The man's collar bone was broken by the link, imbedding itself into his chest, the sub-clavian artery was severed and the left lung punctured. County Engineer W. H. Yeager is investigating the petition of D. J. Evans for a road to extend three-fourths of a mile along the section lines from Ferguson road, south of Maytown, to the Case road.

County Superintendent Kibbe this week denied the petition of residents of the southern part of the county who desired the formation of a new school district, from parts of the Grand Mound, Colvin and Bucoda districts, after a hearing on the matter at Grand Mound two weeks ago. As an alternative the superintendent suggested that the Grand Mound district might vote to construct a new schoolhouse in the northern part of the district, to accommodate the elementary grade pupils. Long distances it was said the children had to travel to attend the present Grand Mound school was a principal argument advanced for the new district, but the county superintendent held that the new district would not relieve such a situation.

A vivid dream, in which he believed he had seen his partner in an adjoining bunk murdered, so startled a Russian employed at the Fir Tree Lumber company's mill on Salmon Creek that he aroused residents in that section Sunday night and caused a hurry trip by Sheriff McCorkle, Deputy Sheriff Gifford and Coroner Sticklin to the lumber camp where it developed no crime had been committed. That the man dreamed of the murder was the only explanation that could be offered.

Tonging for seed oysters on the state reserves will be permitted on only one bed this year, the Oakland Bay bed, Hammersley inlet, near Shelton, as the result of an inspection trip by Governor Lister, Fish Commissioner L. H. Darwin and Land Commissioner Clark Savidge, composing the state fish commission. Tonging there is to be permitted for only three tides beginning May 6, and the minimum price of 25 cents per sack has been raised to 75 cents. Depletion of the state oyster reserve by heavy tonging in previous years is given as the reason for the action.

IF YOU could not support your family without your salary or wages, how could your widow do it?

The man with a family has two great obligations:

First, to provide for their physical, education and moral needs during his lifetime.

Second, to make such provision during his lifetime that those left behind may live with hardship.

If you cannot save one-tenth of your wages and keep your family, how could your widow do without the entire tenths?

Save something, and bank it with the

that will not sit comfortably, no matter what it costs, it will do you more harm than good.

A truss that won't stay in its place under all conditions you can get your body into should be thrown away at once. It can never be depended upon and is sure to fail you at a critical moment.

We sell a truss at \$2.00 that we guarantee under all conditions to positively retain the most complicated form of rupture painlessly. This truss is neither clumsy nor uncomfortable about the body, and wears well. All our fitting is done by an expert and our stock is most complete in every surgical requisite.

SUNDAY SCHOOL MEET

CENTRALIA, May 2.—The twenty-sixth annual convention of the Western Washington Sunday School Association has been in session here since Wednesday. Governor Lister who delivered the opening address, accompanied by Mrs. Lister, arrived here Wednesday and was met at the station by the reception committees of the Commercial Club and association, the public school children and a detachment of boy scouts.

The governor spoke at the annual "get acquainted" banquet of the association.

An excellent program was arranged for the three days' session, such speakers having been secured as E. C. Knapp of Spokane; Rev. J. H. Mathews, of Seattle; Rev. W. S. Holt, of Portland; Rev. A. M. Williams, of Portland; Dr. Lilburn Merrill, of Seattle and others.

"SEATTLE IN 1915."

Slogan for Washington Members of N. E. A.—Notice to Educators. To the Educators of the State of Washington:

The annual convention of the National Educational Association will meet this year in Salt Lake City, July 7th-11th. Washington headquarters will be Rooms 317-319, Hotel Utah.

The railway fare has not been definitely announced, but it is confidently expected that we shall have a rate of \$40 from Portland for the round trip. This would make the fare about \$45.80 from Tacoma to Salt Lake and return.

The number of Washington members of the National Educational Association is gradually increasing, but because of the personal benefit derived a much larger number of leading educators of this state should be enrolled, and in view of the fact that we wish to induce the 1915 convention to come to Seattle we should greatly augment our present membership and should have a large and enthusiastic representation at the Salt Lake meeting. If you are not already a member will you not join and attend the convention this summer?

As soon as further information regarding the program is sent out by the secretary, it will be announced to the teachers of the state, but in the meantime please plan your summer so that you can go to Salt Lake City. If you are going East you can get the benefit of the usual tourist rates with stop-over privileges at the convention. The spirit of educational progress and the spirit of state loyalty should both impel us to attend this convention. Let us all join in the slogan: SEATTLE IN 1915.

Very truly yours,

C. E. BEACH,

Director for Washington, National Educational Association.
