Easy Running is the GREAT POINT in a wagon. In the

Bettendarff All Steel Gear

you get a wagon that runs easy, because the axles never spring under a load, and the gather in the wheels is the same loaded or empty. It will never rot, and the seams can't come loose. Call and see this wagon—it will pay you.

Read This Carefully. I am making lots of Farm Loans. There are reasons for this. I can close a loan for you in three days after taking your application, for these reasons: You do not have to wait and pay for a man to examine the land. My company has oceans of money. You do not wait for them to sell your loan in New York or London before getting the cash. You can Pay Off at Any Time, without giving a day's notice of your intention so to do. All other companies require from 30 to 60 days notice on this point. I have so many different plans for making loans that some one is bound to suit. No one can give better rates. J. H.
