TO POULTRY KEEPERS.

We have recently put in our mill a F.A. Mann Bone Cutter and are prepared to grind bone and meat for the public, and shall keep on hand, for sale, Green bone and meat for poultry, ground fresh every day, at the low price of 2 cts per pound. Green bone and meat contains 50 to 75 per cent nitrogen and albumen and from 15 to 25 per cent carbonate and phosphate of lime, when converted into poultry food. The constituents of the white and yolk of an egg are largely nitrogen and albumen. The shell is composed mostly of pure lime. It is because green bone and meat is so rich in lime and albumen that such wonderful results follow its use. It is justly considered the most perfect and complete food obtainable. Are you aware what the bone and scraps you are now feeding are composed of. They are the refuse of the soap factories. Refuse meat, bone, dead hogs often in various stages of decomposition thrown in vats and every particle of grease and nutritive matter extracted, run through a powerful press, then ground and put on the market as ground Bone Scraps and Poultry Food. Now if you feed on this refuse matter are benefited how much greater will the benefit prove when fed with fresh, untaunted meal and bone rich in every element that produces flesh, blood and bone, and contains all the essentials necessary to the construction of the eggs.

COWLES' MUSIC STORE,
BARTON, VT.

Our Opinion

Is that great Ads. about Christmas goods are not always positive evidence of the real greatness. Therefore we shall be brief in our statements, knowing that people look the Christmas fields over before purchasing. We feel confident that our store will speak for itself, the visitor can then judge of its comparative greatness.

We want every one to call and feel free to examine our goods without feeling obliged to purchase.

CAPES AND JACKETS.

We now offer for sale our entire stock of Ladies' Jackets and Capes at a **GREAT REDUCTION.** Our stock has been the largest in town, and we are now broken on sizes, every jacket is new this season. We have some beauties left, and they will go at bargain prices.

Our Capes will come under the same rule, and this is not common to be able to buy Capes and Jackets

AT GREATLY REDUCED PRICES

before Christmas; we have a large stock of them in. Plushes, Kersey, Meltons, Beaver, plain and fancy trimmed, a beautiful line of Goff Capes, and they must go as we do not buy them to keep. This is a great opportunity for a bargain.

Respectfully yours,

GEO. H. DAVIS.
