## Don't Let Your Boy Read This

Unless you are directly interested in seeing him develop into a well to do and worth while citizen.

If you are so interested, help us to make him understand these fundamental facts of his life:

That Olympia, as the seat of state government and as a community in itself will be worthy of the best manhood he can attain.

That to be himself worthy he must be independent straightforward and able to find the means of making his efforts win.

That thrift will equip him with both this discipline and the means, and thrift is simply saving through the ordinary days for the extraordinary ones that come to every man who is ready for them.

Destiny bows to the boy who has learned the value of a savings account.

## Engine Prices SMASHED!

Smashed!! The props knocked clear from under them and you can now get

### A BETTER FARM ENGINE For One-Third the Money

you have had to pay for engines of same power. Here's the way it is done: I buy used automobiles, knock them down, and sell the engines and other good auto parts at a fraction of the manufacturers' prices.

Listen. You know for its power (20 to 70 h. p.), that an auto engine is light and compact, that it has a wide range of speeds, that it runs smoothly and is easy on the fuel tank. When properly mounted with our own special patent governor, it will make you a general utility engine that can't be beat.

If you want to save money and get real values send for my catalog. Just fill out coupon and mail to

## COMFORTABLE DOLLARS

Some day, when otherwise the world would look "cold and dreary," your savings will bring you comfort as nothing else could.

They will stand between you and uncharitable people. They will warm when the world is cold. They will feed you when you are hungry. They will keep "charity" at arm's length.

Saving isn't hard; it's easy. It's all a matter of getting started. Ask us to suggest a plan of saving for you.
