We spend one-sixth of our conscious existence in one chair. It is the chair on which we sit at table, and of all others it ought to be the most comfortable. Americans pay little regard to comfort in the dining-room furniture, and we are glad to note that one house has given the subject special attention. Purchasers of dining-room chairs or furniture should visit Palmer's Furniture Warehouses, 48 Canal street, Boston, before deciding on any purchases.

The Jan. No. of St. Nicholas is at hand and it is a most pleasing number. We always open this magazine with delight, and if we were only rich, should delight in being able to send it as a Christmas and New Year's gift to every boy and girl in the county.

It is a bad peculiarity of human nature, as exhibited in about one man in three, that men forget a hundred favors done them and become to hate a man whom they imagine has done them a single wrong. In keeping accounts of this kind like debts and credits are not of equal value.

It will save type if we do not say for each locality in this whole region "Christmas exercises were held on Tuesday evening, a large number attending. Everybody was remembered in the gifts bestowed and distributed."

The above is literally true, and we are glad that at least once a year, all are made conscious of the fact that good friends remember us.

Mr. and Mrs. Worthen desire to express through the Monitor their sincere thanks to the members of their Sunday School classes, and to the ladies of the M. E. Society, for the beautiful and valuable presents with which they were remembered on Christmas eve. Much as they prize the gifts, the spirit of love with which they were provided is still more precious. That Heaven's great love to men, of whom all our richest gifts are but faint types and shadows, may be accepted and held of you in everlasting possession, is their prayer.

The "Business Men's Carnival" which is being prepared by the ladies of the Cong. church, will be held in the Opera Hall on Saturday evening next. We understand that over sixty branches of business will be represented. Some may not know what this entertainment is; each branch of business is represented by a young lady whose costume advertises the business or occupation of some person, and the variety of costumes, comical and otherwise, make a most pleasing and attractive entertainment. The ladies are taking much pains to get this up and it is both novel and interesting. It has had great success in other localities. Admission 25 cents; children 15 cents.

The Heywood Chair Co. of Fitchburg, Mass., which has been doing a branch business here for the last thirty years in the supply of chair stock, has decided to wind up their business here soon, perhaps when the lumber on a lot or two of land is drawn in and cut. The timber in this region is pretty well cut out, and the stock cut out here costs more than the same bought of smaller mills about the country. The company suffers from sharp competition in all directions and reports say it is liable to close business ere long.

North Troy. The Eastman Machine shop building early Sunday morning, Dec. 22. It had made such progress that the citizens who rallied at the alarm were helpless so far as the shop was concerned. The fire increased rapidly and soon ignited the railroad bridge straggling over and in the rear of the shop. In the meantime, the W. G. Ekins building across the old road, and the West End building, machine shop and mill could not be saved. The Parker & Hart mill across the river was in great peril and was on fire repeatedly but was saved by heroic efforts. The loss of the buildings, machinery and manufactured goods is well up in the thousands and the fire will be a great misfortune to the village. The Eastman property consisting of the buildings, machine shop and laundry, tools, etc., was insured for only \$2,500. The excelsior manufacturer, same building, owned by J. Haggood & Son lost machinery and goods valued at \$2,000. Parker & Hunt ran a furniture manufactory in the same building, and lost machinery and stock valued at \$1,000. Here also was the wool catalog works of T. J. Sartwell and his loss is heavy. The town bridge across the river, not very valuable, was destroyed. The railroad bridge was not a valuable one, but was serving its purpose until a new one could be placed in its stead. I notice disparaging remarks in the St. Johnsbury Republican as to the settlement of Swedes in the town of Norton, and that the paper refers to the cheap price at which farms recently sold in Concord and Lineburgh. Now I should dislike to hold up a home in Norton, but neither does my soil crave a residence in Concord with its \$100,000 railroad bonds outstanding; nor for "Pond Hill" or the "West neighborhood" in Lineburgh. You can clear off and burn timber or take it to mill, but railroad taxes and rocks are worse than useless.
