

HENRY FORD NEEDS NO MONEY FROM WALL STREET LOAN SHARKS

Entire Payroll of 43,000 Men Will Be Employed on Alternating Two-Week Periods Until Full Capacity Production Is Resumed

By REX F. GLASSON, (Copyright, 1921, by The United Press.) (Copyrighted in Canada.) Detroit, Mich., Feb. 12.—Henry Ford doesn't need any money from Wall street "loan sharks," he declared in an exclusive interview for the United Press.

He received orders for 67,000 automobiles in January, he said. He expects business conditions to improve.

Ford is not going to cut wages, he said. The \$6 a day minimum in his plants will remain in force. Ten thousand men are now employed in the Ford plants. The entire payroll of 43,000 men will be employed on alternating two-week periods until full capacity production is resumed.

Price of Steel Forced Down. A good feature of the existing industrial situation is that the price of steel is being forced down, Ford declared.

"The motor industry is the mainstay of practically all other enterprises and its future is assured so long as the world keeps moving," Ford said.

"The world today is on wheels and I am certain that it always will be. The motor industry is called upon to supply those wheels, and the demand is getting stronger all the time."

This is Ford's answer to those who are saying that the automotive industry has reached the end of its rope.

"But what about financing the industry; have you succeeded in getting that \$75,000,000 yet?" the interviewer asked.

Didn't Know He Needed Loans. "I didn't know we needed it until a few loan sharks came out and tried to tell us we did," Ford replied, with a laugh. "But, I think we proved to a few of them that we could take care of ourselves."

While Ford talked of the future of the industry he walked about his experimental shop in his Dearborn plant and stopped before a wheel propped up in a corner, which he studied carefully. It apparently was to be used in working out some new Ford idea, because it was the only object that held the attention of the motor king in this room, his inner shrine, in which many of his patents have been worked out and into which few are permitted to enter.

Seven or eight mechanical experts were busy in different parts of the room, working on machinery and blue prints.

"What is being done here, Mr. Ford?" the interviewer asked.

"Oh, we are just working out a few new ideas for some of our machinery," he replied. "You know, there is always something that can be improved upon."

Many Photographs in Private Office. In Ford's private office were many photographs, among them those of Thomas Edison, the electric wizard and close friend of Mr. Ford; John Burroughs, the famous naturalist, who is another intimate friend, and the Prince of Wales.

In one corner was a black leather chair and into this Mr. Ford sank.

"What would you say about future business conditions, Mr. Ford?" the interviewer pursued. "Will they ever return to normal?"

The answer to the question: "Will business ever get back to normal," is: it always did before.

"It may take six months; it may take a year, or even ten, before business is again normal, but it will get back."

"But then, as I said before, the motor industry's future is assured. It is necessary to keep this moving."

"The pace of the world would slow down if it were not for motors. That will never happen. So you can see what is demanded and will be demanded of the industry."

"Why, then," he was asked, "did you close your plants in December? Is it true that the closing was forced by hard times?"

"We have not experienced any hard times in our business," said Ford. "We received 67,000 orders in January," Ford said.

Closed Down to Make Changes. "We closed down to make a number of important changes."

This was his only reference, for publication, to the resignations of Frank Klingensmith, vice president and treasurer of the company, and other high officials.

"Before we closed," he went on, "we were employing about 43,000 men in our Highland Park plant. At the present time we have brought back nearly half that number. Next week we are going to bring back the other half. The first crew will step out for two weeks while the other works. Then the first will come back for two weeks. This rotating system will be used until we gradually get to a point where we find it necessary to put on a full quota."

At the present time married men and others with dependents are being given the preference. That seems to be the fairest way.

"Are you going to cut three men's pay?" he was asked.

"Certainly not," Ford replied, with emphasis. "Nobody in our employ is going to starve while the readjustment is going on either. Our sociological department, despite reports to the contrary, is now in the best shape it has ever been to look up and handle deserving cases."

"There is one good thing that has come out of this present situation," Ford continued. "And that is it is forcing down the price of steel. The steel interests are now willing to take half a loaf rather than none."

That Ford has not changed his anti-semitic views was indicated during the course of the interview when he interrupted the conversation to ask:

"Have you been reading the articles in the Dearborn Independent?"

The interviewer said he had.

"I have a book containing the first 20 articles," Ford said. "Have you seen it?"

"No."

"Then I'll get you one."

He went down a corridor to another room and returned with a small booklet bearing the title "The International Jew."

"Read that," he said. "Every good newspaperman in the country ought to read those articles."

The interview also established the falsity of the many rumors that have been circulated to the effect that Ford is ill. He appeared to be in the best of health. He was as alert and active as ever; his face radiated the news that he was not ill and had not been ill recently.

CHEHALIS DEDICATES NEW ELKS' TEMPLE

Olympia's Antlered Herd Will Leave Saturday Morning to Attend Official Ceremony

A large number of Olympia Elks will drive to Chehalis next Saturday to attend the dedication of the new B. P. O. E. lodge in that city. According to announcement made today a dozen machines will leave Olympia Saturday morning for Chehalis to spend the day visiting the new lodge and attending the ceremonies.

At a meeting of the dedication committee of the Chehalis lodge, B. P. O. E., held this week plans were made for the dedication of the new \$125,000 home. There will be an all-day program with official dedicatory ceremonies taking place at 2:30 p. m. In order that the people of Chehalis and the vicinity, who are not Elks, may have an opportunity to inspect the building, an informal reception and inspection of the building will be held Friday evening, February 18 from 7 to 10 o'clock.

The following program has been arranged for the dedication ceremonies Saturday:

Friday evening, February 18—7:00 to 10:00 o'clock, informal reception and inspection for local people.

Saturday, February 19:

9:00 a. m. to 12 m., open house; inspection of home. Chehalis Elks bank will meet all trains and escort visitors to the home. "Josie," the like Elk, will be exhibited in front of the home. Light refreshments will be served free to all visiting Elks in the dining room during the day.

1:30 to 2:30 p. m., band concert in front of the home.

2:30 to 4:30 p. m., dedicatory services for Elks only. During this ceremony a special entertainment will be arranged for the ladies in the club rooms.

4:30 to 5:00 p. m., drill by boys of the State Training School.

7:00 p. m., Elks frolic. Carnival features and stunts by local and visiting Elks. During the evening informal dances will be held in the club rooms and in two halls centrally located. These will be free to Elks and their ladies.

WILL PRUNE AND SPRAY BRIGHTON PARK ON MONDAY

J. L. Stahl, Horticulturist, Will Give Demonstration at Farm of E. L. Hopkins

A pruning and spraying demonstration will be held Monday, February 21, on the farm of E. L. Hopkins, on the Boulevard road, for the benefit of the Hays, Lacey and Brighton Park communities of the Farm Bureau. J. L. Stahl, horticulturist at the Western Washington Experiment station, will deliver a lecture, and E. B. Stooker, agriculturist, will be the guiding hand. Interested horticulturists are welcome to come and bring their lunces. Coffee will be served.

Tuesday being a legal holiday, the next demonstration will be held on Wednesday in the Yelm community, and Thursday will find the experts busy in Grand Mound.

CARD AND LABEL LEAGUE MEETING

An adjourned meeting of the Card and Label League was held last Friday afternoon at the home of Mrs. Padgett on the corner of Fourteenth and Jefferson.

After a business session a number of legislative bills were discussed, also it was voted to have a debate on "Open Shop vs. Closed Shop" at the next meeting.

New members taken in were Mrs. Fred Miller, Mrs. Burt Flesher and R. A. Padgett.

Refreshments were served and altogether an enjoyable meeting was had.

The next regular meeting will be held Friday afternoon at Mrs. Miller's on North Central street.

Christian Science Lecture.

First Church of Christ, Scientist, Olympia, announces a free lecture on Christian Science by Ezra W. Palmer, C. S. B., of Denver, Colorado, member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, to be delivered at the Ray theater on Sunday, February 20th, at 3 p. m. The public is cordially invited to be present.—Adv.

County News

PENINSULA.

Mr. and Mrs. Walter Strand, of Burlington, Wash., and Grandpa Church, of Sunnyside, Wash., were here to attend the funeral of Elizabeth Church last week. Mrs. Strand is an aunt of the deceased.

The dance given at Alert Grange hall last Saturday night was a very enjoyable affair and a good time was reported.

A bouncing baby boy was born to Mr. and Mrs. Hugh Tension, of Butler's Cove, last Friday, February 11th.

Miss Helen Chard has been very sick this last week with quinsy.

George Chic has returned to his home on the Peninsula, after an absence of a couple of weeks.

Miss Sybil Juleson, Alfred Whitney and Mrs. W. Whitney, of Green Cove, attended the Missionary Alliance convention at the West Side chapel Tuesday evening. The talk by Miss Botham, of Sudan, Africa, was very interesting and the message brought by the evangelist, Miss Houser, of St. Paul, was inspiring and full of life.

Saturday night, February 19, will be the regular meeting night for Alert Grange. All strangers are requested to be present.

PUGET

Arthur Johnston spent Sunday afternoon at the S. Y. Bennett home.

Mrs. A. E. Larsen is suffering with a lame knee. Her granddaughter, Mrs. F. E. Giddings, is helping her with her work.

Mr. and Mrs. O. I. Evans and daughter Wilma were out to the farm for the week-end.

Harry Larsen is suffering with a very sore eye. A cable broke and hit him, causing him to have a painful injury to the eye.

S. M. Kegley is having a bad spell of asthma.

DESCHUTES AND YELM SUBSCRIBE PUREBRED STOCK

Livestock and Silo Study Tour Results in Five Farmers Signing Pledge

The live stock and silo study tour held in the Yelm and Deschutes communities of the farm bureau yesterday resulted in five farmers deciding to get rid of their scrub stock and get the pure-bred variety.

C. M. Hubbard, livestock extension specialist with the state college, gave a series of talks and lectures relating to the necessity of keeping purebred stock to avoid going on the red in the farm account book.

E. B. Stooker, county agriculturist, had general charge of the tour which was attended by 30 farmers. The party left Yelm at 9:30 o'clock in the morning and reached the J. Etka place fifteen minutes later, where the members inspected his Holstein herd. At ten minutes after 10 o'clock they stopped at the D. R. Hughes' farm and looked over his registered Jersey herd and his silo.

At 11 o'clock they visited the F. Capen place and inspected his registered hogs and Jersey cattle. Half an hour later they gave the once over to the shorthorn herd on the J. A. McKenzie farm.

The noon hour was spent at luncheon at the home of Royal F. King and they afterwards inspected his Jersey herd and silo filled with oats. Mr. King stated that his silo was filled with oats harvested so late that it would have gone "haywire" if it had not been saved by the silo.

At 2 o'clock they stopped and sized up his silo filled with vetch, his dairy herd, and his rutabagas in the field. The herd of Jerseys on the farm of George Webber claimed attention and also the herd of O. I. C. hogs on the O. F. Hartline place together with his registered Holsteins and silo filled with corn and sunflower. The finale came at the home of Reed Conine with inspection of his O. I. C. hogs and herd of Holsteins.

Spring Waists Glow With Color

That's the secret of their becomingness for they are amazingly simple in style. The effectiveness of your Spring Suit increases tenfold when worn with the right blouse.

A special purchase enables us to offer you a number of amazing bargains in

BLOUSES—

Tricotine Minuets, made up in the new embroidery fringe and lace-trimmed, with belt and peplum; all the bright colors to be found in the assortment. Your choice, while they last. **\$3.89**

Minuets, made in dainty colors, Georgette Crepe, Tinsel and Chenille trimmings. While they last **\$3.89**

WAISTS—

A visit to our Waist Department will take the worry out of the selection of a new waist for you. You will find here just the thing to wear for afternoon and evening.

The Lingerie Waist, the Middy Blouse, in fact all kinds of waists and blouses awaiting your selection.

LESSON V.

Isaac and Ishmael. Read Genesis 21 to 25 inclusive. Introduction: After the events at Sodom, Abraham removes to Beersheba.

1. Tell about the birth of Isaac. Genesis 21:1-8. How was his birth extraordinary? What blood relation was Sarah to Abraham? Genesis 20:12.
2. What was the immediate cause of the casting out of Hagar and her son? Genesis 21:9. What did God promise her? Gen. 21:18.
3. What deception did Abraham use for the second time, and what peace covenant did he make with King Abimelech? Gen. 20 and 21.
4. Why was the "sacrificing" of Isaac such a severe test of Abraham's faith? Tell about it. Genesis 22.
5. What traits of character do you find in Abraham at the death of Sarah? Genesis 23. Where is Machpelah? 6. Describe Isaac's courtship and marriage. Genesis 24. How far is Beersheba from Haran? 7. Did Abraham marry again? Tell about it. What tribe of people grew out of this? 8. What event shows the friendly relations of Isaac and Ishmael? Gen. 25:8-10.
9. How many sons had Ishmael? Genesis 25:13-18.
10. How many sons had Isaac? What did the Lord answer to Rebekah? Genesis 25:23. Describe the boys and their manner of life. What do you think of the parental partiality in verse 28?

HOLSTEIN BREEDERS SELECT DELEGATES TO SEATTLE MEET

Richard Ayer and J. B. Taylor Admitted to Membership in County Association.

Eight enthusiastic breeders were present at the third meeting of the Holstein Breeders' Association of Thurston, which was held in the assembly hall of the Chamber of Commerce last evening. R. J. Kerley, of this vicinity, an D. J. Taylor, of Bucoda, were elected delegates to the state convention of Holstein breeders, which will be held at 1 o'clock in

the afternoon of March 1 in the Frye hotel in Seattle.

Richard Ayer, of Ayer Brothers, and J. B. Taylor were admitted to membership, the latter with a double distinction. One was being elected a state delegate as soon as admitted, and the other of being the Holstein breeder who brought the first registered Holstein bull into Thurston county 18 years ago. He now has a fine herd of some dozen or more registered cows. His fellow members

call him a booster for the Holstein breed.

Stanley Butchart, state secretary, was present and launched plans for a Holstein show to be put on some time this fall. He went from here to Lewis county to be present at a similar meeting tonight in Chehalis at the meeting of one of the largest associations of the state, having some 30 members, according to Chester Bells, secretary of the Thurston association.

The Winning Punch

Achievement is not accidental. There are sound reasons back of every success. Ambition is the first need because a purposeless man is a shiftless man. Industry is indispensable because lazy people do not get far in life. Thrift nets gains. Without it the fruit of effort is lost. Foresight illumines future needs and opportunities. Initiative turns intention into action, making progress possible. These qualities make up the winning punch of achievement. And they are all represented in the act of opening a bank account. Put in your punch in the form of deposits with

Olympia National Bank

The Bank of Service and Courtesy

BEEMAN
GARDEN TRACTOR

Beeman Tractor

Replaces the horse on large and small farms, truck farms, fruit farms and berry farms.

It will Plow, Harrow and Cultivate, haul Lawn Mowers, Carts, Wagons, Mowing Machines, just as easy as it will run your Pump, Cream Separator, Churn, Washing Machine, Feed Grinder and Circular Saw.

It trots from job to job under its own power.

Perhaps you are going to buy a seed drill this spring. If so come in and let's talk over the John Deer drills—
