## NATIONAL HOLSTEIN LEADER SPEAKS IN SENATE CHAMBER

Senator Bishop Arranges Joint Meeting of Dairy and Livestock Committees Friday Night.

Holstein enthusiasts will be welcome in the Senate chamber on Friday evening, according to an announcement made by Senator William Bishop just before adjournment Wednesday afternoon. There will be a joint meeting of the dairy and livestock committees of the two houses which will be addressed by L. L. Atkin of Flint, Michigan, president of the Holstein Breeders' association of North America. Senator Bishop, chairman of the Senate dairy and livestock committee, invited the business men and farmers of Olympia and Thurston county to attend the meeting as guests of the joint committee.

Mr. Atkin is making a tour of the counties of Washington for the purpose of organizing county Holstein breeders' associations and his schedule brings him into Thurston county at an opportune time to meet the legislative committee. The Senator himself is one of the most successful dairy men in the state, his stock and a dairy farm at Chimacum in county being considered one of the agricultural show places of the state.

to please his royal highness, Only 25c

### Shirts

Dressy Outside Shirts. Any boy's pride—\$1.25 to \$2.00

Mottman Mercantile Company

## HIGHWAY CONSTRUCTION GETS SENATE SUPPORT

Two Measures Carrying More Than Five Million Dollars Pass for Immediate Effect.

Completion of present construction and the making of new contracts on state highways are provided in two measures passed by the senate on Thursday morning, and in addition Senator Wray succeeded in rushing senate bill 41, transferring \$13,000 from the clerks' fund to the travelling fund of the public service commission so that engineers can proceed with their work. All were ordered to take effect immediately.

Senate bill No. 39, recommended for passage by the committee on roads and bridges, appropriates the sum of \$4,400,000 from the public highway fund to complete contracts and construction work now in force on permanent highways for the purpose of making payment on new contracts on permanent highways and for the maintenance of permanent highways.

Senate bill No. 40, also recommended for passage by the roads and bridges committee, re-appropriates \$350,651.09 from the public highway fund, and \$431,200 from the motor vehicle fund for use by the state highway board on the Cascade road in Skagit county, and portions of the following highways: Central Washington, from Connell north; Inland Empire, McClellan Pass, National Park, North Bank, Ocean Beach, Olympic, Pacific, and Sunset.

Senator Bishop Worries About Pork. Senator Oliver Hall of Whitman, chairman of the roads and bridges committee, had a jocular colloquy with Senator Bishop concerning the erstwhile pork barrel method. The senator from Chimacum wanted to know if the recommendations would be made by the committee under the old method, but Senator Hall asserted that since most of the road work assigned would benefit the west side, the Olympic peninsula solon was entitled to all the pork he could get out of it, and all the better if he could get a bridge across the Sound out of it.

Pierce and Spokane are going to have county law libraries just as well as King county, according to senate bill No. 16, introduced by Senator Westfall of Spokane, which passed. The present law permits counties of 300,000 population to establish county libraries, but since King county is the only county coming under this classification no other county can act under this provision. If the bill passes the house and is signed by the governor, counties of 125,000 can do so. Every member present voted for the bill except Dan Landon, who objected to subsidizing lawyers.

Senate joint resolution No. 5 was introduced by Senator Fawcett of Pierce, calling for the appointment of two members of the senate by the president and three members of the house by the speaker to constitute a joint committee of the two houses to investigate the failure of the Scandinavian-American bank of Tacoma, to ascertain the cause of the failure, and if there are any defects in the state banking laws. The resolution, after second reading, was referred to a committee on banks and banking.

## TEXAS CAFE

## Sterling Silver

All factories have announced a cut of 20 per cent on all sterling silver, and every sterling silver article in our stock has been cut 20 per cent. It will be our policy, all through this period of readjustment, to follow the market in all reductions that may come.

This reduction together with a previous 10 per cent reduction last August, brings Sterling Silver within the reach of all.

If you have planned for a pattern in sterling, now is the time to start it.
