This is a much needed improvement and it is hoped the authorities will do it at once.

The large number of applications for lodgings at the hotels for fair week has more than filled them, and the fair association wish all who have sleeping rooms to spare for that week would notify one of the two hotels. The prospects are that the attendance will be the largest ever known, judging from the applications for rooms and advance tickets for the grand stand, and it is hoped the people will avail themselves of the opportunity to do their pocketbook and the fair association a good turn.

Under the present system Barton received from the state in 1905 \$404.60 for schools, more than it paid to the state, and the state paid \$195.00 to care for the town's insane patients. This saved Mr. Clement's railroad \$28,199.34 in 1901. It cost Barton \$1645.42. Vote for your town's interest next week Tuesday.

In striking contrast to the recent Democratic rally with an attendance of forty the Republican rally here Tuesday evening was attended by more than 400 enthusiastic Proctor voters and supporters. The republican rally here Wednesday evening was largely attended and the speaking and speakers were enthusiastically received. B. F. D. Carpenter presided, introducing the speakers, Zad S. Stanton, Horace F. Graham, Fletcher D. Proctor and Geo. H. Prouty. The speaking was all free from mud slinging; the audience was very favorably impressed with Mr. Proctor and many availed themselves of the opportunity of meeting him at the hotel after the rally. Proctor spoke in a straightforward, convincing manner and closed by saying if he was elected governor he would as far as within his power conduct the affairs of the state in an honest, business-like way; and by the cheers from his listeners one would draw the conclusion that they would help him get the chance.

Willie Kelley, a young man twenty years old who was working in the box department of the mills, was badly hurt Wednesday and died Thursday. He was called to assist one of the mill hands in putting a belt on to a running pulley. He was hurt at 3 o'clock in the afternoon and died at 2 the next morning. He was living with his grandmother in the Wheeler block; and came here last May from Ayers Cliff where he had spent most of his life.
