*Into your memory*  
*It will save you money*

Overdue shipments of Fall and Winter Shoes have arrived. Few orders have been filled complete, the scarcity of shoes being felt by all dealers. There were 75,000,000 less pairs produced in the first three months of this year than last year. Our contracts were early in the year at prices far lower than present prices. This saving is passed on to you. Our advice is to buy now.

**City Council Doings**

The city council Tuesday evening almost made a deal with Morris Brothers, Inc., a Portland investment firm, to sell direct to it all bonds issued on city improvements during the next 15 months, but postponed decision when Councilmen Draham and McKinney expressed a desire for more time to investigate.

Continued from Page One.

itself will be a large job. After the canvassing is completed, the answers to questions will be entered upon cards; these will be given to the pastors concerned, and each denomination will then proceed as it sees fit.

There has been much speculation as to the population of Olympia, which will be revealed by the decennial census to be taken by the government next January. The results of the church survey will furnish a basis for estimates.

Fred Chipman, a passenger in a taxi driven by Pearl Madden, was badly cut about the face and neck by flying glass when the Studebaker car on which he was riding crashed into a Hudson touring car driven by P. T. Malloy. The accident occurred at Union and Franklin streets about 3 o'clock Sunday afternoon.
