The man calling himself C. J. Davis committed to the pen for 20 years for forging a check, was recognized at that institution as an old acquaintance, by the turnkey, who had known him while serving a former term under the name of Timberman.

That Minnesotan who caught a 19-pound tye salmon off the dock last week, had a very brief record as champion fisher for A. Van Eaton Tuesday morning landed by hook and line a fish of the same species, measuring 37 inches and weighing 21 pounds. It was caught from a float.

John B. Bohr, an industrious rancher, residing a few miles south of this city, was in the city Monday. He and his brother, Henry, operate a large ranch and both take the STANDARD. They do not believe in borrowing the family paper even if they are brothers. Some people will walk quite a distance to borrow a paper because they are too infernal stingy to subscribe for it.

It has been decided to begin construction of the Temple of Justice in about two weeks. It will be constructed primarily of brick, and a facing, probably of Tenino stone, added later on, when an additional appropriation will be made for the cost. It seems this is a wise provision for the project has exceeded the limits of former ideas of the needs of our growing State.

Ben Goldenberger was seriously injured Sunday by a head-on collision with his and another motorcycle ridden by a Tacoma party whose name is not given. Dr. Lyda, who happened to be near, gave the sufferer first-aid treatment, when he was taken into Jesse Mills' auto, which also happened to come along, and was hastily carried to the hospital, where he received ample care.

The teachers of the State contemplate having a big time at Spokane early in April. The convention will be preceded by formal dedication of the Lewis and Clark High School, costing \$500,000, April 1st to 3d. A meeting of the State Board of Education will be held on the 6th.

every 200 votes cast for Cosgrove for Governor in 1908. The Committee by resolution endorsed "the wise, patriotic and fearless and just administration of President Taft."

The Industrial Insurance Commission has received a unique claim for damages from being hit by a dead dog. It was ruled that in case of a man an auditor covering injuries received in performance of their duty the terms of "in course of employment" as interpreted by legal counsel to cover all claims resulting in injury from such vocation.

Fred W. Hill, conductor of a Beacon Hill car in Seattle, was bit while attempting to remove a supposedly dead dog from the track, and was bit in the foot during his expiring convulsions. Probably some thought will hinge upon whether the dog removed was a necessary one or not.

It is well that the city has resolved to curb, to some extent at least, the wide sway by those who ride motor-cycles and operate automobiles on the crowded streets. Chief Wright announces that hereafter no excuse will suffice to clear violation of the speed limits, and any exceeding it is regarded as either careless, reckless or defiant.

Monday, Ben Griffin, an auto-driver, pleaded guilty to exceeding speed limits and paid \$10 and costs, and a man named Denham \$5 for speeding and costs amounting to \$4.70 in addition to amount of fine. So beginning has been made—Roll, the game is made."

February exceeded the normal in rainfall by 6.85 inches, being an excess of seven-hundredths of an inch. Fifteen days were rainy. The total rainfall for the season commencing Sept. 1st, was 37.53 inches, being the average for the same period the past 33 years was 54.65, making a deficiency of 3.12 inches. The rainfall for the two months of January and February was 17.8 inches, which is an excess of the average rainfall for the same months during the past 33 years of 3.07 inches. The mean maximum temperature for the month of February was 50.1 degrees, while the minimum was 35.2 degrees, making a mean temperature of 42.6 degrees. The normal, based on the past month has been a little colder than ordinary. The coldest day came on the 29th when the mercury went down to 24, while the warmest came on the 16th of the month when it ascended to 57 degrees.

It seems that the Socialist vote in this city aggregates at best a little over 200 votes, as shown by the 944 to Guiles 249. This may be regarded as a very accurate index of the relative strength of the latter, as nobody seemed to know positively as to whether his opponent was a Republican or Democrat in political affiliation, and it can hardly be said therefore that there was any "ring" influence brought to bear, while the Socialist rally was general and active—in fact it was mainly owing to the strenuous efforts made by them that induced a retro-active vote of our own party.

The fact is that the Socialists are so radical in some of their ideas that conservative people feared to entrust to them so important a matter as school director to be elected for a long term. A vote on the matter of selling the school lot near the Lincoln school was 359 to 1 against, and as a counterpart to the movement for purchase of a lot near the Garfield school 349 for and 1 against.

Women's Educational Club. Last Saturday afternoon at the monthly session of the Thurston County Woman's Educational Club, Miss Frances Sylvester read a very interesting essay on the Boy Scout movement of America. The author took an adverse position to this movement, as calculated to induce the youth of our land to become cruel and out of line with economic development and the tendency of the age through which we are now passing, from the regime of militarism to the domain of intellectual force in which physical force must give way to the higher development among the children of men. By special request, Miss Sylvester will read this paper before the Olympia Socialist local at Labor temple next Saturday evening. Miss Sylvester discusses the situation from the Socialist standpoint, that it is wrong to train the youth to kill their fellowmen who have done them no harm, in order to procure profits and markets to promote the interests of "big business."

Case of Lathrop vs. Turner. In re State ex rel Lathrop against W. H. Turner, Justice of the Peace of Tumwater precinct, writ of review, the Superior Court, having allowed the writ to issue, the costs in the proceeding amounting to about \$20, the question was presented before the Superior Court last Monday whether these costs should be taxed against the Justice. Judge Mitchell ruled they should be taxed against the plaintiff, Arthur West, on the replevin action against Charles and Lathrop Lathrop, brought before Justice Turner, who committed the error of refusing a change of venue on defendant's motion. By the time the case shall have been determined on its merits, the costs will exceed the value of the animal (the mare) the right to the possession of which is involved. The transcript and papers have been transferred to Justice Walter Crosby for trial. R. H. Fry represented plaintiff West, and Fry & Sturdevant appears for the Lathrops, who are the defendants.
