**A New Plan Combined with An Old Idea**

**THE OLYMPIA GROCETERIA**

is the NEW PLAN. Here, the goods and prices are in plain sight. The stock is fresh, the baskets handy, and the clerks accommodating. If you wish, pick out what you desire, have the goods wrapped at the counter, pay your money, and make the total discount of 5 cents on the dollar. Or, if you wish, tell the clerk what you want—in person—or by phone. He will deliver and collect at your door, and you will make a saving of 5 cents on the dollar.

**THE SAVINGS FEATURE**

is the OLD IDEA. Everybody does, and should, wish to save. The habit, as well as the money, makes it worth while. Do you realize that the average saving effected at this store, if invested at 8 per cent interest would in twenty years amount to the large total of \$1,145.90? Do you realize what this money would mean to that growing boy or girl when they reach their majority?

**These Things Are Worth Considering**

Consult our store manager as to our special plans to save you money.

First plan saves you 5 per cent.  
Second plan saves you 8 per cent.  
Third plan saves you 13 per cent.

Isn't it worth while to have an up-to-date concern pay you interest on what you spend?

**Fairmont Coffee**

40c per pound 2 pounds for 75c

Justly, the readers of this advertisement ask the reason for this brand's superior quality.

**Listen:**

There is just as great a difference in coffee as in any other food product. The reasons why FAIRMONT COFFEE is considered the best are simply these:

Seven kinds of the highest priced coffees are blended—steel cut—no chaff—roasted and packed in tins, and when raw material of the highest quality is used, the finished product will be of the highest grade.

The man that knows how has roasted every pound of coffee which goes into the cans bearing the name FAIRMONT, and on every can is the trade-mark of the TAGOMA GROCERY CO.

Try a pound or two and be convinced of its superior quality.

You can buy it from the following Olympia grocers:
