Ward Wants the Root of All Evil

Money---That's It!

Olympia's only exclusive shoe store must turn half its stock into cash To Do It Quickly The Whole Stock Is Placed On Sale At

PRICES WITHOUT PROFIT

The Reason! Read It.

The Result! Profit By It.

Two months ago I had two shoe stores. Prevailing business conditions did not warrant running both, so I closed up the store at 425 Main street and moved the stock to my old stand at 327 Main street. Two stocks in one store made things pretty crowded, but the straw that bent the camel's back was the arrival last week of my new spring stocks, bought for two stores. Say, I've shoes enough to start a jobbing house, and no place to put them. I must sell them, and sell them I will. If you have a dollar you don't need to eat on, bring it to me; I'm paying a liberal premium on dollars these days.

A double dose of Shoes is bad, but a double dose of debt is worse. I could store the shoes in the back room and let them get out of style, but with debts it's different: I can't store 'em. They must be paid, first or last. I'm going to pay them now. It means a loss for me—a big loss, to have to sell half my stock in just thirteen days, but I'm going to take my medicine and get the cash. Every pair of shoes in the house goes on sale. Some will sell for much less than I paid for them. Others go for cost. Choose any shoe you wish and you can take it home for a price that in no instance covers the cost of selling.

Sale Starts Saturday at 9:00 A. M.

All sales for cash only. Conversation don't go. Don't ask to have goods charged; it's impossible to do it at these prices. I'm not going out of business. I'm going to be right on the job for years—I hope. My usual guarantee of satisfaction or money back prevails during this sale.
