A series of lectures are desired by our citizens during the winter, and a meeting was held last Tuesday eve, to forward the object. A committee was chosen to obtain lectures, of which J. F. Wright, M. D. was one.

A drowning accident occurred at Hatley P. Q., a few days ago in which the unfortunate ones were John Dudley and James Maxfield. The former has a sister living here. One of the bodies has been recovered.

At the election on Tuesday last, one vote for Greeley reached the ballot-box, and that was cast by a resident of Coventry. This little town certainly did all it could toward the re-election of Grant.

The following are the officers of Crystal Fountain Lodge for the quarter commencing November 1st: A. O. Joslyn, W. C. T.; A. B. Fisk, W. V. T.; W. C. Thrasher, W. S.; M. S. Twilight, W. F. S.; M. F. The poor coon must have had little idea what a busy place he was visiting.

The public examination of teachers for the town will take place on Tuesday, (tomorrow) commencing at 10 o'clock and continuing through the day. The public are invited.

E. E. Foster, our enterprising hotel keeper is to have a Thanksgiving ball. The Island Pond band is to be in attendance, and ample arrangements are being made to make the entertainment equal if not superior to anything of its kind. Foster spares no pains or expense to make his hotel a first class house. Josie sets a first rate table and is always good natured. Come one, come all; to Foster's ball.

30 for the opposition, giving the Hero of Vicksburg and Donaldson 135 majority. Thursday eve, after hearing the result of the election, the Grant boys cleaned up the old cannon, taking it up on to the hill above the village. Bent on having a little fun. The dangerous thing was left alone for a short time when some of the enemy spiked it. The boys were not to be intimidated by a few discomfited Greeleyites, so they built a hot fire round the breech, softening the old file, which was then easily removed, after which tender eared persons suffered. Friday evening the music was resumed until all were fully satisfied.

GREENSBORO.
The road to the "Bend" is completed, but will not be used as a wheel road until next summer.

At the election, Tuesday, Grant had 125 votes, Greeley, 16. George W. Hendee, for Congress had 114, Henry C. Adams, 15.

People have taken fright at the report of hogs being sick with the "horse distemper" and are slaughtering them. B. H. Cuthbertson dressed one 14 months old which weighed 593 pounds. Who beats that?

By letters from St. Joseph, Mich., we learn of the death of Dea. Benj. Comings, who was a former resident of this town, and widely known and respected throughout the county. His death will be regretted by a large circle of friends.

Chas. E. Doying leaves his faam on the Creek road, to move into A. M. Hawley's house in this village.

E. B. Hill has bought a house at the Common, which he is now repairing and fitting up for his winter quarters.

Our Senator, E. P. Colton is detained at home on account of sickness in his family.

One day last week a son of Mr. Moses Lanco had his arm broken above the elbow when scuffling with another boy. Dysentery is raging to some extent yet, although so late in the season.—Three persons are quite sick at present.

Simon Flint has moved in to his father's house near J. Lawrence's and Oliver Wells has moved in to the house he bought of Simon Flint.

Moses White has gone to Manassas Junction, Va., where he expects to meet C. P. Allen and accompany him in his Southern tour this winter.

S. W. Allen has been repairing the town house. He has put in seats, so that hereafter town meetings need not be quite such leg wearying business.

163 votes were polled for Grant, and 13 votes for Greeley. The disciples of the white-hat-coat philosopher appeared very much confused at the polls, not knowing who were the Greeley electors, until told by Grant men. So it is said.

Improvement is the order of the day here. R. S. Orne has painted his block on the corner of Depot and Hotel street. Chas. Wheeler is painting his house. S. H. Howard has built and painted an addition to his house.

The Irasburgh Library Association has recently made an addition to its books. It now has between one and two hundred volumes. For its size, we think it would be hard to find a finer selection of books. Is not a Library Association like this, supported by the desire of private citizens to supply themselves with the best literature of the past and present, preferable to the public town libraries proposed in a bill now before the Legislature? What such an association lacks in money is often made up by the interest and zeal of its members, who have a financial as well as a literary interest in its success.

Building side-walks is now the order of the day at Irasburgh Common. A new one is being built from the Methodist church to the jail house, and from there to Wheeler's store the old side-walk has been moved and repaired. A new one is also being built, commencing at W. D. Tyler's and extending to the Cong. church, to connect with one being built from said church to the new side-walk first mentioned. The public cannot be too thankful to those who originated and have this good work in charge.

LOWELL.
Rev. F. B. Phelps returned to duty again the 8th inst., after a four weeks' visit to his friends in Massachusetts, feeling much refreshed and strengthened by the vacation.

Mr. James Woodbury, an old and well-known resident of this place, committed suicide on Wednesday last by taking a large quantity of morphine. He had been for some time afflicted with a cancer in the mouth, which of late had grown rapidly and caused him much distress. On Wednesday he went to the hotel and called for a room where he could lie down and rest, and also called for part of a glass of water. Towards night he was found to be sleeping heavily and could not be aroused. A physician was called, but all efforts to restore him proved unavailing, and on Thursday he died. He had long been known as a bold blasphemer and an avowed disbeliever in any God, or any future state of existence.

MORGAN.
Charles Sanborn died of consumption October 18, aged 34, leaving a father and mother in feeble health who were dependent upon him. He is the third one of the family that has died within the last year.

Our enterprising merchant, L. Williams, is now receiving a lot of about 150 barrels of nice apples from Maine, which he is selling low, as he also is a good assortment of goods such as are usually kept in a country store.

The vote for President, on Tuesday, stood 114 for Grant & Wilson and an opposing vote cast. Although the voters were obliged to walk from all parts of the town (as almost every horse in town is sick) we poll a larger vote than in September; it being then 107 republican and 1 democrat. [Well done, Morgan.]

J. H. McGuire sells at public auction on Monday, November 18, his farm, hay, grain, tools &c. See bills.

Last Sabbath Rev. H. Stiles baptized three by immersion. Result of the vote for President on Tuesday: Grant, 85; Greeley, 37; O'Connor, 1.

Almost all the horses in town are sick with the distemper which is prevailing throughout the country. We have heard of no fatal cases.

J. Y. Green is putting up a tenement house on the lake shore near Mr. Bowleys.

It is said that "The Drunkard's Dream" is to be repeated to-morrow (Tuesday) evening. We hope it is so, for many were unable to attend last week. Each part was well played, but the part of Burt Snaky was considered by all to be the best played of any.

The man who was to wheel another about half a mile if Poland was elected to Congress backed out of the agreement, and "the boys" lost their anticipated treat.

Considerable money has changed hands on the result of the elections, and some, it is said in trying to affect said result.

The rejoicing over the election of Grant and Wilson was great. Wednesday, Thursday, and Friday evening it was unpopular, and in most cases, impossible, to go to sleep before the "wee small hours," and the ringing of the bells was heroic, (considering the power and constancy with which the boys attended to it), the firing of guns and cannon was terrific, and the bon-fires were splendid.

It appears pretty certain that Judge Steele would have been elected to Congress if his friends had rallied out and scattered their tickets on election day. In some towns this was done, and he received overwhelming majorities. In this place the *Calcedonian* says the ticket was circulated, but most of the men who voted for him in the caucus say they saw no such ticket, and did not vote for Congressman at all.

The following items are from the *Calcedonian*. Mr. F. B. Gage has sold his photograph gallery in this place, to Mr. Geo. A. Hastings of Lyndonville.

During the month of October there were 222 loaded cars to the scale works, and 50 loaded cars away, making 2700 tons of freight in 27 working days, 500 tons being completed scales.

The temperance lecture by Benj. Smith at the town hall Thursday evening did not draw a large audience, nor did the lecturer have a taking way; but that was no excuse for the boys to make a disturbance and march out of the hall in platoons. A few entertainments does not give license to ungentlemanly behavior.

A MEAN ACT.—The selectmen of St. Johnsbury received a brass twelve pound cannon from the Quarter-Master General, on Tuesday, and sometime during Tuesday night the piece was spiked with a rat-tail file. The obstruction was removed the next morning, but the act was none the less dastardly for that.—The gun was not sent here for political purposes, but for safe keeping and use when needed.

We understand that Mr. David Currier of Peacham, died of effects of injuries received at the railroad crossing below Fairbanks village. One of the days of the State Fair he was attempting to pass, when a train came along and frightened his horse so that he overtook him off the steep bank there, overturning the wagon upon him. When highways are never permitted to cross railroad tracks on the same level, one of the most fruitful sources of legalized

murder will be obviated. There are some half a dozen crossings in this town that should be changed before further accidents happen; and in this respect this town is like other railroad towns all over the state.

HIGHWAY ROBBERY.—Joseph Salomon of this town, was dragged off his pedlar's wagon three miles west of this place, on Monday evening, and robbed of his pocket book containing \$3,900 in money, and \$2,500 in bonds, and some notes. The particulars as Mr. Salomon gives them are these: He spent the Sabbath in Barnet; started Monday morning and drove through Peacham to Danville, reaching his father-in-law's—Dr. Woodard's—about supper time. He then drove down the old stage road toward this place. When at the foot of the Clement hill, some one stepped into the road in front of his horses and said, "Hold on." Salomon asked what was wanted, and the reply was: "Come down and see." Salomon reached for his whip in order to start up his horses, when a second man appeared and seizing him dragged him from his wagon. There was then a short tussle between these two, the robber endeavoring to get his victim by the throat, when the man at the horses called out impatiently as though the job was being prolonged. About this time some one—which, Saloman cannot say—struck him a heavy blow upon the top of his head, knocking him down and stunning him. When he came to himself, the robbers were gone, also his pocket book and money which he carried inside his vest. He turned his team about and returned to Thomas Harris', the nearest house, where he told his adventure as well as he could, and afterwards came to his home in this place. Sheriffs Weeks and Preston are scouring the country for robbers, and it is certainly to be hoped they may be successful in apprehending them.

Salomon cannot recall any one whom he suspects of this dastardly act; knows of no one who knew he had much money with him; but is inclined to the belief that these highwaymen struck at a venture, knowing that he had been out selling goods and possibly might have considerable money on his person. The act was committed about half-past seven, the night was quite dark, the locality secluded. If we have highwaymen among us our people will be careful how they carry money about their persons.

Boston Burned. A SECOND CHICAGO. Just as we go to press the following terrible news comes in by telegraph. The despatch is as follows: "A large portion of Boston, including the Western Union Telegraph Office and lines have been destroyed by fire. Loss estimated at two hundred millions. Fire reported under control. Loss of life heavy. Military called out to preserve order."

Despatches from the Junction state that it is thought the fire is still raging. Telegraph offices are all burned so that nothing can be had direct from Boston. A gentleman who came in on the noon express from St. Johnsbury, says that despatches there say 60 acres are burned.

I want to tell you a secret. The way to make yourself pleasant to others, is to show them attention. The whole world is like the miller of Mansfield, "who cared for nobody,—no, not he,—because nobody cared for him." And the whole world would serve you so, if you gave the cause. Let every one see that you do care for them, by showing them what Sterne so happily called the small courtesies, in which there is no parade, whose voice is too still to tease, and which manifest themselves by tender and affectionate looks, and little acts of attention, giving the preference in every little employment, at the table, in the field, walking, sitting and standing.

A HOUSEHOLD REMEDY.—No family should be without some efficacious remedy for the cure of effusions, so universally prevalent, as coughs, colds, sore throat, whooping-cough, and croup—some remedy, too, which can be relied upon as safe, sure and certain. Dr. Wistar's Balsam of Wild Cherry combines this desideratum.
