A friendly suit is to be instituted to determine the legality of the act against which the Governor's appropriations are authorized.

An exceptional high tide was that of Wednesday morning which was exceeded only by one about six years ago, when the record making was established three inches higher.

Walter Shotwell, of Rochester, came to the city Tuesday, on business. It is said he is named as executor of Elizabeth Hash, who died on January 31, in this county.

The dreaded 43 alarm for fire, involving the business district, at 1:30 yesterday morning, aroused many of our citizens, but it was found to be occasioned simply by a burning chimney of the Chinese restaurant on Main, between Second and Third streets. No damage was done.

W. A. Baker, of Mud Bay, while splitting wood, chopped off a portion of one of his thumbs with an ax, Tuesday morning, and had to make a trip to town before he could find anybody with enough skill in such matters to check the profuse flow of blood. He was barely able to reach the surgeon's office from loss of blood.

Mr. George C. Israel left Tuesday morning for San Francisco, to meet an important business engagement. He had not fully recovered from his late severe illness, but when duty calls he is noted for making most any sacrifice. He was accompanied by his faithful and devoted wife, which is some assurance for his welfare.

The end came, Friday night, of the earth-life of R. W. Taylor, who had lingered ten days, in an unconscious condition, from injuries sustained by a fall on a cement sidewalk. The funeral was held Sunday afternoon, under the auspices of the Foresters of America, of which order he was a member. Deceased was 54 years of age, and is survived by a wife and four children.

Judge Robinson, now in Santa Barbara, Cal., undergoing treatment for a throat affliction, when he was informed of his suspension from practice for six months by the Supreme Court, according to the Olympian, declared that he had not had a fair deal and that he would have something to say about it later on. If he does, under the circumstances, he will probably suffer the fate of the parrot who talked too much.

Fred. Drew, for over forty years connected with important lumber interests at Port Gamble, Fort Ludlow and Utsalady, in this State, was married, on the 4th inst., at Edele Vale, Cal., to Miss Eugenie Adelaide Brady, of that place. Mr. Drew is one of our best-known and most respected pioneers.

The Olympia Gas and Power Co. were able to give a good reason for asking that their certified check for \$1,000 be returned to them, which

was conditioned that stipulations of the contract with the city be complied with and that was that they wanted to use it. That is about what anybody and everybody wants to do with money, and the obliging City Council at once accepted a proposition to substitute a surety bond for the cash.

The second trial of the Holy Rollers was made in the court on the first, which resulted in a divided jury. The charge of cruelty to children was sustained against C. W. Passenger Agent Charlton, of the Northern Pacific Railway, turned down very unceremoniously the appeal of the Chamber of Commerce Committee for restoring the former schedule of arrivals and departures, hinting that he might recommend a "sub-train" or a "hand-car special," to arrive from Tacoma about nine o'clock and return an hour later.

That would serve to deliver the mails and down Sound papers, but that was all Olympia could hope for during the winter season. The distinguished agent of the company was short as pie-crust in treatment of the matter and hardly gave the committee an opportunity to retreat in good order.

The case of Charles H. Springer against Robert A. Ayer, receiver of the assets of John H. Saunders, the roplevin case involving the title to a donkey engine and attachments, came up again on last Monday morning in the Superior Court on motion of plaintiff to substitute James McDowell, trustee in bankruptcy, instead of Robert A. Ayer, as defendant in the case. The application was vigorously opposed by attorneys Byron Millett and E. N. Steele, appearing for defendant, Ayer, and intervenors Chambers, Lansdale and Ramberg. Mr. Millett contended that Springer and McDowell represented the same interests. Geo. H. Funk, as the lawyer of Mr. Springer, also asked leave to file a supplemental complaint, which was granted by the court over objections of defendant and intervenors, and the court ordered McDowell to be brought into the case as a party defendant.

Kincaid; Member of Park Board, Thos. McLarty, and Poll-tax Collectors, R. S. Anderson and J. M. Newsom. The Council confirmed all these appointments except the Chief of Police, Police Judge and Street Commissioner, the vote on confirmation standing four-nines to three ayes, as follows: Ayres, Flagg, King and Meays; noes, Weller, Mackay, Cornier and Swaine. The names of Ed. Rogers, C. H. Guberson and Claudio Weston, were submitted for the three offices respectively, and confirmed by the Council.

The estate of Henrietta Quale, deceased, has been finally closed and settled by decree of the Superior Court of this county. The State inheritance tax was \$51.77. The legacies of \$100 to Mrs. Ellen Scully, Robt. Hawthorne, Otis Hawthorne respectively, and \$500 to St. Paul's Evangelical Lutheran Church of Olympia, have been paid by the executor, Rev. Wm. N. Hobbberger, the pastor. This church is also residuary legatee under the last will of the real estate consisting of city improved property valued at \$2,000, was devised to deceased's only son, Abram Quale, and her granddaughter, Marie Davidson, equally. The executor caused a good monument to be erected to the memory of deceased in Odd Fellows cemetery at the expense of the estate. In the life-time of Mrs. Quale, Mrs. Scully had performed the kind offices of a neighbor and friend for many years, administering faithfully to her wants in her last sickness. The Hawthorne boys had for several years prior to her death rendered deceased valuable and neighborly services. These kindly acts doubtless prompted the above bequests.

Talking about hold-ups, porch-climbers and safe-crackers in Seattle, they are not in it. I read in the P-O issue of Dec. 5th, where a hold-up was reported, and complained to the management of the Pacific hospital of the Queen City, that several bottles of beer and champagne, left there for his wife who was a patient in the hospital, had been stolen. An investigation was instituted by the hospital nurses and physicians. The blame was placed on two Seattle physicians, who had patients in the hospital. Talking about stealing pennies off a dead man's eyes" is nothing, when the doctor's act is considered.

Hoquiam Damaged by High Tide. The highest tide known in many years caused by the southeast gale, which swept the harbor the preceding night, flooded the city of Hoquiam. The residence section was under from two to three feet of water, the Northern Pacific tracks are damaged and a portion of the grade had been carried away by the waves. The tide had completely submerged the dyking system, which had been partially destroyed. The city was in darkness owing to the inability to operate the electric lighting plants. Sidewalks and private walks were carried far out of line by the action of the water and the property loss was heavy.

Castor oil is best taken in milk. It may be made into a tasteless emulsion by adding a little cinnamon water or orangeflower water, a few drops of lique potasse and a drop of two oil of lemon.

BOLT FROM JUPITER

The Orceonian Shows What the Effect of the Primary Law Has Been—It Washes Its Hands of Results—The Party in Oregon Has Virtually Quit Business—It Has Degenerated into Absolute Ring and Machine Rule and Cheap Personal Control.

There is no Republican party organization in Oregon, and no person or group of persons, can have the courage (or temerity) to attempt one. To do so would be to make a "ring," "machine" or "boss" out of which is exceedingly odious, and each more odious than the other.

The primary law has abolished parties in Oregon, and especially the majority party. It does not leave it even a party of factions, which might indeed effect something, since some kind of party allegiance would still be acknowledged. It makes politics a personal scramble, a contest of individuals, who stand for nothing at all except the desire of the individual to get the office. What's the use of voting for the man unless you know he stands for principles and purposes force and effect? And how are you to force anything except by acting with a party? Is each man, or small group to act a separate and disconnected party? That is the necessary consequence of the primary law.

The party with which the Orceonian has acted these fifty years has abdicated. It has quit business. It has no platform, and it has no central point of organization, around which men may rally. A few men vote for an individual for a nomination. He may have fifteen or twenty per cent of the vote. The other eighty per cent have not voted him, and have voted for others or haven't voted at all. He will not be elected. The primary law has abolished the representative system.

Men fight for the duties of official place will not enter into this scramble. Self-appointed candidates, whom the people do not want, will obtain the office. You know the result. Then what will follow? You know the result. The candidates are beaten because they represent nobody but themselves and a few personal adherents.

The Orceonian excuses itself from leading a forlorn hope, in the name of party, in this game. Since others do not consider themselves bound to support candidates so nominated, it will not. It has had enough of that kind of thing.

There can be no party without party organization that does not have an organization that does not have a representative system. Under present conditions a so-called Republican nomination, pretending to represent the party that has no name, is a palpable fiction. It will be the same also, after a while, in the Democratic party. Neither party will have any means of knowing what it is contending for, and will fall wholly into the hands of cheap pretenders. No man who respects himself will nominate himself and rush for office. The Orceonian begs to excuse itself from any further attempt to establish principles and purposes through the methods created by the primary law. It would advise no man to take a second nomination under this method or system. For the system is not representative. When you have destroyed party and abandoned what party stands for, nothing is left but a cheap personal contest among self-appointed candidates. Mighty few will find inspiration in that. The Orceonian has been slow to admit or accept the abdication of the Republican party in Oregon, but he has been compelled to do so. It struggled a long time, and after repeated discouragements, for it thought the Republican party would, together, even in spite of the primary law, and that became a lost hope; and—the rest is silence.

My dear," murmured the Olympia sick man to his wife. "I am nearing the golden streets. I hear the strains of sweetest music, unearthly in its beauty, I—"

"William," said his wife, "what you hear is the talking machine in the house across the street." "So it is. Darn those people, anyhow. No consideration for their neighbors. Go and tell them to stop that infernal racket at once."

Many people have queer ideas about those who are engaged in the show business and are prejudiced against just all things theatrical. There are just as good and virtuous folks amongst those who "tread the boards" as in any other class of society on this old Earth. It is an honest business and let me tell you that these men and women who are engaged in the profession work hard and earn every dollar they get.

It was Sunday morning, the minister had started for church. The family were preparing to follow when the youngest, a five-year-old, protested, "I do not want to go to church."

"I do not feel much like it myself, Fred," said this morning, replied his mother, "but we must go. Father has to go—has gone already, and he has to preach." "Yes," said Fred, unconcerned, "but we have to listen, and that is worse."

When a tramp printer used to "hit" the town, if there was no work the boys in the office would work the boys to help him on to the next burg. This thing was a sort of unwritten law amongst the craft. About the same as old-time gamblers in years past, staking one of their associates who had gone broke through a run of ill-luck, and would be long until the old rum-soaked tramp-printer will be as extinct as the dodo.
