Regular Cloud Burst.

The storm Sunday was very severe and a large amount of water fell in a very short space of time. While the earth is suffering for water the rain of Sunday came too fast. There appeared to be a regular cloudburst in this vicinity as the wind and amount of water that fell would indicate. The roads were washed in many places and much damage done. On A. R. Wakeman's land gullies appear in his potato field fully five feet deep and his crops were damaged to the extent of \$100 while a large amount of soil was washed away and gullied to the extent of another \$100 damage. Some tomato plants and the sticks to which they were tied were found in the village, which tells something of the severity of the storm and wind.

Married Fifty Years.

One of the most pleasant events of the season was the gathering of about 75 relatives and friends of Mr. and Mrs. J. Williams of Morgan at their home June 27 to remind them of their 50th wedding anniversary. THE FOURTH AT NEWPORT

Miraculous Escape of Balloonist. Who Fell Into Lake and was Saved by Fisherman.

Fourth of July was appropriately observed at Newport but in an unusually quiet manner, the chief attraction being the races and other sports at the Memphremagog Driving park. The park is under new management this year and the track was in fine condition and some very good time was made, particularly for a date so early in the season. The baseball game was won by Newport, Hardwick proving an easy mark for the locals. The score was 17 to 3. The balloon ascension was a success as far as ascending was concerned, but the aeronaut, Lawrence Davis, nearly lost his life in the descent. The program included the shooting of Mr. Davis from a cannon in mid-air with parachute drop. The cannon was discharged all right but some part of the mechanism failed to work and did not throw the aeronaut from the cannon. He descended with the balloon, and, still in the cannon, went to the bottom of the lake between Horseneck island and Lindsay's beach, in 15 feet of water. In some miraculous manner Mr. Davis got out of the cannon and, freeing himself from the floating balloon, which burst when it struck the water, was picked up by some men in a rowboat who chanced to be fishing near by. He said that after this experience the plain parachute drop would be enough of an exhibition for him. The automobile race was in slow time through the inability or lack of desire of the local chaffeurs to take the horns on a half mile track at high speed. The official score cards have not been put in shape for publication but will appear in the Newport locals next week. The attendance was nearly 4000, and all who were interested in racing were very much gratified with the exhibition. See Newport page for other Newport news.

Geo. Rollins Killed by Horse.

We have to record the sad tragedy of the death of Geo. H. Rollins of Barton by the kick of a horse on July 1. It appears he went to the barn that morning to do some work, came into the house with a pail of cream, and went back. Meanwhile his little son took a horse out to water and when he returned to the barn his father lay on the floor. He reported it to his family who on going to the stable found Mr. Rollins dead. A horse which he was cleaning off had kicked him over the heart, and it is supposed he died instantly. Mr. Rollins had lived in this vicinity for several years. He made his home in Dover, Del., for a short time, but came back last fall and bought the place where he died. The funeral was attended Sunday, and it is stated that of the order of Woodmen of which he was a member, there were about 75 members who attended, including those who came from the Barton team, the Barton Landing team, and those from the Irasburg team who went to the cemetery, the interment taking place at Irasburg. Rev. W. B. Dukeshire officiated at the funeral, and the Woodmen took charge of the services at the grave. Mr. Rollins leaves a family of five children, the oldest being 13 years old, his wife, and his father and mother, who made their home with his family. His father is an invalid from rheumatism and a great sufferer. Mr. Rollins was in his 42nd year and just in the prime of life. The family have the sympathy of the whole community, as shown by the very large attendance at his funeral. Mr. Rollins carried a policy of \$1000 in the Woodmen's lodge. He was a prominent member of the organization, being one of the leaders in the organization of the camp at Irasburg and also at Barton Landing.
