Without depreciating the value of any of the good advertising mediums, for there are many, I wish to state emphatically, and without qualification, that the newspaper is the best and cheapest advertising medium for the retail advertiser.

Something for nothing is not business, nor is it good advertising. That which we get for nothing, whether it be a free calendar or a free newspaper, receives little consideration.

THE WAR.

The developments the past week in the Eastern war are:—The Russian retirement from Tie pass and hurried retreat northward.

The close pursuit by the Japanese of the flying Russians. Russian ministers believe czar is convinced and peace terms seem imminent.

New uprising in Russia. More serious perhaps than any heretofore. It was expected that when Kuropatkin had managed to extricate his decimated army from the fearsome clutches of Oyama and had established himself at Tie pass, 40 miles north of Mukden, a place designed by nature and laboriously fortified for defense, he would be able to stop the progress of the Japanese.

News did come early last week of the repulse of the Japanese advance by the Russian rear guard seven miles south of the pass, in which the Russians were said to have lost 2000, while the Japanese left that number of corpses behind.

But that this fight was indecisive appeared when news came that Kuropatkin had hurriedly evacuated Tie pass Wednesday and continued his flight northward.

It is supposed he did this on account of a wide turning movement executed on one of his flanks by the Japanese, of which details are not at hand.

The Russians withdrew in three columns, one following the railroad, and the others the Mandarin road. The enemy pursued, but the Russians were able to gain by destroying bridges and putting obstacles behind them.

That Kuropatkin's abandonment of Tie pass without a fight was displeasing to the czar appeared when he was curtly removed from command without a word of commendation.
