,000. Princess Alice of Bourbon, daughter of Don Carlos, pretender to the Spanish throne, is expected at St. Petersburg shortly, en route to the East, where she will act as a nurse. Many Greek naval officers belonging to the aristocracy are applying for permission to join the Russian forces in the Far East, and Greek physicians are also volunteering for the same purpose. England expresses a fear that a military victory of Russia would make the Slav empire greedy and ready to embark on a career of aggression that would leave the world no alternative but war. Antung is the base of Russian operations in Yalu district. It is estimated that 30,000 troops are encamped there. They will dispute passage of the river vigorously. The chief base of the Russian army is Liao Tung, about 170 miles from Antung. The last detachment of the Japanese army designed for Korea has been landed. Anju is made frontal base, but it may be a month before a big battle is fought, as artillery moves slowly on account of poor horses. Army consists of 50,000 men. The Japs are in complete possession of Korea. A Brussels dispatch of the 5th states that King Edward having taken steps to ascertain if Russia would accept an offer of mediation, the Czar is declared to have assured the King that if such an offer were properly made, it would be accepted. The proposition comes from her ally, it is difficult to see how it can be rejected by Japan. An American business man just returned from Russia says that Russia's army, navy and civil service are honeycombed with corruption and a spirit of insubordination and mutiny prevails to an extent beyond belief. The enemy knows this and Russia's exaltation, and count upon a six years' war. They know the Russians are short of supplies and cannot get them except by dribbles from Europe. Death of Pendleton Miller. Our people were inexpressibly shocked yesterday morning by the announcement of death at Seattle of Pendleton Miller, second son of Mrs. Mary M. Miller, one of our most prominent citizens of the olden times, Gen. W. W. Miller. It was only about a week ago that Pendleton visited Olympia in the interests of the Olympic peninsula, and apparently the enjoyment of perfect health, joyous and happy, and full of promise for a long and useful life. But that dread disease typhoid pneumonia seized upon his vigorous frame and accomplished its work in about a week. Pendleton Miller was born in this city in 1871, and had therefore attained the meridian of manhood. He was a graduate of Harvard. Arrangements have not yet been made for the funeral, but interment will probably be made here in the Miller block in Masonic cemetery. The STANDARD expresses the universal sympathy felt for the much-bereaved mother, several members of her family having been called hence within the past year or two.

ARE GRINDING AWAY ALTHOUGH THE GRIST IS BY NO MEANS LARGE. The Pension Case Extending to the Civil Service List—Secretary Taft Hypnotized by Two Senators into Accepting Taft Promises for the Philippines—Capitol Extension Contemplated for Benefit of Senators—Rush of Business "After Election."

low promise. Then the startling fact came out in debate that a trade had been made between the Secretary of War and Senator Lodge and others which was to bind Congress to a Philippine tariff reduction at the short session. Of course the opponents of a reduction howled in protest. Everybody except Secretary Taft now realizes that he has bartered the rights of his Philippines for a goldbrick. Tariff legislation must originate in the House. But two Senators promise it at a short session and the guileless Secretary believes they can deliver the goods. Congress having provided a new building to be used as offices for members of the House of Representatives, and Senators being unprovided for, many of them having offices in a building which has been condemned as unsafe, the plan of enlarging the Capitol as originally designed by the late architect, Thos. U. Walter, meets with approbation. This will give Senators the needed room and be a splendid addition to the great building. The House has appropriated half a million of dollars to begin the work, which will cost in the aggregate two and one-half millions. The central portion of the east front is to be extended, giving a magnificent entrance hall to the rotunda, 108 feet long. The new addition will correspond in style to the front of the Senate and House of Representatives, and add much to the dignity of the whole building. We shall have a real exhibition of strenuous next winter when Congress tries to crowd through in three months all the measures that have been postponed till "after election." DEM. It seems that the old expression, "As the cock crows the young one learns," is verified by press comment in Cuba. It is plain there is a rupture between President Palma and the legislative congress, and the sensitiveness of the situation is shown by the incident that when, the other day, the U. S. cruiser happened to call at the harbor of Havana and dropping anchor well in towards shore, La Lusha, the government organ, at once published a vigorous editorial declaring that the visit was of political significance and called attention to the matter of fact that the guns of the warship pointed at the legislative building, but whether as a menace to that body or as an act of protection, it did not intimate. It was made the occasion for lashing popular sentiment to a frenzy, however, though the prompting may have been purposeless. GEORGE P. WRIGHT (Dem.) defeated L. D. Campbell (Rep.) for Mayor of Tacoma, Tuesday, by about 690 majority. The remainder of the Republican ticket was elected, which emphasizes the protest against the ring methods of the present municipal executive. Russian officials declare they are letting Japan win at the beginning with the object of luring her on—Oregonian. Luring to her own ruin, as it were. The Bear should take special care that when the Japs have her down they do not ruin her to a finish. Painters Outfit for Sale.
