**Record by Knight-Motored Car.**  
Local auto fans have taken considerable interest in the record made by the Stearns-Knight touring car owned by Frank M. Lamborn, state printer, which so convinced him that he wanted a Knight-motored car that that last week he bought a Model 84 Willys-Knight roadster from the Bronson & LaGue Auto company, similar to the one driven by State Auditor C. W. Clausen. In the last three years Mr. Lamborn drove his Stearns car 17,000 miles before having the motor overhauled or the carbon removed, which is considered an unusual record for an engine.

**County Buys Dodge Car.**  
The Rose-Nepple Auto company this week delivered a Dodge Brothers touring car to the county, for the use of the sheriff's office, the purchase having been authorized by the county commissioners at their meeting last Monday. This company also reports the delivery of a touring car last Saturday to Sam Price of Yelm.

Miss Louise Kratz of Plum Station is driving a new Model 75 Overland touring car, purchased during the past week from the Bronson & LaGue Auto company.

**Wolf Hustling for Nomination.**  
An active campaign which will take him to every part of the county before the September primaries is being carried on by Ernest L. Wolf, who recently announced his candidacy for the Republican nomination for county engineer. Mr. Wolf has lived in Olympia for nine years, and for four years was assistant city engineer. He was later employed as engineer by the state land office for two years and is a member of the local engineering firm of Van Epps & Wolf. He is well acquainted throughout the county, and was employed by the city of Tenino to supervise its paving.

**OLYMPIA ASTONISHED BY SIMPLE MIXTURE.**  
Olympia people are astonished at the INSTANT action of simple buckthorn bark, glycerine, etc., as mixed in Adler-I-ka. ONE SPOONFUL removes such surprising foul matter it relieves almost ANY CASE constipation, sour stomach or gas. Because Adler-I-ka acts on BOTH lower and upper bowel, a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. F. G. Munson Drug Co., 201 East Fourth.

**A Timely Warning**

**E**VEN well-known automobiles have advanced in price within the last ninety days.

The Maxwell Company has not increased their prices. We do not know what their plans are, but we do know *and you know* that materials entering into the construction of good automobiles now cost from 20 to 300 per cent more than they did six months ago.

Nothing is to be gained by delay. Much may be lost.

Not only may you lose several dollars in the purchase price, but you are sacrificing the enjoyment, the relaxation, the health-giving properties—everything, in fact, that makes motoring the favorite pastime of the nation.

We urge you to come in and investigate the Maxwell.

Or, we will refer you to any number of Maxwell owners and let them tell you their own story in their own way.

They will tell you what they have told us. That the Maxwell is good-looking—that it is powerful—that it is comfortable—that it is economical—in short, that it is the best investment they ever made. They will tell you more and they will tell you gladly and freely.

That's the way they feel toward us and the Maxwell Car.

Whatever you do, don't put this off. We have a few cars on hand and can take orders for immediate or future delivery—at present prices. If you can't come in today, phone us for a Maxwell demonstration.
