Spring is Here

NOW come the Pigs—Calves—Colts—Lambs. Time for work horses and mules to shed. Time to tone them up and drive out the worms.

Dr. Hess Stock Tonic

A Spring Conditioner and Worm Expeller

Feed it to your cows for its system-toning, bowel-cleansing, appetizing effects—and to condition them for calving. It means more milk. Feed it to brood sows and shoats to drive out the worms. It relieves brood sows of constipation. Excellent for ewes at lambing time. It contains Tonics for the digestion, Laxatives for the bowels, Diuretics for the kidneys, Vermifuges for the worms.

STATE FARM BUREAU NOTES

Gage county maintained a good lead in the Gift-Corn Campaign in Nebraska when a total of 7906 bushels was reported by F. C. Crocker of Filley, director of the project in this county. Cars were requisitioned and the corn is now on its way to the starving people of Europe and the Near East. It has been estimated that 5 bushels of corn would save the life of a child. Gage county takes the credit for saving nearly 1800 children. This project is closing with a rush in the corn belt states.

An expert potato grower located at Spurgeon, Colorado, 52 miles from the nearest railroad, was recently visited by a delegation of Farm Bureau members from Scotts Bluff county, consisting of A. C. Morrison, C. C. Parrish, L. A. Montz and Agricultural Agent Phil Sheldon. Mr. Spurgeon whose name was given to the town has given years of study to the potato industry. Seed from his fields test 100 per cent under the Colorado certification law and are 99 per cent free from disease. Despite his isolated place he is receiving the very top prices for his seed.

Nebraska University was the first institution in the United States to start Co-operative Marketing Courses, but since a request was sent out by J. R. Howard, president of the American Farm Bureau federation, asking the different colleges and universities to include such work in their curriculum, several favorable replies have been received, expressing the keenest interest in such courses. Thirteen schools give definite assurance that this work will be offered and twelve report that they have already made plans for such training.

In the neighborhood of 500 new members were secured in the farm bureau campaign held in Thayer county a week ago, according to the report of J. N. Norton, Chairman of the Organization Committee. J. A. Crawford of Beardley, Kansas, formerly campaign manager in Nebraska spoke at several meetings during the week. Mr. Norton said that Clean-Up Campaigns had been conducted the past week in Butler, Otoe, Gage, Lincoln and Scotts Bluff counties.

Opposition to the daylight saving bill, sponsored by the United States Chamber of Commerce has been taken by the executive committee of the Nebraska Farm Bureau federation. This action was taken at the last meeting of the board. The bill as proposed favors daylight saving five months in the year.

The offer of the Farmers' Union State Exchange to give wholesale prices to all farm bureau precinct secretaries in communities where there is no Union store was unanimously accepted by the executive committee of the state federation, and word to this effect has been sent to the county bureaus.

The Hereford breeders of Webster county met recently and after hearing M. B. Posson, Extension Specialist, adopted a constitution and by-laws for a county association. The following officers for the ensuing year have been elected. Frank Bean Red Cloud, President, Earl Mattock, Bladen, Vice-president, P. H. Sarrick, Bladen, Secretary-treasurer.

Jesse Robertson of Madison county, a member of the farm bureau, says that flint corn is more desirable for hogging down than ordinary varieties of dent corn. Mr. Robertson tried this out for several years, before changing to flint corn entirely for hogging. He said that the hogs would go for the flint and leave the dent corn until the last.

Dawson county will have its first crop of soy beans this fall. C. T. White of Grant precinct and Wm. Shackley are giving the bean a try-out. They expect to plant them with corn and hog them off this fall. It is thought that soy beans are adapted to soil conditions in this county.

A great deal of interest has been taken in the pig clubs organized in Saunders county. Four clubs are now formed with local leaders in charge. One of the Wahoo clubs has 15 members. Some of the things discussed at the club meetings are: disease control, forage crops, balanced rations, self-feeders, hog chills and judging. Carl Jones, assistant state leader, will be in the county the forepart of May.

Ben Williams of Kansas City arrived in the city Saturday to visit his sister, Mrs. E. G. Caldwell and family.

The American Legion will give a dance in the Ball Room of the Auditorium after the picture show next Wednesday evening. Good music has been secured for the occasion.

Baptist Church Notes

Buy a NEW EDISON

"The Phonograph with a Soul"

Which phonograph—one that RE-CREATES music, or one that plays nothing but the talking-machine records?

The New Edison gives you those wonderful RE-CREATIONS of music, which make you feel that you are listening to the living artist. The New Edison also plays the records of all the principal talking-machine companies.

Only the New Edison does both these things. Only the New Edison sustains the test of direct comparison with living artists,—thus proving that there is no difference between it's RE-CREATION of music and the original music.

We deliver your New Edison on a small down payment. We'll make a gentleman's agreement with you so that you can take care of the balance at your convenience. Ask about our Budget Plan.
