ROLAND TOWLE.

A Polander, who was at work for the E. L. Chandler Company, met with a serious accident last Monday which came near depriving him of his life. The circumstances were as follows: He with others was taking some lumber into the dry-house on a car. He was inside when the car wheels ran off the track and the lumber tipping over onto him pressed his body against the walls into a space said to be less than four inches. The lumber was moved as quickly as possible and his body drawn out, but for some time he seemed to be dead. Later, he began to breathe, though he was senseless for a long time. He was taken to St. Johnsbury to Bright-look hospital, accompanied by Dr. Wright and Mr. Hennessey.

We do not confine our soliciting to the residents of the village: there is many a nearby attic filled with half-worn garments that can do good service to others and cellular from which a bushel of potatoes or vegetables, would never be missed. What you give us will be returned in money and used for the object for which it was given. Give us from your abundance, then come and enjoy what you have helped to create.
