An Unheard of Bargain
An Extra Good Farm
Of 250 acres in good location, cutting over 125 tons hay all by machine and having extra nice buildings and never failing water in house and stables is now offered for sale. This place was once sold for \$10,000 cash and has been improved every year since. The house is extra fine and newly painted throughout. The barn is 120 feet long with two floors and basement. It is the handiest barn I was ever in and it is in perfect condition. This place carried fifty head of horned cattle last winter and could have sold hay. On account of death in the family and a want of help the stock has been reduced to 26 choice young cows, 9 yearling heifers and 7 calves. At the recent appraisal by the Commissioners this personal property including stock, tools, crops, etc., was valued at \$3,000.
I can close out the entire outfit before December 1. I can sell the farm, stock, crops, tools and a thousand other small articles for \$7500, on easy terms. This is one of those rare chances in which the owner of the property is determined to sell regardless of actual value. Write me at once or call and get particulars.
