FORDSON TRACTOR MAKES RECORD RUN

Plows 40 Days and Nights; Turns 900 Acres Without One Repair.

Stopping only for gasoline and oil, a Fordson tractor owned by N. Korpua of Lunden, Dicky County, North Dakota, recently completed a record run of forty days and nights. Three operators were assigned to the tractor each working an eight hour shift, and thus keeping the tractor in operation twenty-four hours a day. "Nine hundred acres were plowed without one minute's stop for repairs", says the affidavit received by the Ford company from the Fordson owner.

The tractor was purchased during the summer of 1919. In the spring of 1920, Korpua began his plowing and had already turned 200 acres before he conceived the idea of working the tractor day and night.

Electric head lights were installed operators were obtained, and with no

further special preparations, the little Fordson entered upon what turned out to be a record run for endurance.

FORTIFIED AGAINST COLD

This little maid is comfortably and smartly clad for school in a coat of heavy homespun fortified with a short cape and roomy patch pockets. The cape is meant to snuggle up about the throat in very cold weather.

COAT WITH CAPE COLLAR

Nearly all coats carry about them somewhere the suggestion of a cape, but there is one that boldly appropriates a short cape and uses it instead of a collar, thereby adding to its warmth and good style.

HATS SMILE AT WINTER

The young daughters of smart mothers will wear lovely beaver and felt hats this winter, trimmed with handsome ribbon. Two hats in the long-napped variety appear above. Below them are two pretty fabric hats, both made of velvet. One of them is finished with yarn needlework and the other with a ribbon sash.

NATIONAL AUDUBON SOCIETIES SEEK ENFORCEMENT BIRD LAW

President Pearson Advocates Federal Hunting License to Raise Funds for Bird Reservations.

Announcement has just been made of the election of T. Gilbert Pearson as president of the National Association of Audubon Societies, to succeed the late William Dutcher who organized the association fifteen years ago.

In accepting the presidency, Mr. Pearson before the annual convention advocated a federal hunting license of fifty cents, with a view to raising \$1,000,000 which could be used in establishing additional bird reservations and in enforcing the provisions of the Migratory Bird Treaty Act, the upholding of which by the Supreme Court he characterized as the most important event in the field of bird protection in the past year.

tional parks at the expense of the countries richest bird sanctuaries.

In the report as secretary, Mr. Pearson said more than 280,000 school children had been enrolled as members of the Association during the past school year, to whom three million educational leaflets on birds had been distributed. The largest enrollment of sustaining members was reported, 4,380 of the five dollar members having been enrolled with 212 life memberships at \$100 each.

Thirty-seven wardens were reported to have been engaged by the association last year in the protection of important breeding places of water birds.

PEARL'S TWIN CALVES NO HANDICAP

Having twin calves didn't stop this industrious cow from going out after a milk and butter fat record. And she got it. Her name is Pearl of Pomeroy, and she is owned by D. D. Tenney of Crystal Bay, Minn. This makes her third advanced register record at 5 years old, 11,798.9 pounds of milk and 58,367 pounds of butter fat, carried the twin calves, shows here, 275 days of that time. She is a Guernsey.
