

Sometimes you make exposures and get poor results. You handle your camera as you always have done, focus carefully and give the same time as under like conditions; but it goes wrong, it's the film. It lacks uniformity. Just try one

And see the difference. It makes a picture with one exposure and you needn't make two to be sure of a good result. Come in and let us show you. No matter what camera you use, use an Anscoc Film for better results in amateur photography.

WHAT OUR FATHERS READ ABOUT IN THIS PAPER FIFTY YEARS AGO

From The Washington Standard for September 26, 1890. Vol. XXXI. No. 44.

There are scores of Indians on the Puyallup reservation worth from \$50,000 to \$250,000 each, says Puget Sound Real Estate News, and when the reservation is thrown open by congress, as it will be in a very few years, there will be in Pierce county a dozen or two of the richest Indians in the United States.

Andrew Carnegie has just given \$50,000 of money taken from American taxpayers to found a library in a Scotch town.

A sharp steamboat rivalry exists between Olympia and Kamilleche.

Incandescent burners are now pretty generally used all over the city.

The picture of Olympia, painted by Mr. Lange for the Board of Trade for exhibition at the Spokane exposition, was shipped to Spokane yesterday.

A china clay bank has been discovered near Olympia, on the Nesqueally river, 300 feet wide and very accessible. It is the first discovered in the United States.

A Washington dispatch says President Harrison will make a tour of the Pacific Coast some time in May or June next year, on the occasion of the dedication of Leland Stanford, Jr., University, which Stanford is about to present to the state.

MEN AVAILABLE FOR WAR.

Two and One-half Millions Ready in New York State.

Albany, N. Y.—There are 2,500,000 men in New York state between the ages of eighteen and forty-five, therefore, available for war duty. Secretary of State Hugo announced in one of his census bulletins.

The June enumeration shows, he says, that there were approximately 250 officers and 6,800 enlisted men at the army posts of the state, 60 officers and 1,300 men in New York's naval militia and 1,000 officers and 16,080 men in the national guard. Thousands of men besides these have had some military training, either in the regular army, national guard or in college or military academies.

Figures obtained from the adjutant general's office show little change in the strength of the national guard in fifty years. At present it stands: Officers, 1,000; enlisted men, 16,080; total, 17,080. In 1857 it was: Officers, 1,827; enlisted men, 14,608; total, 16,435.

The possible strength of the division under the present federal regulations is: Officers, 743; enlisted men, 21,930; total, 22,673.

To give more men at least the rudiments of a military training Lieutenant Colonel E. V. Howard of the adjutant general's office favors what he terms a "mild conscription." Every young man on reaching the age of eighteen years would be called to serve under the colors for three years, during which time he would give thirty days of active service each year. A call to arms would find, then, thousands of men better fitted to serve their country.

FEW PAUPERS IN KANSAS.

Many Counties Have No Poor Farms Nor Poor Indigents.

Topeka.—Twenty of the 105 Kansas counties have no poor farms or indigent poor, while in other counties the poor farms are self supporting, according to a report made by J. W. Howe, secretary of the state board of control.

In the year ending July 1 the various counties in Kansas cared for only 900 paupers, the report says.

Pending the construction of new quarters at the Winfield Hospital for the Feeble Minded a number of insane and feeble minded patients have been cared for by individual counties.

As a result there were ten more inmates of poor farms this year than last year. In the year ending July 1, says the report, there were nineteen children in the county institution, as against fourteen the previous year.

WAR THREATENS RUIN TO SWISS HOTEL MEN

Appeal Made to Government For Aid by Mortgagees.

Geneva.—Bereft of tourist patronage by the war, the Swiss hotel keepers in convention assembled have appealed to the government for relief. They want a state system of mortgages on furniture in inns and a delay of two years after the end of hostilities for the payment of interest on the mortgages.

There are about 4,000 tourist hotels in Switzerland, employing 43,000 people, with a yearly wage list of \$5,600,000, and \$227,000,000 capital is invested in the business.

More than \$100,000,000 was spent by tourists in Switzerland in 1913, of which \$1,000,000 went for postage stamps and souvenir cards, \$400,000 was spent for telegrams and phone talks, \$4,000,000 was taken by the railroads for fare and freight, and the balance, less a comparatively small amount for customs duties, was got by the hotels and shops in the proportion of eight to two.

These estimates are the official ones made public at the national exposition at Berne.

English, French, German and American travelers make 60 per cent of the Swiss tourist trade. The war came early enough in the summer of 1914 to reduce the hotel receipts 40 per cent.

This season there has been practically no business.

FINDS BOY LOST YEARS.

Was Located in Company of Strange Man in Texas.

Fort Worth, Tex.—A four-year search through the United States and Canada for her eight-year-old son was ended here by Mrs. Julia Delo of Quebec, Canada, who identified the boy held by authorities here since the arrest of E. S. Carroll on March 5 as her son.

Carroll had been arrested on a charge of assault. He had been traveling around the country with the boy. Both told conflicting stories and were ordered held. Carroll, officials said, probably will be charged with abduction.

The boy recognized his mother immediately, although he was only four when he disappeared from home. Carroll's attorney filed a habeas corpus petition to regain possession of the child.

Marries Five Hundred Couples.

Rome, Ga.—Rev. T. R. Hanson, who resides five miles from Cave Spring, in this county, has reported to Ordinary Johnson that he had just solemnized the five hundredth marriage during his residence here.

ACCIDENTS KILL 25,000 WORKERS

Labor Bureau Publishes Statistics by Dr. Hoffman.

PROBLEM MUST BE MET.

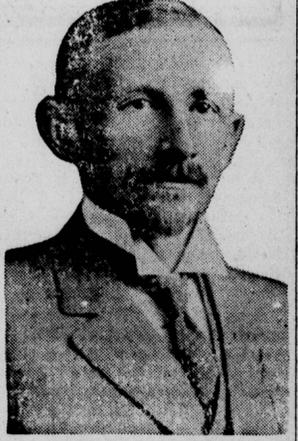

Declared That Compensation For Industrial Accidents Will Become Universal—Railroad and Agricultural Pursuits Responsible For More Than 4,000 Fatalities Annually.

Washington.—An important bulletin on the statistics of industrial accidents by Frederick L. Hoffman has just been issued by the United States department of labor. The New York Medical Record says in part:

"The abolition of the principle of workmen's compensation by more than half of the states within the last few years emphasizes the importance of the industrial accident problem and foreshadows the time when such compensation for industrial accidents will become universal throughout the United States.

"As one method of measuring this importance the bulletin presents an estimate of the number of fatal and non-fatal accidents occurring among American wage earners in a single year.

"The conclusion reached is that the number of fatal industrial accidents among American wage earners, includ-

FREDERICK L. HOFFMAN.

ing both sexes, may be conservatively estimated at 25,000 and the number of injuries involving a disability of more than four weeks, using the ratio of Austrian experience, at approximately 700,000.

"These numbers, impressive as they are, fail to indicate fully the number of industrial accidents, for such studies as have already been made show that of the accidents involving disabilities of one day and over at least three-fourths terminate during the first four weeks.

"The injuries which contribute the greatest number of fatal accidents, according to Science for Aug. 30, 1915, are railroad employments and agricultural pursuits, each group being responsible for approximately 4,200 fatalities each year. Coal mining contributes more than 2,600 and building and construction work nearly 1,900. General manufacturing, while employing large numbers, produces only about 1,800 fatal accidents.

"When the fatality rates are considered, metal mining ranks as most hazardous, with a rate of four per thousand; coal mining comes next with a rate of 3.5, and fisheries and navigation following with a rate of three per thousand.

"Manufacturing industries as a whole rank lowest, with a rate of 0.25 per thousand, but the fact should not be overlooked that this low average rate covers manufacturing groups varying widely in hazard, including on the one hand boilermaking and the various departments of the iron and steel industry, in some of which fatality rates as high as those in metal and coal mining have prevailed, and on the other hand the textile and clothing industries, in some of which the risk of fatal accident is practically negligible.

"These estimates are derived from the best sources available. At the present time there are no entirely complete and trustworthy industrial accident statistics for even a single important industry in the United States. This lack of trustworthy industrial accident statistics is due to the absence of any uniform requirements in the various states as to the reports of industrial accidents."

TWO BOYS CAUGHT WOLF.

Bagged Him With Gunny Sack Near Small Town.

Kansas City.—Cecil Lattimer, twelve years old, and his brother, James Edgar, ten years old, sons of J. J. Lattimer of Independence, took a wolf scalp to the county clerk's office in that city recently and claimed the bounty of \$3.

The boys said they captured the wolf on the Frazier farm, southeast of Independence. When they saw it run into a hollow log. They procured a gunny sack and tied it over the opening of the log and then scared the wolf out into the sack.

Trifling actions affect a man's credit. The sound of your hammer at five in the morning or nine at night heard by a creditor makes him easy six months longer.

—BENJAMIN FRANKLIN.

It is a time now to let your creditors hear the sound of your hammer; it is a time to get busy and establish a reputation for yourself as a live wire; it is a time above all others to advertise your business—to go out after the business that the other fellow is letting slip through not keeping his name and goods before the public.

This is the season of the year when the big mail order houses load up the farmers and city people with their catalogs. And it would pay the merchant to take a tip from them and advertise his own wares extensively.

The Washington Standard is a reliable medium that is welcomed into the homes of the people whom the merchant wants to reach—a class of people who do not want a cheap paper, but a reliable paper, filled with the news of their own vicinity—a class of people reached by no other Olympia newspaper, the farmers of Thurston county.

Take "Poor Richard's" tip and let people hear your hammer going

ORDINANCE NO. 1404.

AN ORDINANCE APPROVING AND Confirming the Assessment and Assessment Roll of Local Improvement District No. 181, for the improvement of Both Roadways on Maple Park From Jefferson Street to Main Street; Seventeenth Street From Main Street to Main Street; Franklin Street From Maple Park to Eighteenth Street; by Paving the Same With Asphalt Laid on a Proper Concrete Foundation, With Concrete Curbs, Gutters and Sidewalks, Together With All Sewers Necessary, Under Ordinance No. 1364, and Levying and Assessing the Amounts Thereof Against the Several Lots, Tracts, Parcels of Land and Other Property as Shown on Said Roll, Establishing a Local Improvement Fund, Providing the Period During which such tax shall be Paid, and Fixing a Date for the Issuance of Bonds.

The City Council of the City of Olympia do ordain as follows:

Section 1. That the assessment and assessment roll of Local Improvement District No. 181 for the improvement of both roadways on Maple Park from Jefferson street to Main street; Seventeenth street from Jefferson street to Main street; Franklin street from Maple Park to Eighteenth street by paving the same with asphalt, laid on a proper concrete foundation, with concrete curbs, gutters and sidewalks, together with all sewers necessary, under Ordinance No. 1364, as the same now stands, be, and the same is hereby in all things approved and confirmed.

Section 2. That each of the lots, tracts, parcels of land and other property shown upon said roll is hereby declared to be specially benefited by said improvement in at least the amount charged against the same and that the assessment appearing against the same is in proportion to the several assessments appearing upon said roll. There is hereby levied and assessed against each such lot, tract, parcel of land and other property appearing upon such roll the amount finally charged against the same thereon.

Section 3. That for the purpose of this improvement there is hereby created and established a special fund to be called "Local Improvement Fund, District No. 181."

Section 4. That the 8th day of November, 1915, is hereby fixed as the date of the bonds required to be issued on account of this improvement.

Section 5. That the respective sums charged by such assessment against each of such lots, tracts, and parcels of land and other property, or any portion of such sum, may be paid at any time within thirty (30) days from the date of the first publication of notice, as provided by law, by the City Treasurer, that the assessment roll be placed in her hands for collection, without

penalty, interest or costs, and that thereon the sum remaining unpaid may be paid in equal annual installments, in redemption of bonds duly issued therefor in accordance with law, the ordinances of said city and section four of said Ordinance No. 1364, effective April 8th, 1915.

Passed September 15, 1915.
Approved September 16, 1915.
