LACKY NOT DESERTER, MOTHER TELLS BOARD

Deputy Sheriff Fred W. McCorkle received word the fore part of this week from the mother of Hutson Andrew Lackey that the latter is not a deserter from Thurston county's contingent to the national army, as reported by the local selection board, but is a member of the 361st infantry at American Lake and has been there several months. Lackey had been working at a mill near Nisqually and failed to report to the local board when notified to go to camp with one of the local contingents. Instead he apparently went direct to the camp.

SOLDIERS TO GIVE ROUND-UP HERE.

Arrangements are being made for the holding of a big round-up in Olympia Saturday, November 24, in the south end, by the 348th field artillery. It is expected that one of the biggest crowds ever gathered in Olympia from the various parts of Southwestern Washington will be here. Representatives of the backers of the show were here from Camp Lewis Thursday making arrangements. The round-up at Camp Lewis last Sunday proved to be such a success that it was decided to give an outside performance and Olympia was selected, as it is near to Camp Lewis and a central place for the people of Southwestern Washington to gather.

Mrs. J. F. McCorkle is now in Superior, Colo., with her mother, who is very ill. Mr. Tom Nightingale is rejoicing over the fact that he now has a well

SUGAR PURCHASES ARE LIMITED NOW

STATE'S FOOD ADMINISTRATOR ANNOUNCES NEW REGULATIONS.

Limitations on the sale of sugar in this state, prohibiting the purchase of a larger quantity than a dollar's worth at a time by city residents and of more than 25-pound lots by farmers, were announced this week by Charles Hebbard of Spokane, federal food administrator for this state, with the approval of the national food administration.

The regulations are promulgated to prevent a "sugar scare" in this state and consequent large purchases and hoarding by consumers, first so that the distribution of sugar throughout the United States may be equalized and the present shortage in the New England states overcome, but principally to enable the United States to supply its allies with all that they need.

There is no shortage of sugar in the Northwest, Administrator Hebbard says, but one might easily be produced through wholesale purchases by consumers. Consequently the following regulations were put into effect:

1. Sales to family consumers limited to \$1 purchases.
2. Hotels, restaurants, boarding houses, etc., requiring more than that amount, will be permitted to purchase 10 days' supply.
3. Farmers or others living a distance from the city will be permitted to purchase in 25-pound lots.
4. All grocers are requested to report to the Federal Food Administrator, Spokane, the names and addresses of all purchasers buying in quantities in excess of \$1.
5. Sugar shall not be used as a leader for special sales or to encourage the sale of other commodities.

DISLOYALTY AROUSES DEFENSE COUNCIL

MEYER'S STATEMENTS RESULT IN APPOINTMENT OF SPECIAL COMMITTEE.

Declarations by Herman Meyer, a German and Socialist and proprietor of a local furniture store, that the United States is a "government that only supports parasites" and that he will not support it in the present war, reported by a committee of local business men who solicited a contribution from him to the War Camp Recreation Fund last week, has resulted in the County Council of Defense appointing a special committee to investigate and deal with all cases of disloyalty that may be noted in the city and county.

The conversation in which Meyer is charged with having made his statements was reported to the executive committee of the County Council at a meeting last Friday evening, by the committee which called on him, consisting of George G. Mills, C. A. Rose and Fred W. Convery. The Council gave immediate publicity to the statements, which are said to have ended with the flat assertion, "No, I'm not with you." The Meyer family now is reported to be endeavoring to explain away the disloyal assertions.

Meyer's reported statements formed one of the chief topics discussed at a meeting of the Men's Brotherhood of the Methodist church the same evening, attended by some 60 men, at the close of which resolutions strongly condemning all disloyalty and referring particularly to Meyer, were unanimously adopted.

The resolutions also pledge the loyal co-operation of the Brotherhood in the prosecution of the war, and ask the city's officials "to keep our city free from the various forms of vice and clean in every way, to the end that our community may be one in which the commanding officers at Camp Lewis will not be afraid to have their men our guests."

YOUNG GOLDSBY NOT HERE, SAYS SHERIFF

BLACK LAKE BOY, WANTED AS "SLACKER," NOT AT HOME AS REPORTED

Dell Goldsby, son of John Goldsby of Black Lake, who is wanted by the war department for failure to report to the local selection board for physical examination when notified, is not at Black Lake, Sheriff Jack Gifford stated Wednesday upon his return from another investigation.

Many stories have been afloat during the past month with reference to young Goldsby and a threat his father is alleged to have made, to "shoot the first ——— that comes out here after my boy." Sheriff Gifford says the elder Goldsby denied having made such a threat and offered no resistance of any kind. Other stories have been to the effect that young Goldsby is hiding in the woods near the lake, but the sheriff says that previous investigations, inquiries made by others and the investigation he made this week convince him that the young man is not in that vicinity.

The elder Goldsby told the sheriff his son had been gone since along in the summer and that he does not know where he is, citing the fact that he had not forwarded mail for the young man, addressed to him at Black Lake, because he did not know where to send it. He also suggested his son might have enlisted.

The investigation, which Sheriff Gifford has carried on for the past month, will be continued until young Goldsby is located.

More Auto Lenses Approved.

ration of their answers to the questions which all men subject to the draft are required to submit.

"I ask the doctors of the county to identify themselves with the medical advisory boards which are to be constituted in the various districts throughout the United States for the purpose of making a systematic physical examination of registrants.

Duty of Police.

"It is important also that police officials of every grade and class should be informed of their duty under the selective service law and regulations to search for persons who do not respond promptly and to serve the summons of local and district boards.

"Newspapers can be of very great assistance in giving wide publicity to the requirements of the law and regulations and to the numbers and names of those who are called to present themselves to their local boards from day to day.

"Finally, I ask that during the time specified as marking the 60-day period of classification all citizens give attention to the task in hand in order that the process may proceed to a conclusion with swiftness and with even and considerate justice to all."

Concerning the workings of the new system, Provost Marshal General Crowder's office gave out the following statement:

Only One Form.

"The questionnaire, which is the basis of the new system, is a collection of questions bringing out the essential facts upon which all classifications are made. It is the only printed form which any registrant needs in making claims or filing proof. At first sight it may seem a little formidable, but a reading of the questions shows that they are simple enough for any person who can read and write understandingly.

"The president's message lines up the whole legal profession of the United States as associates of the selective service system as an impartial advisor to registrants in filling out their questionnaires. Under the new regulations a place is to be provided convenient to every local board that registrants may go for free advice and assistance in making out this card. The county judge or other officer of similar court is placed at the head of a committee of lawyers in each vicinity, and this committee is charged with the duty of seeing that there are always plenty of lawyers and other volunteers present to help registrants in filling out the questionnaire.

Start Classification December 15.

"Questionnaires are to be mailed by the local board to 5 per cent of the registrants each day. The principal work of the legal advisory boards will thus be over in 20 days, by which time all the questionnaires should be returned to the boards.

"The process of classification will begin about December 15. Eight days later the boards will begin the great process of classification, which becomes in the words of the president, 'a national war undertaking of such significance as to challenge the attention and compel the assistance of every American.'"

One thing certain as a result of this announcement is that there will be no second draft until after the middle of next February as the 60-

day reorganization will not have expired until then.

government during the war. Replying to this, one of the speakers, Mr. Stone, who formerly lived at Bremerton, said that what he had learned there convinced him that a permanently improved highway from Bremerton to Camp Lewis, American lake, would be an absolute necessity soon, that such work was already under way from the Bremerton end, and that the construction of a bridge over the Des Chutes river capable of meeting military requirements might soon be required for military reasons. Hence, he argued, it would be patriotic for the county to undertake the highway and bridge plan now.
