## DE MILLE'S LATEST SENSATION AT RAY

"MALE AND FEMALE," A GORGEOUS PRODUCTION, EXPECTED TO CREATE INTEREST.

Heralded as one of the most magnificent screen productions of the year, Cecil B. De Mille's latest triumph, "Male and Female," comes to the Ray theater next Tuesday, as the successor to "The Miracle Man."

"Male and Female," adapted for the screen by Jeanie MacPherson from Sir James M. Barrie's famous play, "The Admirable Crichton," is a lavish reproduction of the popular Barrie play.

Barrie's whimsical story of the super-intelligent English butler, who dominated a party of lords and ladies on a desert island and finally refused an offer of marriage from his master's daughter, has delighted thousands. The theme is carried throughout in the photoplay, yet De Mille has grasped every opportunity for the use of tremendous scenic display, beautiful costuming and breath-taking effects.

The "Male and Female" cast is headed by Thomas Meihan and Gloria Swanson, and contains such stars and near-stars as Theodore Roberts, Raymond Hatton, Lila Lee, Bebe Daniels, Robert Cain, Mildred Reardon, Wesley Barry, Guy Oliver and a host of others. It is destined for a big success when exhibited here.

perity and health be with him wherever his lot may be cast.

There was a large attendance of ladies at the home of Mrs. Ahearn Thursday of last week. The afternoon was spent in sewing.

# MALE and FEMALE

Founded on J. M. BARRIE'S FAMOUS PLAY "THE ADMIRABLE CRICHTON"  
Adapted for the screen by JEANIE MACPHERSON

If our lives could begin again! If tomorrow we could wake, as male and female only, in a world where wealth, laws, conventions, morals, classes meant nothing. Who then would rule, who serve, who love?

See the answer in this great picture! A vital story of blue blood and red, with an all-star cast and scenes of alluring beauty.

Founded on J. M. Barrie's famous play "The Admirable Crichton." Adapted for the screen by Jeanie Macpherson.

## Removing the Cause of Disease

**IF YOU ARE NOT WELL AND HAVE TRIED EVERYTHING ELSE WITH NO LASTING RESULTS, TRY CHIROPRACTIC (SPINAL) ADJUSTMENTS AND GET WELL**

Slight displacements at this point will cause headaches, eye diseases, deafness, epilepsy, vertigo, insomnia, wry neck, facial paralysis, locomotor ataxia, etc.

A slight displacement of a vertebra in this part of the spine is the cause of throat trouble, neuralgia in the shoulders and arms, goitre, nervous prostration, la grippe, dizziness, bleeding from the nose, catarrh, etc.

This arrow head locates the part of the spine wherein subluxations will cause bronchitis, felons, pain between the shoulder blades, rheumatism of arms and shoulders, hay fever, boils, etc.

A vertebral displacement at this point causes heart disease, asthma, pneumonia, tuberculosis, difficult breathing, other lung troubles, writers' cramp, etc.

Stomach and liver troubles, enlargement of spleen, pleurisy and other diseases are caused by displacements in this part of the spine, so slight as to be unnoticed by other than the Scientific Chiropractor.

Here we find the cause of gall stones, dyspepsia of upper bowels, typhoid fever, shingles, hicough, worms, etc.

Bright's disease, diabetes, floating kidney, ovarian troubles, skin diseases, eruptions and other diseases are caused by nerves being pinched in the spinal "windows" at this point.

Care of such diseases as appendicitis, bladder disease, peritonitis, uterine troubles, irregular menses, lumbago, etc., follow spinal adjustment at this point.

Why have constipation, rectal troubles, piles, sciatica, prostatic trouble, etc., when scientific adjustment at this part of the spine will be followed by cure?

A slight slippage of one or both innominate bones will likewise produce sciatica, rectal, uterine and prostatic troubles, together with many other diseases of the pelvis and lower extremities.

Chiropractic will keep you in good health, as well as restore you to health. One adjustment a week, if you are in normal health, will add years to your life. Good for old and young. Consultation free; terms reasonable.
